Semitic Languages

Sergei Nirenburg

Semitic Languages:

<u>The Semitic Languages</u> Robert Hetzron,1997 The Semitic Languages presents a unique comprehensive survey of individual languages or language clusters from their origins in antiquity to their present day forms The Semitic family occupies a position of great historical and linguistic significance the spoken and written languages of the Phoenicians Hebrews and Arabs spread throughout Asia and northern and central Africa the Old Semitic civilizations in turn contributed significantly to European culture and modern Hebrew modern literary Arabic Amharic and Tigrinya have become their nations official languages The book is divided into three parts and each chapter presents a self contained article written by a recognized expert in the field I General Issues providing an introduction to the grammatical traditions subgrouping and writing systems of this language family II Old Semitic Languages III Modern Semitic Languages Parts II and III contain structured chapters which enable the reader to access and compare information easily These individual descriptions of each language or cluster include phonology morphology syntax lexis and dialects Suggestions are made for the most useful sources of further reading and the work is comprehensively indexed *Semitic Languages* Edward Lipiński,2001 The first comparative grammar of the Semitic languages by H Zimmern was published a hundred years ago and the last original work of this kind was issued in Russian in 1972 by B M Grande The present grammar designed to come out in the centenary of the completion of Zimmern s work fills thus a gap Besides it is based on both classical and modern Semitic languages it takes new material of these last decades into account and situates the Semitic languages in the wider context of Afro Asiatic The introduction briefly presents the languages in question The main parts of the work are devoted to phonology morphology and syntax with elaborate charts and diagrams Then follows a discussion of fundamental questions related to lexicographical analysis The study is supplemented by a glossary of linguistic terms used in Semitics by a selective bibliography by a general index and by an index of words and forms The book is the result of twenty five years of research and teaching in comparative Semitic grammar **The Semitic Languages** Stefan Weninger,2011-12-23 The handbook The Semitic Languages offers a comprehensive reference tool for Semitic Linguistics in its broad sense It is not restricted to comparative Grammar although it covers also comparative aspects including classification By comprising a chapter on typology and sections with sociolinguistic focus and language contact the conception of the book aims at a rather complete unbiased description of the state of the art in Semitics Articles on individual languages and dialects give basic facts as location numbers of speakers scripts numbers of extant texts and their nature attestation where appropriate and salient features of the grammar and lexicon of the respective variety The handbook is the most comprehensive treatment of the Semitic language family since many decades **The Semitic Languages** John Huehnergard,Na'ama Pat-El,2019-02-18 The Semitic Languages presents a comprehensive survey of the individual languages and language clusters within this language family from their origins in antiquity to their present day forms This second edition has been fully revised with new chapters and a wealth of additional

material New features include the following new introductory chapters on Proto Semitic grammar and Semitic linguistic typology an additional chapter on the place of Semitic as a subgroup of Afro Asiatic and several chapters on modern forms of Arabic Aramaic and Ethiopian Semitic text samples of each individual language transcribed into the International Phonetic Alphabet with standard linguistic word by word glossing as well as translation new maps and tables present information visually for easy reference This unique resource is the ideal reference for advanced undergraduate and postgraduate students of linguistics and language It will be of interest to researchers and anyone with an interest in historical linguistics linguistic typology linguistic anthropology and language development <u>Semitic Languages in Contact</u> Aaron Butts,2015-09-29 Semitic Languages in Contact contains twenty case studies analysing various contact situations involving Semitic languages The languages treated span from ancient Semitic languages such as Akkadian Aramaic Classical Ethiopic Hebrew Phoenician and Ugaritic to modern ones including languages dialects belonging to the Modern Arabic Modern South Arabian Neo Aramaic and Neo Ethiopian branches of the Semitic family The topics discussed include writing systems phonology morphology syntax and lexicon The approaches range from traditional philology to more theoretically driven linguistics These diverse studies are united by the theme of language contact Thus the volume aims to provide the status quaestionis of the study of language contact among the Semitic languages With contributions from A Al Jallad A Al Manaser D Appleyard S Boyd Y Breuer M Bulakh D Calabro E Cohen R Contini C J Crisostomo L Edzard H Hardy U Horesh O Jastrow L Kahn J Lam M Neishtadt M Oren P Pagano A D Rubin L Sayahi J Tubach J P Vita and T Zewi *Natural Language Processing of Semitic Languages* Imed Zitouni,2014-04-22 Research in Natural Language Processing NLP has rapidly advanced in recent years resulting in exciting algorithms for sophisticated processing of text and speech in various languages Much of this work focuses on English in this book we address another group of interesting and challenging languages for NLP research the Semitic languages The Semitic group of languages includes Arabic 206 million native speakers Amharic 27 million Hebrew 7 million Tigrinya 6 7 million Syriac 1 million and Maltese 419 thousand Semitic languages exhibit unique morphological processes challenging syntactic constructions and various other phenomena that are less prevalent in other natural languages These challenges call for unique solutions many of which are described in this book The 13 chapters presented in this book bring together leading scientists from several universities and research institutes worldwide While this book devotes some attention to cutting edge algorithms and techniques its primary purpose is a thorough explication of best practices in the field Furthermore every chapter describes how the techniques discussed apply to Semitic languages The book covers both statistical approaches to NLP which are dominant across various applications nowadays and the more traditional rule based approaches that were proven useful for several other application domains We hope that this book will provide a one stop shop for all the requisite background and practical advice when building NLP applications for Semitic languages *The American Journal of Semitic Languages and Literatures* ,1916 **Comparative Grammar of the**

