Community Suzanne Keller, 2018-06-05 This book tells the story of how a human community comes to be and how aspirations for the good life confront the dilemmas and detours of real life Suzanne Keller combines penetrating analysis of classic ideas about community with a remarkable and unprecedented thirty year case study of one of the first planned unit developments in America and the first in New Jersey Twin Rivers this pioneering venture featured townhouses and shared spaces for children's play and adult work and play in a society that stresses individual over collective goals and private over public concerns Hence the timeless questions asked over millennia How does an aggregate of strangers create an identity of place shared goals viable institutions and a spirit of mutuality and reciprocity What obstacles stand in the way and how are these overcome And how does design generate or deter community spirit Inspired by the legacy of Plato Rousseau de Tocqueville and T. N. S. Keller traces the difficult birth and the rich unfolding of Twin Rivers from a former potato field into a vibrant contemporary community Most community studies remain at a highly descriptive level This book has both broader and deeper aims endeavoring to develop principles of the common life as we enter the age of cyberspace Keller reveals the

community of Twin Rivers through a multidimensional social microscope having monitored the community from the day it opened by participant observation attitude surveys the study of collective records and nearly 1 000 in depth interviews with homeowners She offers fascinating insight into how residents maintain privacy relate to neighbors cope with social conflict and develop ideas about the common good She shows that Twin Rivers residents remain hopeful about the possibility of community despite variable success in achieving their desires Indeed she argues that the hard won experience more than the utopian ideal is the true measure of community Keller concludes that despite the homogenizing effects of mass communication and globalization local communities will continue to proliferate in the foreseeable future due to changing lifestyles and the continuing quest for roots This important and engaging book will be appreciated by social scientists architects physical planners developers and lenders and community leaders as well as by the general reader interested in creating a bridge between individualism and community **Kenya National Assembly Official Record (Hansard)**

,1963-06-07 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya *Khoesan and Imperial Citizenship in Nineteenth Century South Africa* Jared McDonald,2023-04-24 This volume explores the formative and expressive dynamics of Khoesan identity during a crucial period of incorporation as an underclass into Cape colonial society *Khoesan and Imperial Citizenship in Nineteenth Century South Africa* emphasises loyalism and subjecthood posited as imperial citizenship as foundational aspects of Khoesan resistance to the debilitating effects of settler colonialism The work argues that Khoesan were active in the creation of their identity as imperial citizens and that expressions of loyalty to the British Crown were reflective of a political and civic consciousness that transcended their racially defined place in Cape colonial society Following a chronological trajectory from the mid 1790s to the late 1850s author Jared McDonald examines the combined influences of colonial law evangelical humanitarianism imperial commissions of inquiry and the abolition of slavery as conduits for the notion of imperial citizenship As histories and legacies of colonialism come under increasing scrutiny the history of the Khoesan during this period highlights the complex nature of power and its imposition and the myriad nuanced ways in which the oppressed react resist and engage This book will be of interest to scholars and students working on British imperialism in Africa as well as histories of settler colonialism nationalism and loyalism *Inherit the Dust from the Four Winds of Revilla* José M. Peña,2006-05-16 Rich in period analysis here is fascinating historical perspective covering 250 years of existence primarily of a 1750 Spanish settlement originally called Villa del Seor San Ignacio de Loyola de Revilla and now known as Guerrero Viejo Although many books cover the genealogical aspects of families that originated in this city the historical contributions of the early pioneers their descendents and the controversy related to land grants called Porciones awarded by the King of Spain have for the most part remained in the background This then is the principal objective of this book The book provides summaries on the evolution history wars and problems of Mexico Using some of his

ancestors as a sample the author shows the hardships they endured and discusses their contribution in the formation of the two great nations that the United States and Mexico have become At the same time the book shows that the land grants and heirs took one of two alternate roads depending on their location when Texas and other territories were ceded to the United States People and land grants located on the Mexican side were victims of the violent and blood soaked history that Mexico has had On the other hand those located on the U S side were subjected to mischief and flagrant violations of the terms of the Treaty of Guadalupe Hidalgo Sadly in 1953 the Falcon Dam inundated Guerrero Viejo and many of the land grants Thus for all intents and purposes the heirs of most land grants met the same end and a financial obligation of 193 0 Million plus interest exchanged between the U S and Mexico has remained unpaid for over 80 years The reader will long remember the amazing facts developed in this book *Ecological Migration, Development and Transformation* Peilin Li,Xiaoyi

Wang,2015-06-05 After over 30 years of reform and opening up China s aggregate economic volume is now the second largest in the world Over the past decade many provinces in the western region of China have implemented ecological migration projects of different scales which have attracted considerable attention both in China and abroad The projects indicate first that there is an urgent need for this type of endeavor whether the goal is to reduce poverty or to protect the environment we need to move the poor populations out of the ecologically fragile regions Secondly the projects indicate that the Chinese government is capable of meeting this need Migration projects are complex and costly and without sufficient financial resources and systematic planning migration may fail to reduce poverty and could even aggravate it The rapid economic growth in China however makes such migration projects viable **Official Report** Kenya.
