Senecas Tragodien Sprachliche Und Stilistische Untersuchungen:

Senecas Tragödien: Sprachliche und Stilistische Untersuchungen Margarethe Billerbeck, 2018-07-17 Preliminary Material Einleitung Wortschatz Syntax Stilistisches Schlussbetrachtung Zur Sprache des Hercules Oetaeus Sprachliche Beobachtungen zur Octavia Literaturverzeichnis Namen und Sachregister Wortregister Stellenregister Register der kritisch L. Annaeus Seneca Troades Atze J. Keulen, 2017-09-18 A J Keulen's new commentary on Seneca's behandelten Stellen Troades is the fruit of a lifetime devotion to this play This extensive philological commentary on the Troades is a most welcome contribution to the study of Seneca's plays Meaning history and usage of Seneca's vocabulary are thoroughly discussed The author provides ample comparison with Senecan prose and rival poets In addition the commentary addresses composition and word order and discusses textual metrical and grammatical difficulties A full bibliography and three indices complete this valuable book Ammianus Marcellinus, 2009 Continuing the series of philological and historical commentaries on Ammianus Res Gestae this volume deals with Book 27 in which the author deals with military operations and internal affairs In the central part of the book the emperor Valentinian is portrayed Annaeana Tragica John Fitch, 2017-08-28 This volume is a companion to the author's new Loeb edition of Seneca's tragedies vol 1 2002 vol 2 2004 It offers reasons for his editorial choices and explains his interpretations of the text as reflected in his translation Hercules Oetanus and Octavia now generally regarded as imitations of Senecan drama are both included The volume is intended to be read alongside Otto Zwierlein's Kritische Kommentar published in 1986 In the intervening years there has been much new work pertaining to Seneca's text including full scale editions with commentary on individual plays such as Keulen's Troades T chterle's Oedipus and Ferri's Octavia Annaeana Tragica seeks to supplement and advance Zwierlein's work in the light of this new material An appendix reviews the scholarly controversy concerning the anapaestic odes of these plays and offers fresh evidence relevant to the issue Vergil's Aeneid S. Farron, 2018-07-17 For more than a century critics of the Aeneid have assumed that all or most of its episodes must propound something about Aeneas and his mission to found the Roman people and through them about Rome and Augustus whether that is their positive aspects or their brutality and destructiveness or the contrast between the public voice of their achievements and the private voice of the suffering they cause This book argues that this assumption is wrong the Aeneid's main purpose was to present a series of emotionally moving episodes especially pathetic ones This book shows that the Aeneid makes more sense when regarded primarily as a series of emotion arousing episodes than as expressing a pro Aeneas anti Aeneas or two voices message That is how it was regarded into the nineteenth century and that is what the ancient Greeks and Romans assumed was the main purpose of literature Two Studies in Attic Particle Usage C.M.J. Sicking, J.M. van Ophuijsen, 2018-07-17 In the first part C M J Sicking by using two speeches by Lysias discusses the articulation of the text by devices marking the beginning of sentences A separate index offers some considerations bearing on the value and use of 1 five so called interactive particles and 2 some particles found in

interrogative sentences In the second part J M van Ophuijsen deals with and all of them traditionally regarded as inferential particles The discussion focuses on but is not restricted to Plato's Phaedo There is an excursus on in Herodotus Both authors have adopted a deliberately eclectic approach taking advantage of what modern linguistic research has to offer without at the same time neglecting what many generations of scholars from Hoogeveen to Denniston have contributed to our understanding of ancient Greek **Religion in Livy** David Levene, 2018-07-17 This book examines the use that Livy made of religious topics and shows how this fits in with other aspects of his narrative The author shows how Livy s views of religion depend less on personal belief than on the refinement of his narrative technique He looks at the history decade by decade and demonstrates that there are radical differences between different sections in some Livy uses large scale religious themes but in others he deliberately avoids them By a systematic analysis of Livy's narrative patterns and comparison with other ancient versions it is proved that this is not simply due to subject matter but reflects a development in Livy s handling of his material This profound difference between decades throws doubt on much of the standard picture of Livy it also points to a need to revise notions of Augustan religious ideology Noch einmal zu... Annette Harder, Remco Regtuit, Peter Stork, Gerry Wakker, 2017-09-18 This volume contains the collected articles of the Groningen Professor of Ancient Greek Stefan Radt and a survey of his publications These articles which show great philological acumen are of considerable importance for the study of ancient Greek literature and linguistics This collection of distuingished papers will prove a valuable and useful acquisition for libraries and students of ancient Greek **Converging Truths** Katerina Zacharia, 2017-09-18 This book is a study of the Ion of Euripides Produced in a period of intense political crisis at Athens in 412 BC this play went to the heart of Athenian self perception but also highlighted the violent divine grace of Apollo the intense emotional suffering of Kreousa and Ion's insistent search for truth despite divine concealment Informed by recent scholarship on Athenian ethnicity this study shows how autochthony claim to being earthborn and Ionianism Ionian character of Athens are conceptually related with Apollo father of Ion and god of the Delphic oracle where the play is set Through careful analysis of the political psychological religious and poetic aspects of the play and use of modern critical theory the Ion emerges as a polyphonic work expressing different and converging truths

