Sentencing As A Human Process Canadian Studies In Criminology 1:

Canadian Journal of Criminology and Corrections ,1971 **The Ordering of Justice** Patricia M. Baranek,Richard V. Ericson,1982-01-01 From the point of his arrest through to the final disposition of his case the authors follow the accused as he proceeds through the criminal control system They draw a picture of one who is dependent upon the orders and decisions of the police crown attorney defence lawyer and judge and not a defendant with significant autonomy Substudies conducted under a program of the Centre of Criminology provide empirical material on patrol police detectives crown attorneys and defence lawyers and are complemented by the authors own interviews of accused persons They produce a unique picture of the person who stands accused unlike the official agents who are regular and experienced participants in the criminal process the accused is a one shot player As a defendant he is subject to the orders and decisions of the official criminal control agents he fails to exercise what appear externally as his formal rights because the apparent costs exceed the advantages He complies with police searches fails to remain silent fails to call a third party gives a statement often does not obtain a lawyer routinely accepts his lawyer s advice rarely demands a trial often remains silent in court and very rarely considers an appeal The ordering which the accused meets out of court is reproduced in the public forum of the court Through the display of formal legal rationality there and in the belief that matters could have been a lot worse he experiences the majesty justice and mercy of the criminal process and in turn accords legitimacy to the actions taken against him The authors discuss prospects for changing the criminal process and conclude that the range of reforms that have been advocated and sometimes implemented does not lead to an alteration of the accused s position within the ordering of justice because the system is not truly adversarial Rather it serves the interests of the state in ordering the population as well as professional interests of those who man the system **Reproducing Order** Richard V. Ericson,University of Toronto. Centre of Criminology,1982-01-01 Professor Ericson and his colleagues followed the work of patrol officers in a large Canadian regional police force From their direct observations comes a wealth of information quantitatively assembled and qualitatively discussed with insights into the nature of policing This book reveals that the police are not mere referees of our legal lives blowing the whistle on our infractions They are censors of certain types of possibly wrong actions They are selective in their invocation of criminal law and use the law artfully to restore settings to orderliness Ericson emphasizes the routine manner in which the patrol officer intervenes and gains compliance from the citizenry He demonstrates that when the criminal process is invoked the police maintain fundamental control over the court outcome Using these findings he addresses basic questions about the role of police in relation to crime and how it is produced literally by the patrol officer Crime is also seen as the primary basis of police legitimacy which in turn enables the police to engage in broad surveillance and information gathering The author s conclusions about the nature of policing and his discussion of the implications of proposals for reform of police will generate better informed deliberation in political and public decision making and in the

Sentencing Ralph Henham, 2013-10-01 Sentencing is the process through which the legitimacy of punishment is declared and justified However it is increasingly portrayed as a social activity which should be more responsive to the pluralistic needs and values of individuals and communities in contemporary society It will therefore have to adapt to an array of different perceptions of what justice is and how it should be delivered as well as different sensitivities and emotional responses to sentencing processes and outcomes At a time when fundamental questions are being asked about the relevance of existing forms of punishment in contemporary society Sentencing argues for a profound normative understanding of the relationship between sentencing and its perception by citizens vital if we are to fully comprehend the nature and significance of punishment and the particular challenges it faces as a force for social cohesion Henham explores this theme by focusing on key areas of debate within the field the treatment of gender and race in sentencing the future role of sentencing in criminal justice governance the development of new criteria for evaluating sentencing within a more socially inclusive framework Henham suggests that a greater focus on the relationship between penal ideology and the impact of sentencing in the wider community is essential for effective future policy making in this area Sentencing will be useful for both undergraduate and postgraduate students of law criminology criminal justice and sociology as well as for academics and criminal justice policymakers

Punishment and Process in International Criminal Trials Ralph Henham, 2017-03-02 International sentencing has become significant given the numerous events on the world stage which have focused attention on the justifications and adequacy of punishment for heinous crimes such as genocide and crimes against humanity In addition to providing a detailed evaluation of the philosophical and theoretical difficulties raised by this rapidly developing area of international criminal justice this book provides an integrated socio legal analysis of the law and process of international sentencing It considers the rationale and development of international sentencing structures and processes the nature and scope of legal and procedural constraints on decision making as well as access to justice and rights issues The book discusses sentencing within the context of international criminal law and examines internationalized trial processes and alternative mechanisms for resolution In seeking to comprehend the punishment of international crimes through the comparative contextual analysis of trial processes it challenges our present understanding of how and why particular sentencing outcomes are produced and the perceived legitimacy of international trial justice

Criminal Sentencing as Practical Wisdom Graeme Brown, 2017-06-01 How do judges sentence In particular how important is judicial discretion in sentencing Sentencing guidelines are often said to promote consistency but is consistency in sentencing achievable or even desirable Whilst the passing of a sentence is arguably the most public stage of the criminal justice process there have been few attempts to examine judicial perceptions of and attitudes towards the sentencing process Through interviews with Scottish judges and by presenting a comprehensive review and analysis of recent scholarship on sentencing including a comparative study of UK Irish and Commonwealth sentencing jurisprudence this book explores these issues to present a systematic theory of sentencing Through an integration of the concept of equity as particularised justice the Aristotelian concept of phronesis or practical wisdom the concept of value pluralism and the focus of appellate courts throughout the Commonwealth on

sentencing by way of instinctive synthesis it is argued that judicial sentencing methodology is best viewed in terms of a phronetic synthesis of the relevant facts and circumstances of the particular case The author concludes that sentencing is best conceptualised as a form of case orientated concrete and intuitive decision making one that seeks individualisation through judicial recognition of the profoundly contextualised nature of the process *Everyday Practices and Trouble Cases* Austin Sarat,1998 *Everyday Practices and Trouble Cases* asks how law helps to constitute the worlds in which we live every day and how law responds to disruptions and disputes that arise in various realms Leading scholars explore the dichotomy between everyday practices and trouble cases and the way various kinds of research have addressed that dichotomy illuminating the pervasive role of law in social life as well as the capacity of law to respond to social conflict **Birthplace, Migration and Crime** Ronald D.
