Americanizing Latino Politics, Latinoizing American Politics Rodolfo O. de la Garza,Alan Yang,2019-11-20 Using the most extensive and currently available survey opinion data this book empirically supports the argument that Latinos have emerged as a convergent panethnic political group beyond the individual national origin identities dating to the time of the 1990 Latino National Political Survey when Mexican Americans Puerto Ricans and

Cuban Americans were treated conceptually as politically distinct groups. Replete with data and supplemented by an extensive online resource, this book offers scholars, students, and sophisticated general readers evidence and inspiration for understanding the dynamics of Latino politics in the U.S. today. *Latino Politics En Ciencia Politica* Tony Affigne, Evelyn Hu-DeHart, Marion Orr, 2014-04-25. More than 53 million Latinos now constitute the largest, fastest growing, and most diverse minority group in the United States, and the nation's political future may well be shaped by Latinos' continuing political incorporation. In the 2012 election, Latinos proved to be a critical voting bloc in both Presidential and Congressional races; this demographic will only become more important in future American elections. Using new evidence from the largest ever scientific survey addressed exclusively to Latino/Hispanic respondents, *Latino Politics en Ciencia Poltica* explores political diversity within the Latino community, considering how intra-community differences influence political behavior and policy preferences. The editors and contributors, all noted scholars of race and politics, examine key issues of Latino politics in the contemporary United States: Latino identities, *latinidad*, transnationalism, acculturation, political community, and racial consciousness. The book contextualizes today's research within the history of Latino political studies, from the field's beginnings to the present, explaining how systematic analysis of Latino political behavior has over time become integral to the study of political science. *Latino Politics en Ciencia Poltica* is thus an ideal text for learning both the state of the field today and key dimensions of Latino political attitudes.

Diasporic Ruptures, 2007-01-01. *Diasporic Ruptures: Globality, Migrancy, and Expressions of Identity* lies at the intersections of various processes emerging from globalization: border crossings, transnationalism, identity formations. Carefully selected and placed in two volumes, the essays here represent works of both well-seasoned scholars as well as emerging writers, academics, and intellectuals. The volumes critically examine various manifestations of the trend now commonly known as globalization: manifestations that many diasporic communities, immigrants, and people from all walks of life experience. They also illuminate recent political, social, economic, and technological developments that are taking place in a rapidly changing world. Volume One offers sophisticated insights into the nature of contemporary formations of diasporic life, internationalism, and hybrid identities. The volume asks bold questions around what it means to live in constantly shifting boundaries of nationality, identity, and citizenship. The type of methodological, discursive, and experiential awareness promoted by this work helps us understand how millions of people face the challenge of living in a globalizing world; it also fosters a consciousness of how globalization itself functions differently in different environments. Volume Two (see Volume 7 in *Transgressions: Cultural Studies and Education*) addresses additional and more nuanced questions around culture, race, sexuality, migration, displacement, and resistance. It also explores certain epistemological and methodological fallacies regarding conventional articulations of nation, state, nationalism, and the local/global nexus. The volume seeks to answer questions such as: What are the meanings and connotations of displacement in a rapidly globalizing world? What are some dilemmas and challenges around notions of cultural hybridity, linguistic diversity, and

a sense of belonging What is the meaning of home in diaspora and the meaning of diaspora at home Together the volumes raise many topics that will be of immense interest to scholars across disciplines and general readers While celebrating the increasing acknowledgment of difference and diversity in recent times this work reminds us of the ongoing ramifications of dominant structures of inequality relations of power and issues of inclusion and exclusion This work offers different ways of thinking writing and talking about globalization and the processes that emerge from it Debating Brain Drain Gillian Brock, Michael I. Blake, 2015 Many of the most skilled and educated citizens of developing countries choose to emigrate How may those societies respond to these facts May they ever legitimately prevent the emigration of their citizens Gillian Brock and Michael Blake debate these questions and offer distinct arguments about the morality of emigration

man who perished in California's Imperial Valley while trying to reunite with his wife and child in Los Angeles. At a time when Republicans and Democrats alike embrace increasingly militaristic border enforcement policies under the guise of security and local governments around the country are taking matters into their own hands, *Dying to Live* offers a timely confrontation to such prescriptions and puts a human face on the rapidly growing crisis. Moreover, it provides a valuable perspective on the historical geography of U.S.-Mexico relations and immigration and boundary enforcement, illustrating its profound impact on people's lives and deaths. In the end, the author offers a provocative human rights-based vision of what must be done to stop the fatalities and injustices endured by migrants and their loved ones.

Praise for *Dying to Live*

Joseph Nevins and Mizue Aizeki have produced an important and visually moving book that adds to our knowledge of the border and its place in history. Nevins' painstaking research documents the development of the Imperial Valley, its industrial agriculture, its divided cities, and the chasms between rich and poor Mexican and Anglo that have marred its growth. Through the valley runs the border, and Nevins accounts of the growth of border enforcement on the U.S. side and the racism of its legal justifications will be a strong weapon for human rights activists. Mizue Aizeki takes her camera and tells the story of Julio Cesar Gallegos, who died in the desert trying to make it across. Her images of the stacked bodies of border crossers held in refrigerator trucks and the barrenness of the ocotillo cactus on the flat hardpan are eloquent testimony to the terrible risks and human costs imposed on migrants. Her beautifully composed portraits of Gallegos' family make a direct appeal to the heart in a way that words cannot. And her documentation of border protests and immigrant rights demonstrations, including the rows of jugs of water put out in the desert to save lives, are all compelling evidence that there is a struggle going on to halt the human rights crisis. She and Nevins document David Bacon, author of *Communities Without Borders*, *Images and Voices from the World of Migration*. Joseph Nevins blows the cover off the scapegoating of illegal immigrants by meticulously and grippingly compiling the history of why so many try to come to the U.S. and tragically why so many die. This book strikes at our very moral core.

Deepa Fernandes, author of *Targeted Homeland Security and the Business of Immigration*: A fierce and courageous denunciation of the foul politics of immigration and the two-thousand-mile tragedy of the Mexican border snaking its way between two worlds, two nations separated at birth but forever joined at the hip. Starting from one man's blackened corpse, the tale wends its way across the desert of racial amnesia to reveal the sources of America's reactionary and futile attempt at closure of a porous frontier. Deftly stitching together disparate times and places from the Imperial Valley to Zacatecas to Mexicali and back to East L.A., Nevins and Aizeki weave a memorial quilt to the hundreds of innocents in unmarked graves.

Richard Walker, professor of geography, UC Berkeley and author of *The Conquest of Bread and The Country in the City*: *Dying to Live* is a compelling, perceptive, and invaluable book for our times. Our new apartheid, as explored here, is as bleak and hostile as the landscapes in which people lose their lives trying merely to survive. Those lives delineated here are unforgettable.

Susan Straight, author of *A Million Nightingales* and *Highwire Moon*: Invisible in life like most exploited

immigrants Julio Cesar Gallegos now judges us from the hour of his terrible death He reminds us thanks to the passionate investigations of Nevins and Aizeki that the eyeless corpses in the Imperial Valley are murder victims abandoned to heat thirst and anonymous graves by a border politics compounded of historical ignorance and contempt for human rights Mike Davis author of Planet of Slums and In Praise of Barbarians