Tragedy, Rhetoric, and the Historiography of Tacitus' Annales Francesca Santoro L'Hoir, 2006 Poison politics lunacy lechery this is the I Claudius version of Roman history An initial perusal of Tacitus Annales in translation confirms modern readers prejudices about treacherous Emperors and their regicidal wives for Tacitus constructed his brooding narrative with the themes vocabulary and imagery of Attic and Roman tragedy Their incorporation into his history would have delighted his contemporary rhetorically trained readers

Flavian Rome Anthony Boyle, William J. Dominik, 2002-10-31 The politics literature and culture of ancient Rome during the Flavian principate 69 96 ce have recently been the subject of intense investigation In this volume of new specially commissioned studies twenty five scholars from five countries have combined to produce a critical survey of the period which

underscores and re evaluates its foundational importance Most of the authors are established international figures but a feature of the volume is the presence of young emerging scholars at the cutting edge of the discipline The studies attend to a diversity of topics including the new political settlement the role of the army change and continuity in Rome's social structures cultural festivals architecture sculpture religion coinage imperial discourse epistemology and political control rhetoric philosophy Greek intellectual life drama poetry patronage Flavian historians amphitheatrical Rome All Greek and Latin text is translated Statius Thebaid VII J.J.L. Smolenaars, 2018-07-17 The epic poem the Thebaid by P Papinius Statius written about AD 80 to 92 deals with the fraternal strife between Oedipus sons Eteocles and Polynices for the mastery of Thebes Book VII describes the forced march of the Seven and their arrival at Thebes Jocasta's vain attempt at mediation and Amphiaraus spectacular katabasis This book is the first which deals with Thebaid VII since Barth 1664 and Amar Lemaire 1825 30 Apart from being a commentary in the philological sense it examines in close detail the poet's mannered style and analyses the text as a system of intertextual references In addition to Homer and Vergil specific passages from Euripides Lucan Seneca and especially Valerius Flaccus were exploited by Statius to create his challenging imitation The identification of these sources offers the key to interpret and evaluate the poet s artistic intentions. The Introduction discusses Statius technique of multiple imitation The information brought together has been made easily accessible by full indexes and an appendix listing the passages imitated by Statius Hercules Furens Lucius Annaeus Seneca, 1999 The most comprehensive study of Seneca's Hercules Furens it provides a new text with translation a detailed commentary on the dramaturgy and language of the play and elucidates the figure of Roman Hercules in relation to its Euripidean model *Argonautica* M.M. DeForest, 2018-07-17 The Argonautica was said to have been the source of a guarrel between Apollonius who wrote what looks like an epic poem and Callimachus who denounced the writing of epic poetry Although the guarrel did not take place in the real world its issue controls the poem The heroes are determined to take part in a Homeric epic which the Callimachean narrator refuses to write Drawing on the methods of modern literary theorists but eschewing the jargon DeForest shows how Apollonius uses the literary dispute in Alexandria to give a three dimensional quality to his poem The amusing conflict between heroes and narrator turns serious when the levels of narrative split apart and Medea steps into the gap as a free standing figure the forerunner of powerful women in fiction The Poetics of Aristotle and the Tractatus Coislinianus O.J. Schrier, 2018-07-17 The bibliography of Aristotle's Poetics by Cooper and Gudeman most welcome in 1928 has now become antiquated even for the period it covers The present one registers all editions translations commentaries and studies bearing on the Poetics or the major concepts that have been associated with it correctly or incorrectly from 1481 up till 1996 Moreover a survey is given of the medieval translations and commentaries written in the Orient and in Europe Special attention has been given to the reviews The oldest one registered dates from 1697 The second book of the Poetics being lost publications related to the Tractatus Coislinianus which partly rests on Poetics II have been included There are