Semitic Languages De Lacy O'Leary,1923 **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office,2009 *Library of Congress Subject Headings* Library of Congress,Library of Congress. Subject Cataloging Division,Library of Congress. Office for Subject Cataloging Policy,2013 The English Language Charles Laurence Barber,2000-05-04 The English Language A Historical Introduction covers the history of the English language from its prehistoric Indo European origins to the present day Assuming no previous knowledge of the subject Charles Barber describes the nature of language and language change and presents a history of the English language at different periods dealing with key topics such as grammar pronunciation and semantics Where necessary he introduces and explains the main theoretical and technical concepts of historical linguistics There are also chapters on English in the scientific age English as a world language and the future of the language Charles Barber uses dozens of familiar texts including the English of King Alfred Chaucer Shakespeare and Addison to illustrate the state of the English language through time in a range of contexts This is a fascinating book for anyone with an interest in language **A Guide to the World's Major Languages** Gauraang Asan,2025-01-03 A Guide to the World s Major Languages offers an in depth exploration of the most spoken and influential languages globally We present comprehensive historical sociological and linguistic information along with extensive descriptions of phonological and graphic systems morphology word formation syntactic patterns and lexical features Each chapter includes updated bibliographies and census data detailing the languages number of speakers official status and cultural and historical significance We provide detailed overviews of inflectional languages highlighting main variants and conjugation classes Our book emphasizes the grammatical and sociolinguistic features of major languages making it a reliable resource for both students and enthusiasts It is designed to be accessible to anyone interested in language studies offering a thorough understanding of the subject **Arabic Language** Kees Versteegh,2014-05-20 An introductory guide for students of Arabic language Arabic historical linguistics and Arabic sociolinguistics Library of Congress Subject Headings: P-Z Library of Congress. Subject Cataloging Division,1989 **Library of Congress Subject Headings** Library of Congress. Office for Subject Cataloging Policy,1991 Language, Society and the State in a Changing World Stanley D. Brunn,Roland Kehrein,2023-04-08 This book addresses the changing contemporary language worlds in three major contexts It first discusses how the language landscape maps of cities are changing as a result of increased migration globalization and global media These features are evident in place names and place name changes as well as the densities and frequencies of language spoken and used in texts The second section discusses how the state itself is responding to both indigenous and heritage groups desiring to be included and represented in the state s political landscapes and also expressions of art and culture In the third section the authors address a number of cutting edge theses that are emerging in the linguistic geography and political words These include the importance of gender anthropogenetic discourse the preservation of endangered languages and challenges to a state s official language policy Through including authors from nine different

