## **Sense Of Beauty:**

The Sense of Beauty George Santayana, 2012-08-31 It is remarkably appropriate that this work on aesthetics should have been written by George Santayana who is probably the most brilliant philosophic writer and the philosopher with the strongest sense of beauty since Plato It is not a dry metaphysical treatise as works on aesthetics so often are but is itself a fascinating document as much a revelation of the beauty of language as of the concept of beauty This unabridged reproduction of the 1896 edition of lectures delivered at Harvard College is a study of why when and how beauty appears what conditions an object must fulfill to be beautiful what elements of our nature make us sensible of beauty and what the relation is between the constitution of the object and the excitement of our susceptibility Santayana first analyzes the nature of beauty finding it irrational pleasure regarded as the quality of a thing He then proceeds to the materials of beauty showing what all human functions can contribute love social instincts senses etc Beauty of form is then analyzed and finally the author discusses the expression of beauty Literature religion values evil wit humor and the possibility of finite perfection are all examined Presentation throughout the work is concrete and easy to follow with examples drawn from art history anthropology psychology and similar areas

**The Sense of Beauty: Being the Outlines of Aesthetic Theory** George Santayana, 2022-08-01 In *The Sense of Beauty: Being the Outlines of Aesthetic Theory* George Santayana presents a profound exploration of aesthetics delving into the intricate relationship between beauty human experience and artistic expression Written in a rich philosophical style that seamlessly blends rigorous argumentation with lyrical prose Santayana articulates his theories on beauty as a psychological and sensory phenomenon The work stands as a significant contribution to aesthetic philosophy situated within the broader intellectual context of the early 20th century when questions of beauty art and value were hotly debated amidst modernist beginnings George Santayana 1863 1952 was a philosopher poet and novelist often associated with naturalism and pragmatism His diverse background having been born in Spain and later becoming a prominent figure in American philosophy greatly influenced his worldview Santayana's keen observations on the nature of culture and human perception informed his writing providing depth to his aesthetic theory which he positions against a backdrop of evolving artistic movements and cultural shifts For readers intrigued by the philosophical underpinnings of art and beauty *The Sense of Beauty* serves as a seminal text that encourages deep reflection on aesthetic values Santayana's insights offer not only a foundational understanding of aesthetic theory but also resonate with contemporary debates about the role of beauty in an increasingly complex world

*The Theory of Beauty in the Classical Aesthetics of Japan* T. Izutsu,Toyo Izutsu,1981-02-28 The Japanese sense of beauty as actualized in innumerable works of art both linguistic and non linguistic has often been spoken of as something strange to and remote from the Western taste It is in fact so radically different from what in the West is ordinarily associated with aesthetic experience that it even tends to give an impression of being mysterious enigmatic or esoteric This state of affairs comes from the fact that there is a peculiar kind of metaphysics based on a realization of the simultaneous semantic articulation of consciousness and the external reality dominating the whole functional domain of the Japanese sense of beauty without an understanding of which the so called mystery of Japanese aesthetics would remain incomprehensible The present work primarily purports to clarify the keynotes of the artistic experiences that are typical of Japanese culture in terms of a special philosophical structure underlying them It consists of two main parts 1 Preliminary Essays in which the major philosophical ideas relating to beauty will be given a theoretical elucidation and 2 a selection of Classical Texts representative of Japanese aesthetics in widely divergent fields of linguistic and extra linguistic art such as the theories of waka poetry Noh play the art of tea and haiku The second part is related to the first by way of a concrete illustration providing as it does philological materials on which are based the philosophical considerations of the first part      **The Sense of Beauty, Being the Outlines of Aesthetic Theory** George Santayana,2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy      *The Sense of Beauty; Being the Outlines of Aesthetictheory - Scholar's Choice Edition* George Santayana,2015-02-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant      *The Sense of Beauty* George Santayana,2015-07-08 Excerpt

**Values of Beauty** Paul Guyer,2005-06-20 This book discusses the context and content of aesthetics as they relate to philosophical history and imagination

