Kapur, Kim-Chong Chong, 2012-12-06 *Altruistic Reveries* is a unique volume which arises out of an Interdisciplinary Conference on Perspectives on Altruism from the Humanities and Social Sciences organized by the Centre for Advanced Studies Faculty of Arts and Social Sciences National University of Singapore in October 1999 Altruism is a deep multi faceted phenomenon of great interest and relevance to scholars across the entire range of disciplines in the Humanities and Social Sciences The Centre therefore brought together experts in diverse disciplines Philosophy Literature Psychology Sociology Economics and Political science to examine and discuss the significance and role of altruism from their respective perspectives A total of 10 papers in all were presented and the volume is completed by an Introduction by the editors and a final Concluding Chapter by one of the editors Among the issues discussed are the efficacy of motivational altruism in the resolution of public issues the genetic origins of altruism and its attendant risks the metaphysical basis of altruism empathy and altruism altruism or social exchange altruism in wartime and the welfare state A notable feature of the volume is that the various authors have not talked past one another Although each is a specialist in his field the papers are accessible to those in other fields and to non specialists Both individually and together they provide a rich set of insights and perspectives on altruism as a fundamental human and social phenomenon which will edify interest and stimulate all readers of the volume Library of Congress Catalog Library of Congress, 1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 **Political Science**, 1975 *Thorstein Veblen, John Dewey, C. Wright Mills and the Generic Ends of Life* Rick Tilman, 2004-02-12 Although Veblen Dewey and Mills disagreed on a number of points Rick Tilman shows how these thinkers forged an authentic coherent and original tradition of critical social science in the United States By comparing their views on a number of timely issues such as aesthetics feminism and gambling the author shows how their tradition is vibrantly relevant in the new millenium *Books in Series*, 1980 **Politics for Human Beings** Ralph P. Hummel, 1980 **National Union Catalog**, 1973 Includes entries for maps and atlases Existential Phenomenology and the Science of Politics Elmer Henry Holthus, 1973 The Publishers' Trade List Annual R. R. Bowker LLC, 1972 **Handbook of Political Science** Fred I. Greenstein, Nelson W. Polsby, 1975 **Tropes of Politics** John S. Nelson, 1998-04-15 Talk is of central

importance to politics of almost every kind it is no accident that when the ancient Greeks first attempted to examine politics systematically they developed the study of rhetoric In *Tropes of Politics* John Nelson applies rhetorical analysis first to political theory and then to politics in practice He offers a full and deep critical examination of political science and political theory as fields of study and then undertakes a series of creative examinations of political rhetoric including a deconstruction of deliberation and debate by the U S Senate prior to the Gulf War Using the neglected arts of argument refined by the rhetoric of inquiry Nelson traces how everyday words like consent and debate construct politics in much the same way that poets such as Mamet and Shakespeare construct plays and he shows how we are remaking our politics even as we speak *Tropes of Politics* explores how politicians take stands and political scientists probe representation how experts become informed even as citizens become authorities how students actually reinvent government while professors merely model politics how senators wage war yet keep comity among themselves The action Nelson shows is in the tropes these figures of speech and images of deed can persuade us to turn from ideologies like liberalism toward spectacles about democracy or movements into environmentalism and feminism His argument is that inventive attention to tropes can mean better participation in politics And the argument is in the tropes evidence itself as sights or citations governments as machines or men politics as hardball or softball deliberations as freedoms or constraints borders as fringes or friends

Teaching Political Science Vernon Van Dyke, 1977 **Political Science Methods** G. David Garson, 1976 Law Books, 1876-1981
