University of Michigan--Dearborn,2001      **Minding the Law** Anthony G. AMSTERDAM,Jerome S. Bruner,Anthony G  
Amsterdam,2009-06-30 In this remarkable collaboration one of the nation s leading civil rights lawyers joins forces with one  
of the world s foremost cultural psychologists to put American constitutional law into an American cultural context By close  
readings of key Supreme Court opinions they show how storytelling tactics and deeply rooted mythic structures shape the  
Court s decisions about race family law and the death penalty Minding the Law explores crucial psychological processes  
involved in the work of lawyers and judges deciding whether particular cases fit within a legal rule categorizing telling  
stories to justify one s claims or undercut those of an adversary narrative and tailoring one s language to be persuasive  
without appearing partisan rhetorics Because these processes are not unique to the law courts decisions cannot rest solely  
upon legal logic but must also depend vitally upon the underlying culture s storehouse of familiar tales of heroes and villains  
But a culture s stock of stories is not changeless Amsterdam and Bruner argue that culture itself is a dialectic constantly in  
progress a conflict between the established canon and newly imagined possible worlds They illustrate the swings of this  
dialectic by a masterly analysis of the Supreme Court s race discrimination decisions during the past century A passionate  
plea for heightened consciousness about the way law is practiced and made Minding the Law tilte will be welcomed by a new  
generation concerned with renewing law s commitment to a humane justice Table of Contents 1 Invitation to a Journey 2 On

Reviews of this book Amsterdam a distinguished Supreme Court litigator wanted to do more than share the fruits of his  
practical experience He also wanted to get students to think about thinking like a lawyer To decode what he calls law think  
he enlisted the aid of the venerable cognitive psychologist Jerome Bruner and the collaboration has resulted in this unusual  
book James Ryerson Lingua Franca Reviews of this book It is hard to imagine a better time for the publication of Minding the  
Law a brilliant dissection of the court s work by two eminent scholars law professor Anthony G Amsterdam and cultural  
anthropologist Jerome Bruner Issue by issue case by case Amsterdam and Bruner make mincemeat of the court s handling of  
the most important constitutional issue of the modern era how to eradicate the American legacy of race discrimination  
especially against blacks Edward Lazarus Los Angeles Times Book Review Reviews of this book This book is a gem Its thesis  
is easily stated but remarkably unrecognized among a shockingly large number of lawyers and law professors law is a  
storytelling enterprise thoroughly entrenched in culture Whereas critical legal theorists have talked among themselves for  
the past two decades Amsterdam and Bruner seek to engage all of us in a dialogue For that they should be applauded Daniel

R Williams New York Law Journal Reviews of this book In Minding the Law Anthony Amsterdam and Jerome Bruner show us how the Supreme Court creates the magic of inevitability They are angry at what they see Their book is premised on the conviction that many of the choices made in Supreme Court opinions lack any justification in the text Their method is to analyze the text of opinions and to show how the conclusions reached do not always follow from the logic of the argument They also show how the Court casts its rhetoric like a spell mesmerizing its audience and making the highly contingent shine with the light of inevitability Mitchell Goodman News and Observer Raleigh North Carolina Reviews of this book What do controversial Supreme Court decisions and classic age old tales of adultery villainy and combat have in common Everything at least in the eyes of Amsterdam and Bruner In this substantial study which is equal parts dense and entertaining the authors use theoretical discussions of literary technique and myths to expose what they see as the secret intentions of Supreme Court opinions Studying how lawyers and judges employ the various literary devices at their disposal and noting the similarities between legal thinking and classic tactics of storytelling and persuasion they believe can have astonishing consciousness retrieving effects The agile minds of Amsterdam and Bruner clearly storehouses of knowledge on a range of subjects allow an approach that might sound far fetched occasionally but pays dividends in the form of gained perspective and amusement Elisabeth Lasch Quinn Washington Times Reviews of this book Stories and the way judges intentionally or not categorize and spin them are as responsible for legal rulings as logic and precedent Mr Amsterdam and Mr Bruner said Their novel attempt to reach into the psyche of members of the Supreme Court is part of a growing interest in a long neglected and cryptic subject the psychology of judicial decision making Patricia Cohen New York Times Most law professors teach by the case method or say they do In this fascinating book Anthony Amsterdam a lawyer and Jerome Bruner a psychologist expose how limited most case analysis really is as they show how much can be learned through the close reading of the phrases sentences and paragraphs that constitute an opinion or other pieces of legal writing Reading this book will undoubtedly make one a better lawyer and teacher of lawyers But the book s value and interest goes far beyond the legal profession as it analyzes the way that rhetoric in law politics and beyond creates pictures and convictions in the minds of readers and listeners Sanford Levinson author of Constitutional Faith Tony Amsterdam the leader in the legal campaign against the death penalty and Jerome Bruner who has struggled for equal justice in education for forty years have written a guide to demystifying legal reasoning With clarity wit and immense learning they reveal the semantic tricks lawyers and judges sometimes use consciously and unconsciously to justify the results they want to reach Jack Greenberg Professor of Law Columbia Law School