**Artistic Visions and the Promise of Beauty** Kathleen M. Higgins,Shakti Maira,Sonia Sikka,2017-03-06 This volume examines the

motives behind rejections of beauty often found within contemporary art practice where much critically acclaimed art is deliberately ugly and alienating It reflects on the nature and value of beauty asking whether beauty still has a future in art and what role it can play in our lives generally The volume discusses the possible end of art what art is and the relation between art and beauty beyond their historically Western horizons to include perspectives from Asia The individual chapters address a number of interrelated issues including art beauty and the sacred beauty as a source of joy and consolation beauty as a bridge between the natural and the human beauty and the human form the role of curatorial practice in defining art order and creativity and the distinction between art and craft The volume offers a valuable addition to cross cultural dialogue and in particular to the sparse literature on art and beauty in comparative context It demonstrates the relevance of the rich tradition of Asian aesthetics and the vibrant practices of contemporary art in Asia to Western discussions about the future of art and the role of beauty     An Inquiry into the Original of Our Ideas of Beauty and Virtue Francis

Hutcheson,2021-11-03T14:13:00Z A seminal text of the Scottish Enlightenment this consists of two treatises exploring our aesthetic and our moral abilities     *The Sense of Beauty* George Santayana,1979-01-01     *Reaffirming the Importance of Beauty* Sonja Zuba,2023-08-03 This book argues that beauty challenges us to find meaning in its object to make critical comparisons and to examine our own lives and emotions in the light of what we find The book examines the importance of beauty not only in terms of art and aesthetics but also within the context of the current post religious age It engages with the philosophical works of Roger Scruton and William Desmond and endorses and addresses many important discussions surrounding art and beauty found in the works of Plato Kant Hegel Schopenhauer Nietzsche and Heidegger It also takes seriously the role of poetry and painting to explore the theme that runs through this research the idea that beauty is rationally found Meditations on the art of Manet Van Gogh Delacroix Rembrandt and other artists together with the voices of several poets show us that beauty cannot be reduced to aesthetics only Irreducible to philosophy religion or aesthetics the notion of beauty is deeply examined in all its forms and spiritual meaning     The Soul of Beauty Ronald Schenk,1992 The problem explored in *The Soul of Beauty* is the split in modern consciousness between the world of perception and appearance on the one hand and the world of action and meaning on the other We see in one way and find truth in another The work presents this dualism as a problem in the modern sense of beauty The intent of the book is the recovery of beauty as that which brings together such contemporary splits as perception and action appearance and meaning matter and spirit subject and object Beauty is imaged in two paradigms The first presents beauty as a matter of appearance which holds meaning beauty as truth The second holds that beauty is subjective experience which in its modern sense is divorced from knowledge and practical action beauty as relative experience The paradigms are formed through an imaginative and historical exploration of the tradition of beauty in Western consciousness The prototype of the first paradigm beauty as appearance is seen in the goddess Aphrodite who reflects the Greek sense of divinity in form itself This paradigm is then

founded upon the tradition of Plato in the Phaedrus and the Symposium Plotinus Dionysius and Ficino The major elements of this paradigm are depicted in beauty as 1 source in a hierarchical universe 2 universal mediator 3 object of love 4 human perception 5 human knowledge 6 light and 7 unity goodness and being The suggestion is made that the paradigm of beauty as appearance is relevant for psychology as a study of soul because it brings together perception and meaning The paradigm of beauty as a subjective experience focuses historically upon beauty as a spiritual conceptual proportion methodological linear perspective and subjective phenomenon In the tradition of proportion and subjectivism knowledge is gained through perception that occurs via an organizing system such as mathematics or a concept such as proportion rather than through the direct perception of appearance Meaning is separated from perception and the organizing system or concept not appearance becomes the ground of knowledge It is suggested that this paradigm reflected in scientific and conceptual psychology is problematic for psychology as a study of soul Instead psychology conducts its endeavors in the service of identification with the divine control over the physical world and certainty of consciousness The final portion of the work examines the recovery of beauty as appearance in contemporary psychology through the notion of image in Jung's later thought and the phenomenon of psychotherapy The work concludes with a presentation of psychology as an aesthetic enterprise bringing together meaning and appearance spirit and matter art and science subject and object
