Saving The Children:

Saving the Children Emily Baughan, 2021-11-23 *Saving the Children* analyzes the intersection of liberal internationalism and imperialism through the history of the humanitarian organization Save the Children from its formation during the First World War through the era of decolonization Whereas Save the Children claimed that it was saving children to save the world the vision of the world it sought to save was strictly delimited characterized by international capitalism and colonial rule Emily Baughan's groundbreaking analysis across fifty years and eighteen countries shows that Britain's desire to create an international order favorable to its imperial rule shaped international humanitarianism In revealing that modern humanitarianism and its conception of childhood are products of the early twentieth century imperial economy *Saving the Children* argues that the contemporary aid sector must reckon with its past if it is to forge a new future **Saving Children From the Holocaust** Ann Byers, 2012-01-01 Discusses the Kindertransport including the people who organized the operation how the transports worked the children's lives who escaped on a transport and how ten thousand children were saved from the Holocaust Provided by publisher *Saving Children* Jack Werber, 2017-07-05 In *Saving Children* Jack Werber describes in detail what life in Buchenwald was like painting a haunting picture of his daily struggle for survival But Werber did more than survive he made saving children his special mission In what is one of the most amazing stories of the Holocaust Jack Werber helped to save the lives of some seven hundred Jewish children who had arrived at Buchenwald in late 1944 including Nobel Prize winner Elie Wiesel and Rabbi Israel Meir Lau former Chief Rabbi of the State of Israel At great personal risk he arranged for the children to be hidden in various barracks with false working papers He and his group actually started a school where the children studied Jewish history music and Hebrew These activities gave the youngsters hope that they might survive and ultimately most of them did Werber's entire family his wife daughter parents and seven siblings were all murdered by the Nazis There was no reason to go on he had thought but seeing the children transformed his outlook He resolved to prevent them from meeting his daughter's fate Out of 3 200 Polish prisoners who entered the camp together with Werber only eleven were alive by war's end Of those he was the only Jew *Saving Children from a Life of Crime* David P. Farrington, Brandon C. Welsh, 2008-10-08 After decades of rigorous study in the United States and across the Western world a great deal is known about the early risk factors for offending High impulsiveness low attainment criminal parents parental conflict and growing up in a deprived high crime neighborhood are among the most important factors There is also a growing body of high quality scientific evidence on the effectiveness of early prevention programs designed to prevent children from embarking on a life of crime Drawing on the latest evidence *Saving Children from a Life of Crime* is the first book to assess the early causes of offending and what works best to prevent it Preschool intellectual enrichment child skills training parent management training and home visiting programs are among the most effective early prevention programs Criminologists David Farrington and Brandon Welsh also outline a policy strategy early prevention that uses this

current research knowledge and brings into sharper focus what America's national crime fighting priority ought to be. At a time when unacceptable crime levels in America, rising criminal justice costs and a punitive crime policy have spurred a growing interest in the early prevention of delinquency, Farrington and Welsh here lay the groundwork for change with a comprehensive national prevention strategy to save children from a life of crime.

Saving Children from a Life of Crime : Early Risk Factors and Effective Interventions Institute of Criminology, Cambridge University. David P. Farrington, Professor of Psychological Criminology, Department of Criminal Justice, University of Massachusetts. Brandon C. Welsh, Assistant Professor, Lowell, 2006-10-25. After decades of rigorous study in the United States and across the Western world, a great deal is known about the early risk factors for offending. High impulsiveness, low attainment, criminal parents, parental conflict, and growing up in a deprived, high crime neighborhood are among the most important factors. There is also a growing body of high quality scientific evidence on the effectiveness of early prevention programs designed to prevent children from embarking on a life of crime. Drawing on the latest evidence, *Saving Children from a Life of Crime* is the first book to assess the early causes of offending and what works best to prevent it. Preschool intellectual enrichment, child skills training, parent management training, and home visiting programs are among the most effective early prevention programs. Criminologists David Farrington and Brandon Welsh also outline a policy strategy: early prevention that uses this current research knowledge and brings into sharper focus what America's national crime fighting priority ought to be. At a time when unacceptable crime levels in America, rising criminal justice costs and a punitive crime policy have spurred a growing interest in the early prevention of delinquency, Farrington and Welsh here lay the groundwork for change with a comprehensive national prevention strategy to save children from a life of crime.

[Saving Our Kids](#) Marc Gorelick, MD, 2025-04-10. If someone were to ask you what the leading cause of death is among American children today, what would you say? Cancer. Car accidents. Obesity. The answer is firearms. Guns kill more children in our country than anything else. It's a shocking statistic, no matter your politics. So how do we solve it? Where can we find common ground on one of the most divisive issues in America? The solution, according to Dr. Gorelick, lies in public health. In *Saving Our Kids*, An ER Doc's Common Sense Solution to the Gun Crisis, Dr. Gorelick unfurls a roadmap that everyone, from pediatricians to the general public, can follow. The key is taking a fresh look at the issue of guns through the lens of public health and leading the debate away from partisanship and toward reasonable policies that will save children's lives. As a father, pediatrician, and leader of one of the largest independent pediatric health systems in the United States, Dr. Gorelick has viewed the issue of gun violence up close from many angles for many years. All that experience has brought him to one conclusion: we can solve this crisis if we prioritize our children's health.

