Save The Children Humanitarian Organizations:

Saving the Children Emily Baughan, 2021-11-23 *Saving the Children* analyzes the intersection of liberal internationalism and imperialism through the history of the humanitarian organization Save the Children from its formation during the First World War through the era of decolonization Whereas Save the Children claimed that it was saving children to save the world the vision of the world it sought to save was strictly delimited characterized by international capitalism and colonial rule Emily Baughan's groundbreaking analysis across fifty years and eighteen countries shows that Britain's desire to create an international order favorable to its imperial rule shaped international humanitarianism In revealing that modern humanitarianism and its conception of childhood are products of the early twentieth century imperial economy *Saving the Children* argues that the contemporary aid sector must reckon with its past if it is to forge a new future Voluntary Organisations, the Red Cross, and the Features of Humanitarian Reconstruction in Western Europe after the World Wars Romain Fathi, Melanie Oppenheimer, Paul-André Rosental, 2025-06-11 This book explores the ways in which non government organisations have contributed to the reconstruction of and care for populations in Western European countries including but not limited to Belgium France Germany Italy and the United Kingdom in the aftermath of the World Wars Historical research on voluntary or non government organisations and their contribution to the reconstruction of states communities and humanitarian assistance to civilian populations following conflicts epidemics and disasters through the twentieth century has generally focused on non Western European countries except for Second World War II The historiography suggests that it is mostly in Eastern Europe the Middle East Asia and Africa that natural or man made disasters have occurred and that these places have been the focus for humanitarian assistance Rather the humanitarian enterprise is viewed through the binary of the Global North Global South those who save and those who are saved The chapters in this volume investigate how the Red Cross movement the League of Red Cross Societies the International Committee of Red Cross and individual national societies and other voluntary organisations such as the Rockefeller Foundation and a range of other international and local non government bodies have contributed to reconstruction in these countries at both national and local levels following times of crises such as wars civilian upheavals and disasters This book will appeal to scholars and students of history humanitarian studies international relations and social sciences The chapters in this book were originally published as special issues in *European Review of History* *Revue européenne d'histoire* Empireworld Sathnam Sanghera, 2024-05-07 Bestselling author and journalist Sathnam Sanghera explores the global legacy of the British Empire and the ways it continues to influence economics politics and culture around the world 2.6 billion people are inhabitants of former British colonies The empire's influence upon the quarter of the planet it occupied and its gravitational influence upon the world outside it has been profound from the spread of Christianity by missionaries to the shaping international law Even today 1 in 3 people drive on the left hand side of the road an artifact of the British empire Yet Britain's idea of its imperial history and the world's

experience of it are two very different things Following in the footsteps of his bestselling book *Empireland How Imperialism Has Shaped Modern Britain* Empireworld explores the ways in which British Empire has come to shape the modern world Sanghera visits Barbados where he uncovers how Caribbean nations are still struggling to emerge from the disadvantages sown by transatlantic slavery He examines how large charities like Save the Children and the World Bank still see the world through the imperial eyes of their colonial founders and how the political instability of nations such as Nigeria for instance can be traced back to tensions seeded in their colonial foundations And from the British Empire's role in the transportation of 12.5 million Africans during the Atlantic slave trade to the 35 million Indians who died due to famine caused by British policy the British Empire as Sanghera reveals was responsible for some of the largest demographic changes in human history Economic legal and political systems across the world continue to function along the lines originally drawn by the British Empire and cultural sexual psychological linguistic demographic and educational norms originally established by imperial Britons continue to shape our lives British Empire may have peaked a century ago and it may have been mostly dismantled by 1997 but in this major new work Sathnam Sanghera ultimately shows how the largest empire in world history still exerts influence over planet Earth in all sorts of silent and unsilent ways **The Women of Berkshire Hathaway** Karen

[Military Training And Children In Armed Conflict](#) Jenny Kuper, 2005 During recent armed conflicts such as those in Iraq the former Yugoslavia and Rwanda public attention was repeatedly caught by images of children both as civilians and as soldiers Those conflicts like so many others were vivid reminders that where there is armed conflict there are also almost always children Soldiers and officers fulfil many roles in relation to such children sometimes as combatants sometimes as humanitarian workers sometimes as protectors and or sometimes as enemies and abusers This book aims to address three main questions what are the obligations of officers of national armed forces in relation to children either civilians or

combatants whom they or those under their command may encounter while participating in situations of armed conflict How realistic and achievable are these obligations How can compliance with them be encouraged monitored and or enforced The book examines these questions in the context of military training In doing so it has another inextricably linked aim to see if there are ways in which the training of officers can improve the protection of children in armed conflict situations in accordance with international law and policy It is intended for use particularly by those involved in training of national armed forces including officers themselves and members of governments non governmental organisations NGOs and inter governmental organisations It is hoped that it will also be of interest to lawyers academics and others concerned with child rights and related law and policy It contains examples of actual training materials that can be modified for use in different countries and contexts