seven indices Especially those on passages and subjects should prove to be useful instruments In the author's text Greek nouns and adjectives have been transliterated **Interpolation in Thucydides** K. Maurer, 2018-07-17 The scraps of hard evidence are carefully sifted from the putative so as to uncover the probable extent and nature of interpolation in Thucydides This gives a coarse but firm typology which may be of some use in the study of other MS traditions and clarifies hard passages many of which are discussed in depth so that the book s Index Locorum can be a tool for students of this author Separate chapters examine evidence given by MS disagreement by a long inscription by papyri by scholiasts by Valla s translation and more A chapter analyzes the types of mechanical interpolation another the hypothesis of Hellenistic editing Constant close attention is paid to the stemma codicum discussed also in an appendix and to the smallest idiosyncrasies of The Ancient Novel and Beyond Stelios Panayotakis, Maaike Zimmerman, Wytse Keulen, 2017-07-31 Thucvdides style This volume comprises the revised versions of selected papers read at the International Conference on the Ancient Novel Groningen July 2000 The papers cover a wide range of scholarly issues that were prominent in the programme of the conference and feature the most recent approaches to research on the ancient novel The essays combine judicious use of literary theory with traditional scholarship and examine the ancient novels and related texts such as Oriental tales and Christian narrative both in their larger literary cultural and social context and as sources of inspiration for Byzantine and modern fiction This book is important not only for classicists and literary historians but also for a general public of those interested in narrative fiction **Voice into Text** Ian Worthington, 2018-07-17 This volume deals with orality and literacy in ancient Greece and what consideration of these areas yields for that society its literature traditions and practices Individual chapters focus on art comedy historiography oratory religion rhetoric philosophy poetry tragedy and on orality in contemporary cultures Greek and South African which have a bearing on the ancient world By considering such factors as oral elements in various genres and practices and how these have shaped the texts we have today as well as the extent of literacy and the impact of literacy on oral traditions and on singers writers the book presents another insight into ancient Theatrum Arbitri C. Panayotakis, 2018-07-17 Theatrum Arbitri is a literary study dealing Greek society and its people with the possible influence of Roman comic drama comedies of Plautus and Terence theatre of the Greek and Roman mimes and fabula Atellana on the surviving fragments of Petronius Satyrica The theatrical assessment of this novel is carried out at the levels of plot construction characterization language and reading of the text as if it were the narrative equivalent of a farcical staged piece with the theatrical structure of a play produced before an audience The analysis follows the order of each of the scenes in the novel The reader will also find a brief general commentary on the less discussed scenes of the Satyrica and a comprehensive account of the theatre of the mimes and its main features Theatres in Roman Palestine and Provincia Arabia A. Segal, 2018-07-17 This volume deals with the architectural history of the theatre in Roman Palestine and Provincia Arabia a region which comprised a Jewish Nabataean and Hellenized population but lacked any tradition of

classical theatre The earliest examples erected by Herod were actually a foreign imposition upon the landscape of Judaea while the theatres built in the Nabataean kingdom provided no more than an architectural setting for activities which were often unrelated to theatre in the accepted sense When the Hellenized cities in the region began building their theatres classical plays were already disappearing from the stage throughout the Roman world their place taken by lighter less select forms of public entertainment The author then offers a comprehensive architectural analysis of each of the thirty theatres so far uncovered in the area Richly illustrated it provides a vivid reconstruction of a world which though long gone continues to fascinate

Senecas Tragodien Sprachliche Und Stilistische Untersuchungen Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has be more apparent than ever.
