**The 'Grammar' of Sacrifice** Naphtali S. Meshel, 2014-07-31 The notion that rituals like natural languages are governed by implicit rigorous rules led scholars in the last century harking back to the early Indian grammarian Patajali to speak of a grammar or syntax of ritual particularly sacrificial ritual Despite insightful examples of ritual complexes that follow hierarchical rules akin to syntactic structures in natural languages and ambitious attempts to imagine a Universal Grammar of sacrificial ritual no single comprehensive grammar of any ritual system has yet been composed This book offers the first such grammar Centering on the idealized sacrificial system represented in the Priestly laws in the Pentateuch it demonstrates that a ritual system is describable in terms of a set of concise unconsciously internalized generative rules analogous to the grammar of a natural language Despite far reaching diachronic developments reflected in Second Temple and rabbinic literature the ancient Israelite sacrificial system retained a highly unchangeable grammar which is abstracted and analysed in a formulaic manner The limits of the analogy to linguistics are stressed rather than categories borrowed from linguistics such as syntax and morphology the operative categories of are abstracted inductively from the ritual texts zoemics the study of the classes of animals used in ritual sacrifice jugation the rules governing the joining of animal and non animal materials hierarchics the tiered structuring of sacrificial sequences and praxemics the analysis of the physical activity comprising sacrificial procedures Finally the problem of meaning in non linguistic ritual systems is addressed **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1969 First multi year cumulation covers six years 1965 70 *Current Catalog* National Library of Medicine (U.S.), 1969 Includes subject section name section and 1968 1970 technical reports *Catalog of the Robert Goldwater Library, the Metropolitan Museum of Art* Robert Goldwater Library, 1982 **Books in Print**, 1993-09 V 1 Authors A D v 2 Authors E K v 3 Authors L R v 4 S Z v 5 Titles A D v 6 Titles E K v 7 Titles L Q v 8 Titles R Z v 9 Out of print out of stock indefinitely v 10 Publishers **The Relevance of Philosophy** Edward MacKinnon, 2018-10-16 As the culmination of a long career in philosophy plus long excursions in physics history and theology the author reflects on what must be done to make philosophy relevant to non philosophers Philosophers the author argues should go beyond specialized philosophical studies acquire a knowledge of other disciplines and then try to clarify the way things hang together on a deep conceptual level A novel feature of this book is that it emphasis on public morality understanding it in an evolutionary perspective and guides efforts to raise accepted moral standards **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles** University of California (System). Greek female sphere and its relation to the official male dominated ideology Within these festivals are encountered supplementary complementary or competing ideologies connected with men and women and it is shown that there is not a one way power structure or male dominance within Greek culture but rather competing powers linked to the two sexes and their respective spheres In addition to gender the book also explores the relationship between the great and little societies in the form of official and popular religion As such it will serve to broaden the reader s knowledge of ancient but also modern society because it concerns the relationship between various spheres of life which each possess their own competing and overlapping but also co existing value systems

**French Primitivism and the Ends of Empire, 1945-1975** Daniel J. Sherman, 2011-11-15 For over a century the idea of primitivism has motivated artistic modernism Focusing on the three decades after World War II known in France as les trentes glorieuses despite the loss of most of the country's colonial empire this probing and expansive book argues that primitivism played a key role in a French society marked by both economic growth and political turmoil In a series of chapters that consider significant aspects of French culture including the creation of new museums of French folklore and of African and Oceanic arts and the development of tourism against the backdrop of nuclear testing in French Polynesia Daniel J Sherman shows how primitivism a collective fantasy born of the colonial encounter proved adaptable to a postcolonial inward looking age of mass consumption Following the likes of Claude Lévi-Strauss André Putnam and Jean Dubuffet through decorating magazines museum galleries and Tahiti's pristine lagoons this interdisciplinary study provides a new perspective on primitivism as a cultural phenomenon and offers fresh insights into the eccentric edges of contemporary French history
