**The Wild Woman of Cincinnati** Michael D. Pierson,2023-04-05 Popular entertainment in antebellum Cincinnati ran the gamut from high culture to shows barely above the level of the tawdry Among the options for those seeking entertainment in the summer of 1856 was the display of a Wild Woman purportedly a young woman captured while living a feral life beyond the frontier The popular exhibit which featured a silent underdressed woman chained to a bed was almost assuredly a hoax Local activist women

however used their influence to prompt a judge to investigate the display The court employed eleven doctors who forcibly subdued and examined the woman before advising that she be admitted to an insane asylum In his riveting analysis of this remarkable episode in antebellum American history Michael D Pierson describes how people in different political parties and sections of the country reacted to the exhibit Specifically he uses the lens of the Wild Woman display to explore the growing cultural divisions between the North and the South in 1856 especially the differing gender ideologies of the northern Republican Party and the more southern focused Democrats In addition Pierson shows how the treatment of the Wild Woman of Cincinnati prompted an increasing demand for women's political and social empowerment at a time when the country allowed for the display of a captive female without evidence that she had granted consent **Urban Animals** Tora

Holmberg,2015-03-27 The city includes opportunities as well as constraints for humans and other animals alike Urban animals are often subjected to complaints they transgress geographical legal and cultural ordering systems while roaming the city in what is often perceived as uncontrolled ways But they are also objects of care conservation practices and biopolitical interventions What then are the more than human experiences of living in a city What does it mean to consider spatial formations and urban politics from the perspective of human animal relations This book draws on a number of case studies to explore urban controversies around human animal relations in particular companion animals free ranging dogs homeless and feral cats urban animal hoarding and crazy cat ladies The book explores zoocities the theoretical framework in which animal studies meet urban studies resulting in a reframing of urban relations and space Through the expansion of urban theories beyond the human and the resuscitation of sociological theories through animal studies literature the book seeks to uncover the phenomenon of humanimal crowding both as threats to be policed and as potentially subversive In this book a number of urban controversies and crowding technologies are analysed finally pointing at alternative modes of transpecies urban politics through the promises of humanimal crowding of proximity and collective agency The exclusion of animals may be an urban ideology aiming at social order but close attention to the level of practice reveals a much more diverse disordered and perhaps disturbing experience **Babes in Tomorrowland** Nicholas Sammond,2005-07-20

offers a paradigm shifting understanding of the subject Part One assesses the theory and prehistory of dystopia By contrast to utopia conceived as promoting an ideal of friendship defined as enhanced sociability dystopia is defined by estrangement fear and the proliferation of enemy categories A natural history of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms The work of Le Bon Freud and others is used to show how dystopian groups use such emotions Utopia and dystopia are portrayed not as opposites but as extremes on a spectrum of sociability defined by a heightened form of group identity The prehistory of the process whereby enemies are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft and the persecution of heresy Part Two surveys the major dystopian moments in twentieth century despotisms focussing in particular upon Nazi Germany Stalinism the Chinese Cultural Revolution and Cambodia under Pol Pot The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular Part Three examines literary dystopias It commences well before the usual starting point in the secondary literature in anti Jacobin writings of the 1790s Two chapters address the main twentieth century texts usually studied as representative of the genre Aldous Huxley s Brave New World and George Orwell s Nineteen Eighty Four The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present
