

SEMIOTICS

Semiotics is the study of signs. It is both the theory & analysis of signs & signifying practices.

Ferdinand de Saussure
(1857-1913)

Saussure was a French linguist that was one of the first to produce a semiotic theory during work in the early 1900's. Saussure stated that a sign is made up of two parts, the SIGNIFIER and the SIGNIFIED.

Charles Sanders Peirce, was an American philosopher that also formulated a semiotic theory around the same time as Saussure, the early 1900's. Peirce stated semiotics to be the relationship between a SYMBOL, ICON and an INDEX.

Alice in Transmedia

Wonderland Anna Kérchy, 2016-08-30 Part of Alice's appeal is her ambiguity which makes possible a range of interpretations in adapting Lewis Carroll's classic Wonderland stories to various media Popular reimaginings of Alice and her topsy-turvy world reveal many ways of eliciting enchantment and shaping make-believe Late 20th century and 21st century adaptations interact with the source texts and with each other providing readers with an elaborate fictional universe This book fully explores today's multi-media journey to Wonderland *Alice's Adventures in Wonderland and Through the Looking-Glass* Lewis Carroll, 2009-09-10 But I don't want to go among mad people Alice remarked Oh you can't help that said the Cat We're all mad here The Alice books are two of the most translated most quoted and best known books in the world but what exactly are they Apparently delightful innocent fantasies for children they are also complex textures of mathematical linguistic and philosophical jokes Alice's encounters with the White Rabbit the Cheshire Cat the King and Queen of Hearts the Mad Hatter Tweedledum and Tweedledee and many other extraordinary characters have made them masterpieces of carefree nonsense yet they also appeal to adults on a quite different level Layers of satire allusion and symbolism about Victorian culture and politics as well as revelations about the intricate subconscious problems of their author add to their fascination and make them impossible to classify This new edition explores the phenomenal range of reference and the paradoxical appeal of two of the most inventive books in world literature It also includes an episode removed by Carroll from the proofs of *Through the Looking Glass* called *The Wasp in a Wig* ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up-to-date bibliographies for further study and much more **The Art of Translation in Light of Bakhtin's Re-accentuation** Slav Gratchev, Margarita Marinova, 2022-10-06 Although Mikhail Bakhtin's study of the novel does not focus in any systematic way on the role that translation plays in the processes of novelistic creation and dissemination when he does broach the topic he grants translation a disproportionately significant role in the emergence and constitution of literature The contributors to this volume from the US Hong Kong Finland Japan Spain Italy Bangladesh and Belgium bring their own polyphonic experiences with the theory and practice of translation to the discussion of Bakhtin's ideas about this topic in order to illuminate their relevance to translation studies today Broadly stated the essays examine the art of translation as an exercise in a cultural re-accentuation a transference of the original text and its characters to the novel soil of a different language and culture which inevitably leads to the proliferation of multivalent meanings and to explore the various re-accentuation devices employed over the span of the last 100 years in translating modern texts from one language to another Through its contributors *The Art of Translation in Light of Bakhtin's Re-accentuation* brings together different cultural contexts and disciplines such as literature literary theory the visual arts pedagogy translation studies and philosophy to demonstrate the continued international relevance of Bakhtin's ideas to the

From Sign to Signing Wolfgang G. Müller, Olga Fischer, 2003 This volume a sequel to Form Miming Meaning 1999 and The Motivated Sign 2001 offers a selection of papers given at the

Third International Symposium on Iconicity in Language and Literature Jena 2001 The studies collected here present a number of new departures Special consideration is given to the way non linguistic visual and auditory signs such as gestures and bird sounds are represented in language and more specifically in signed language and how such signs influence semantic conceptualization Other studies examine more closely how visual signs and representations of time and space are incorporated or reflected in literary language in fiction as well as experimental poetry A further new approach concerns intermedial iconicity which emerges in art when its medium is changed or another medium is imitated A more abstract diagrammatic type of iconicity is again investigated with reference to both language and literature some essays focus on the device of reduplication isomorphic tendencies in word formation and on creative iconic patterns in syntax while others explore numerical design in Dante and geometrical patterning in Dylan Thomas A number of theoretically oriented papers pursue post Peircean approaches such as the application of reader response theory and of systems theory to iconicity
