Children of Katrina Alice Fothergill, Lori Peek, 2015-09-01 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily bounce back. But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events, and how do they cope with the damage and disruption? *Children of Katrina* offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories: declining, finding equilibrium, and fluctuating as they tried to regain stability. The children's moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing, and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social,

and structural factors that aid or hinder children in getting that support      **Arshella the Story Teller by the Sea** William Brown, 2009-08 Called for a simple rescue and recon mission Commander Janice Anders Daria and the crew of the Battlecruiser Pegasus journey to the Lucifer System Upon arrival at the planet they are greeted by enraged genetic monsters Drazakian insurgents and a mystery at the science station Commander Janice Anders Daria and the crew find themselves in the middle of a clever trap by the Drazakians and must defend themselves as an entire fleet engages them Once again the Battlecruiser Pegasus and the Task Force 1 A find themselves in harms way in the war between Earth and the Drazakian Dynasty      Captain Nobody Dean Pitchford, 2009-07-09 When Newt Newman s football star brother Chris is knocked into a coma during the biggest game of the season Newt s two best friends keep his mind off of the accident by helping him create the ultimate Halloween costume Captain Nobody Newt feels strong and confident in his new getup so he keeps wearing it after Halloween is over Soon Newt assumes the role of a hero in a string of exploits that include foiling a robbery and saving a planeload of passengers But will Captain Nobody be able to save the one person he cares about most      Booktalking Across the Curriculum Nancy J. Why Knot: A Personal Quest Richard Seltzer, 2022-12-30 I don't think outside the box There is no box The box is an illusion that limits the range of what we consider squashing curiosity and creativity ruling out possible solutions Many of these short essays derive from my belief that as individuals and as a species self regulating mechanisms push us toward balance and reason and compassion Our worst experiences and dreams can help nudge us in the right direction as if some force were trying to navigate a huge ship down a river with the crudest of controls I need to know who I am and why I am and how my life might matter in the context of those who came before me and those who will come after But the answers offered by religion feel insufficient and scientific knowledge has advanced to the point that it is beyond the understanding of laymen I would like to participate in the endeavor of scientific discovery and make a contribution but the advancement of science will not end in my lifetime and will probably never end I need answers that make sense here and now I do not adhere to any organized religion or established set of beliefs But I am not an agnostic Rather I am a seeker Life has meaning and that meaning can be found perhaps in interconnectedness and relationships and perhaps by intuition rather than reason and perhaps in flashes of insight These essays cover Big Questions Identity Memory and Communication Understanding the World We Live In Politics and Government Literature Reading and Writing The Double Edged Impact of Technology History Business and Product Ideas and Everyday Life How to Live How to Cope