countries who are writing about issues in twelve countries and their overlapping interests in language mapping language usage and policy and visual representations this book provides inspiring research into future topics at local national regional and international scales   *Concise Encyclopedia of Languages of the World* ,2010-04-06 Concise Encyclopedia of Languages of the World is an authoritative single volume reference resource comprehensively describing the major languages and language families of the world It will provide full descriptions of the phonology semantics morphology and syntax of the world s major languages giving insights into their structure history and development sounds meaning structure and language family thereby both highlighting their diversity for comparative study and contextualizing them according to their genetic relationships and regional distribution Based on the highly acclaimed and award winning Encyclopedia of Language and Linguistics this volume will provide an edited collection of almost 400 articles throughout which a representative subset of the world s major languages are unfolded and explained in up to date terminology and authoritative interpretation by the leading scholars in linguistics In highlighting the diversity of the world s languages from the thriving to the endangered and extinct this work will be the first point of call to any language expert interested in this huge area No other single volume will match the extent of language coverage or the authority of the contributors of Concise Encyclopedia of Languages of the World Extraordinary breadth of coverage a comprehensive selection of just under 400 articles covering the world s major languages language families and classification structures issues and dispute Peerless quality based on 20 years of academic development on two editions of the leading reference resource in linguistics Encyclopedia of Language and Linguistics Unique authorship 350 of the world s leading experts brought together for one purpose Exceptional editorial selection review and validation process Keith Brown and Sarah Ogilvie act as first tier guarantors for article quality and coverage Compact and affordable one volume format makes this suitable for personal study at any institution interested in areal descriptive or comparative language study and at a fraction of the cost of the full encyclopedia   **Arabic Language Handbook** Mary Catherine Bateson,1967 The demand for information on learning Arabic has grown spectacularly as English speaking people have come to realize how much there is yet to know about other parts of the world It is fitting that this Arabic Language Handbook complementing Georgetown University Press s exceptional Arabic language textbooks is the first in a new series Georgetown Classics in Arabic Language and Linguistics Sparked by the new demand this reprint of a genuinely gold standard language volume provides a streamlined reference on the structure of the Arabic language and issues in Arabic linguistics from dialectics to literature Originally published in 1967 the essential information on the structure of the language remains accurate and it continues to be the most concise reference summary for researchers linguists students area specialists and others interested in Arabic   **Language Engineering for Lesser-studied Languages** Sergei Nirenburg,2009 Technologies enabling computers to process specific languages facilitate economic and political progress of societies where these languages are spoken Development of methods and systems for language processing is

therefore a worthy goal for national governments as well as for business entities and scientific and educational institutions in every country in the world As work on systems and resources for the lower density languages becomes more widespread an important question is how to leverage the results and experience accumulated by the field of computational linguistics for the major languages in the development of resources and systems for lower density languages This issue has been at the core of the NATO Advanced Studies Institute on language technologies for middle and low density languages held in Georgia in October 2007 This publication is a collection of publication oriented versions of the lectures presented there and is a useful source of knowledge about many core facets of modern computational linguistic work By the same token it can serve as a reference source for people interested in learning about strategies that are best suited for developing computational linguistic capabilities for lesser studied languages either from scratch or using components developed for other languages The book should also be quite useful in teaching practical system and resource building topics in computational linguistics Site Web de l diteur **A Reference Grammar of Modern Standard Arabic** Karin C. Ryding,2005-08-25 A Reference Grammar of Modern Standard Arabic is a comprehensive handbook on the structure of Arabic Keeping technical terminology to a minimum it provides a detailed yet accessible overview of Modern Standard Arabic in which the essential aspects of its phonology morphology and syntax can be readily looked up and understood Accompanied by extensive carefully chosen examples it will prove invaluable as a practical guide for supporting students textbooks classroom work or self study and will also be a useful resource for scholars and professionals wishing to develop an understanding of the key features of the language Grammar notes are numbered for ease of reference and a section is included on how to use an Arabic dictionary as well as helpful glossaries of Arabic and English linguistic terms and a useful bibliography Clearly structured and systematically organised this book is set to become the standard guide to the grammar of contemporary Arabic

As recognized, adventure as competently as experience just about lesson, amusement, as competently as contract can be gotten by just checking out a books **Semitic Languages** then it is not directly done, you could say yes even more in the region of this life, in this area the world.

We allow you this proper as without difficulty as easy showing off to acquire those all. We present Semitic Languages and numerous books collections from fictions to scientific research in any way. among them is this Semitic Languages that can be your partner.