To Save the Children of Korea Arissa H. Oh, 2015-06-17. The important, largely unknown story of American adoption of Korean children since the Korean War, with remarkably extensive research and great verve. Charles K. Armstrong, Columbia University. Arissa Oh argues that international adoption began in the aftermath of the Korean War. First established as an

emergency measure through which to evacuate mixed race GI babies it became a mechanism through which the Korean government exported its unwanted children the poor the disabled or those lacking Korean fathers Focusing on the legal social and political systems at work To Save the Children of Korea shows how the growth of Korean adoption from the 1950s to the 1980s occurred within the context of the neocolonial US Korea relationship and was facilitated by crucial congruencies in American and Korean racial thought government policies and nationalisms Korean adoption served as a kind of template as international adoption began in the late 1960s to expand to new sending and receiving countries Ultimately Oh demonstrates that although Korea was not the first place that Americans adopted from internationally it was the place where organized systematic international adoption was born Absolutely fascinating Giulia Miller Times Higher Education Gracefully written Oh shows us how domestic politics and desires are intertwined with geopolitical relationships and aims Naoko Shibusawa Brown University Poignant wide ranging analysis and research Kevin Y Kim Canadian Journal of History Illuminates how the spheres of public and private domestic and political are deeply imbricated and complicate American ideologies about family nation and race Kira A Donnell Adoption Culture **Children's Saving** Edmund J.S. Sonuga-Barke, Paul Webley, 2017-12-06 Originally published in 1993 this book presents an alternative approach to the study of the emergence of economic awareness during childhood a new developmental economic psychology In the past attempts to study the emergence of children's economic consciousness have failed to take account of the practical nature of the economic in the history of western cultures Economic socialisation has been seen as the acquisition of abstract knowledge about the institutions of adult economic culture The child has been seen as a spectator acquiring knowledge of that culture but never really a part of it However economic actions in essence are directed not towards the attainment of knowledge but rather towards the practical solution of problems of resource allocation imposed by constraint Children just like adults are faced with practical problems of resource allocation Their response to these problems may be different from those of adults but no less economic for that This realisation forms the heart of this book In it children are seen as both inhabitants of their own playground economic subculture and actors in the wider economic world of adults solving or attempting to solve practical economic problems In order to highlight this child centred approach the authors studied the way children tackle the particular problems posed by limitations of income How do children learn a the relationship between choices available in the present and the future b to spread their limited financial resources over time into the future and c about the strategies such as banking that allow them to protect those resources from threats and temptations In short how do children learn to save This volume goes some way to answering these and related questions and in so doing sets up an alternative framework for the study of the emergence of economic awareness They Save Children Don't They? Memoirs of a CPS Resister Susan Detlefsen, *Lord, Keep Your Mansions, Just Save My Children* Richard O'Fallon, 2002 The author the father of a prodigal son shares how he moved through guilt frustration anger and grief to hope forgiveness trust comfort and love *Saving Our*

Survivors Rachel Deblinger, 2025-05-06 How did American Jews come to learn about the Holocaust in the immediate aftermath of the war What kinds of images and representations of Holocaust survivors first circulated in America when most Jewish survivors were still stuck in European displaced persons camps Drawing on communal records and previously unexamined cultural materials *Saving Our Survivors* details the kinds of narratives that inspired American Jewish action in the wake of the Holocaust and argues that American Jewish communal life became a significant site of knowledge formation and dissemination about the Holocaust Through organizational campaign materials public speeches appeal letters brochures posters radio broadcasts and short films American Jews were compelled to act as heroes saving Jewish lives and a Jewish future Bringing postwar communal narratives into the longer history of Holocaust memory in America challenges our understanding of what Holocaust narratives look and sound like and invites us to consider the relationship between humanitarian aid and the narratives they employ to inspire action By expanding our understanding of how stories about the Holocaust became part of an American discourse and considering multiple forms of Holocaust survivor accounts *Saving Our Survivors* highlights the messy diffuse and contested nature of memory construction in the immediate aftermath of the Holocaust as well as each new tragedy we confront *Save the Children* *Save the Children* (U.S.), 1944

Representations of Child Soldiers in Contemporary African Narratives Ademola Adesola, 2024-09-11 In *Representations of Child Soldiers in Contemporary African Narratives* Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and children s involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone Liberia Congo Brazzaville Nigeria notable for their exploitation of children for military ends The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities **Proceedings of the National Conference of Social Work at the ... Annual Session Held in ...**, 1920 **How to Save Your Child's Life** Debra A.
