thesis Adam Mickiewicz University 2001 **New Essays on Seize the Day** Michael P. Kramer, 1998-12-28 A collection of essays first published in 1999 on Saul Bellow's Seize the Day The Cambridge Companion to American Novelists Timothy Parrish, 2013 This volume provides newly commissioned essays from leading scholars and critics on the social and cultural history of the novel in America. It explores the work of the most influential American novelists of the past 200 years including Melville, Twain, James, Wharton, Cather, Faulkner, Ellison, Pynchon, and Morrison *The Life of Saul Bellow* Zachary Leader, 2018 This is a Borzoi Book *Saul Bellow and American Transcendentalism* Mohammad A. Quayum, 2004 Saul Bellow and American Transcendentalism explores Saul Bellow's moral and philosophical affinity with the writers of American transcendentalism especially Emerson and Whitman. Its focus is on the vintage Bellow or his mature novels from Henderson the Rain King 1959 to The Dean's December 1982. In these novels Bellow highlights a moral crisis arising from humankind's despiritualization and dehumanization which he believes is responsible for an ongoing dichotomy in the modern world. Bellow describes this as a dichotomy of the Cleans and the Dirties in the context of American culture. To rectify this dichotomy and redeem humankind from its current death-ridden state Bellow and his protagonists advance a vision of life that corresponds to the transcendental vision of dialogue and double consciousness or coordination and balance. Like Emerson they advocate "The mid world is best." A man is a golden impossibility; the line he must walk is a hair's breadth. Comparable to Whitman they urge the individual to knit the knot of contrariety and act as an arbiter of the diverse *Saul Bellow and the Struggle at the Center* Eugene Hollahan, 1996 Based upon the autumn 1984 issue of Studies in the Literary Imagination this volume retains some earlier essays and adds new examinations of the entire oeuvre of Bellow. There are essays by recognized scholars as well as several by emerging Bellow scholars. As a continuing examination of a living writer this collection will serve to address questions that the volume editor has determined are of most importance. Eugene Hollahan has written wherever Bellow's philosophical development has led him; we must look at his latest novel to discover that position American Literature in Transition, 1980-1990 D. Quentin Miller, 2017-12-28 History has not been kind to the 1980s. The decade is often associated with absurd fashion choices, neo Conservatism in the Reagan-Bush years, the AIDS crisis, Wall Street ethics, and uninspired television, film, and music. Yet the literature of the 1980s is undeniably rich and lasting. *American Literature in Transition 1980-1990* seeks to frame some of the decade's greatest achievements such as Toni Morrison's monumental novel Beloved and to consider some of the trends that began in the 1980s and developed thereafter including the origins of the graphic novel, prison literature, and the opening of multiculturalism vis-à-vis the canon wars. This volume argues not only for the importance of 1980s American literature but also for its centrality in understanding trends and trajectories in all contemporary literature against the broader background of culture. This volume serves as both an introduction and a deep consideration of the literary culture of our most maligned decade *Multiple Contexts And Insights* S. & Anu Shukla, 2003

Re-Thinking Theory Richard Freedman,Seumas Miller,1992-05-07 These deficiencies are ascribed principally to three aspects of modern theoretical schools the commitment to a non referential view of language the rejection of substantive accounts of the individual and a repudiation of moral and aesthetic evaluation The alternative account offered by Professors Freedman and Miller incorporates the values renounced by contemporary literary theory and places a central emphasis on ethical discourse

Witnessing the Disaster Michael Bernard-Donals,Richard Glejzer,2003-12-15 Witnessing the Disaster examines how histories films stories and novels memorials and museums and survivor testimonies involve problems of witnessing how do those who survived and those who lived long after the Holocaust make clear to us what happened How can we distinguish between more and less authentic accounts Are histories more adequate descriptors of the horror than narrative Does the susceptibility of survivor accounts to faulty memory and the vestiges of trauma make them any more or less useful as instruments of witness And how do we authenticate their accuracy without giving those who deny the Holocaust a small but dangerous foothold These essayists aim to move past the notion that the Holocaust as an event defies representation They look at specific cases of Holocaust representation and consider their effect their structure their authenticity and the kind of knowledge they produce Taken together they consider the tension between history and memory the vexed problem of eyewitness testimony and its status as evidence and the ethical imperatives of Holocaust representation
