true story of covert scouting missions dangerous parachute jumps and fighting to survive in the face of impossible odds this is the SAS like you've never read before **Hostage** Jamie Doward, 2016-01-07 Making a killing in the market A bomb takes out a CIA station chief in Geneva A serial killer strikes apparently at random across the UK In Algeria a terrorist network that controls the illicit trade in guns drugs oil and cigarettes is preparing to murder a hundred US and British energy workers unless a ransom is paid The British and the American intelligence services are competing to find the kidnappers for very different reasons One person can see how everything is linked and that both MI5 and the CIA are being manipulated as part of a grotesque marketing campaign But Kate Pendragon threatens vested interests who don't want the truth to surface And some of them are very close to home **Hostages and Human Rights** Sofia Galani, 2021-07-08 Hostage taking has increased in recent years and has become a problem of worldwide concern Terrorists and pirates have used hostages in a rising number of incidents and the violence used has escalated alarmingly Sofia Galani examines the taking of hostages from a victim's perspective arguing that the international community has failed to protect them By evaluating various international law concepts and frameworks including jurisdiction in international law state responsibility and international human rights law Galani explains why we are still far from recognizing hostages as victims of human rights violations She then addresses the question of what can be done to safeguard the human rights of hostages both in theory and practice Being the first comprehensive study of the human rights of hostages this book fills a critical gap in the literature for human rights lawyers and researchers in the field **ISIS Hostages** Chris Townsend, 2017-12-15 In August 2014 ISIS surged onto the global stage with the horrific killing of a journalist who had been held hostage by the group The gruesome video was followed by several others as ISIS sought to capture and maintain the attention of the world media and encourage recruits to join them ISIS's treatment of hostages has led some to take their own lives instead of being captured But not all hostages are equal under the Islamic State This book will explore the role of hostages under ISIS from those who are killed or forced to fight to those who are used for their value as propaganda or their ability to generate income in the form of bribes for the Islamic State , **No Rules** Starr Ambrose, 2014-08-04 Jess Maulier's estranged father was more than the quiet professor of linguistics he appeared to be she is shocked to discover he was also an operative for a covert group that rescues hostages Before he died he left Jess a vital clue to a rescue Unfortunately it's in the form of a children's story and she has no idea what it means Though she resents the close professional and personal relationship the handsome and dangerous Tyler Donovan had with her absentee father she turns to him for help But Tyler doesn't know how to interpret the story either An attempt to decipher it takes them to Egypt where danger ignites sparks between them Tyler can't get involved though Professor Shikovski advised him never to risk emotional attachments and Jess tempts him more than could ever be safe No matter how enticing she is he has to maintain his distance to preserve his focus But only mutual trust can save them from encroaching danger **The Death of an Agent** RM Secor, 2005-06-30 The Death of an Agent portrays a young man who has been put in

Oppose Any Foe Mark Moyar, 2017-04-25 The epic story of America's most elite warriors the Special Operations Forces Born as small appendages to the conventional armies of World War II the Special Operations Forces have grown into a behemoth of 70 000 troops including Navy SEALs Army Special Forces Special Operations Marines Rangers and Delta Force Weaving together their triumphs and tribulations acclaimed historian Mark Moyar introduces a colorful cast of military men brimming with exceptional talent courage and selflessness In a nation where the military is the most popular institution America's Special Operations Forces have become the most popular members of the military Through nighttime raids on enemy compounds and combat advising of resistance movements special operators have etched their names into the nation's registry of heroes Yet the public knows little of the journey that they took to reach these heights

a journey that was neither easy nor glamorous Fighting an uphill battle for most of their seventy five year history the Special Operations Forces slipped on many an occasion and fell far on several Presidents from Franklin Roosevelt to Barack Obama have enthusiastically championed Special Operations Forces but their enthusiasm has often surpassed their understanding resulting in misuse or overuse of the troops Lacking clearly defined missions Special Operations Forces have had to reinvent themselves time and again to prove their value in the face of fierce critics many of them from the conventional military which from the start opposed the segregation of talent in special units Highlighting both the heroism of America s most elite soldiers and the controversies surrounding their meteoric growth Oppose Any Foe presents the first comprehensive history of these special warriors and their daring missions It is essential reading for anyone interested in America s military history and the future of warfare
