Theological Education in a New Key Richard L. Hester, 2025-07-31 This book begins with the story of Huckleberry Finn trying to decide whether he should turn in his friend Jim the runaway slave He believes that if he doesn't obey the god of slavery and turn Jim in he will go to hell It's a crisis that reveals the power of the culture of slavery on the inner textbook of this White boy Huck's dilemma points to the many ways this White professor explores his teaching career and his efforts to liberate theological education from the transmission of information banking education to opening the inner textbooks of students and their teachers Richard Hester uses the metaphor of inner textbook to describe what we carry within ourselves that tells us who we are what we seek where we're vulnerable and what we value He contends that effective theological education opens these inner textbooks to be read along with the prescribed texts for the course Hester gives attention to his own inner textbook the Whiteness of it and what he's learning about the Black experience *Theological Education in a New Key* aims to help students and their teachers open their inner textbooks to the story of God's dream of belonging and diversity Integrating Work in Theological Education Kathleen A. Cahalan, Edward Foley, Gordon S. Mikoski, 2017-03-09 If only we could do a better job of helping students at connecting the dots theological educators commonly lament Integration often proposed as a solution to the woes of professional education for ministry would help students integrate knowledge skills spirituality and integrity When these remain disconnected incompetence ensues and the cost runs high for churches denominations and ministers themselves However we fail in thinking that integrating work is for students alone It is a multifaceted constructive process of learning that is contextual reflective and dialogical It aims toward important ends competent leaders who can guide Christian communities today It entails rhythms not stages and dynamic movement including disintegration Integrating work is learning in motion across domains and among and between persons It is social and communal born of a life of learning together for faculty staff administrators and students It is work that bridges the long standing gaps between school ministry practice and life It's a verb not a noun Here a diverse group of theological educators through descriptive case studies theological reflection and theory building offer a distinctive contribution to understanding integrating work and how best to achieve it across three domains in community curriculums and courses The Long Shadow of Emile Cailliet Abigail Rian Evans, Clemens Bartollas, Gordon Graham, Kenneth Henke, 2011-09-23 This book aims to examine the importance of Christian philosophy in theological education through the prism of the life and teachings of Emile Cailliet The book's primary focus is on his years of teaching at Princeton Theological Seminary to which all the authors are connected This work examines Cailliet as a believer teacher scholar and philosopher Although Cailliet wrote over twenty

books none of them articulated his formal position on the nature of theological education However it is clear from his teaching at seminary and his writings on philosophy especially Pascal that he saw philosophy as an integral part of seminary training We want to preserve his work because he was a seminal but neglected thinker whose influence extends from science to literature and from philosophy to spirituality and theology We believe that Emile Cailliet was one of the most influential Christians of the twentieth century We invite the reader to stand in the long shadow of Cailliet and consider how his life and thought can help us tackle some of the knotty questions that face us today **The Russian Orthodox Church** Moscow
