Sensory Physiology And Behavior Proceedings Advances In Behavioral Biology V 15:

Sensory Physiology and Behavior Rachel Galun, 2012-12-06 In a recent book Arthur Koestler describes very cynically the superfluity of scientific meetings He lists the various gatherings that are going to take place in one brief summer season in the Kongresshaus of a small Swiss village ending the long list with three interdisciplinary symposia titles of which contain the three words Environment Pollution and Future in three different permutations By the same token Koestler could list endlessly meetings on sensory physiology and behaviour or their synonyms which have taken place all over the world on the national or international level in recent years The organizing committee of the Oholo conferences was very well aware of this situation when the topic for the 19th Conference was selected However this field is relatively new in Israel only in the last decade were several teams established in this country to carry out combined studies on sensory physiology and behaviour They attracted ever increasing numbers of students of zoology physiology medicine and psychology The committee thought that the time was ripe to bring the Israeli students and scientists together with noted investigators from all over the world to discuss and analyse the state of the art The Conference dealt with processing of information obtained through the various senses visual auditory tactile as well as the olfactory and gustatory senses More complex behavioural patterns were also analysed

Learning P. Balsam, A. Tomie, 2014-01-14 First published in 1984 The effects of contextual stimuli on the performance of conditioned behaviors have recently become the object of intense theoretical and empirical scrutiny This book presents the work of researchers who have attempted to characterize the role of context in learning through direct experimental manipulation of these stimuli Their work reveals that context has important and systematic effects upon the learning and performance of conditioned responses The roles played by context are diverse and the problems confronted in attempting to evaluate and differentiate contextual functions are formidable These considerations are discussed in the introductory chapter The remaining chapters present an analysis of the role of context in Pavlovian operant and discrimination learning paradigms
