Sentimental Attachments Essa:

Sentimental Attachments Janet Carey Eldred, 2005 This book was written first and foremost for other writers begins Janet Carey Eldred's extraordinary work of blended genres For Eldred teachers of writing need to experience the art and craft of composing creative nonfiction and essays firsthand exploring multiple perspectives genres styles modes structures and subjects They will be at their best she argues if they enact what they profess *Sentimental Attachments* opens and closes with important and passionate arguments about why teachers of composition must also be writers of what Eldred calls lived experience At its center however the book offers a series of lyrical evocative exploratory essays that address a range of essential and complex questions How do we compose our personal and professional identities How do we represent our different selves without compromising other parts of our lives and perhaps even more important the lives of others How do we maintain a strong voice in the world without losing sight of other people places histories and ideas Like others who defy the conventional view that we must hold the personal separate from the political or the professional Janet Carey Eldred believes that teachers of writing must compose themselves as they help others to compose We are living drafts in progress she writes and in *Sentimental Attachments* she models the kinds of composition and revision that make life and the life of writing and teaching meaningful

Sentimental State(s) Heike Paul, Sarah Pritz, 2025-08-12 The word state has a double meaning signifying both a condition and a political entity Starting from this observation the contributors to this volume provide a cross cultural and cross media discussion of the role of the sentimental in political culture In their case studies from all over the world they focus on affective politics of order and belonging in processes and constellations of community building They analyze sentimental encodings used in symbolic interactions ranging from foundational narratives and state orchestrated public rituals to visualizations of citizenship and protest movements

The British and Anglo-Irish Thing-Essay from 1701 to 2021 Daniel Schneider, 2023-09-29 While the it narrative the thing poem and thing theatre have been around for some time the essay which is often considered literature's fourth genre is still lacking its thing subgenre Yet particularly British and Anglo Irish literature display a long albeit so far implicit tradition of texts that can be categorised as thing essays Starting with Jonathan Swift's *Meditation upon a Broomstick* 1701 and continuing until today these texts draw broader insights from the contemplation of a material item of daily life This book provides the first theoretical conceptualisation of this genre Bringing elements from essay studies and the New Materialisms together it shows why the essay lends itself particularly well to literarizations of the personal relationships that people foster to everyday objects While the idiosyncrasies of each essay show the versatility of thing essays the study also seeks to unearth changing attitudes towards things and thus towards people's material surroundings in general throughout time In order to account for such synchronic and diachronic differences in thing essays this study develops a typology of three modes via which things can be approached essayistically In the book's second part this framework will be employed in close readings and historicisations of 14 thing essays from 1701

until 2021 Ranging from satire to sentimental writing from religion to consumerism from class to gender differences from feelings of nationality to exoticism from the French Revolution to Freud and from art to everyday life the stylistic and thematic broadness of these thing essays ultimately shows the multifarious connections between human life and materiality

The Radical Ecology

of the Shelleys Colin Carman, 2018-11-07 *The Radical Ecology of the Shelleys Eros and Environment* is the first full length study to explore a radically queer ecology at work in writings by Percy Bysshe Shelley and Mary Wollstonecraft Shelley as their discussions of nature and the natural consistently link ecology and erotic practice Initiated by Timothy Morton in 2010 as a hybrid of two schools of thinking about nature queer ecology combines the alertness of environmentalists to constructions of the natural with efforts of sexuality scholars to denaturalize identity and to expose sexuality as a culture bound construct Conceptions of place are central to this investigation not only because an attachment to place is traditionally thought to be the ontological basis of all environmental consciousness e g think globally act locally but because these two Romantic writers underscore the dynamic interaction between a person's natural surroundings and his/her interpersonal attachments The poetical and prose writings of the Shelleys claim our special attention because of their unusual conception of the oikos the etymological root of ecology to mean both local grounds and the social often domestic places in which people dwell and desire The overarching thesis of this book asserts that proto ecological theories in Romantic era England cannot be understood separately from discourses related to married family life and the texts considered demonstrate the comingling of earthly and erotic enjoyment The issues raised by *Eros and Environment* are fundamental not only to literary and queer history but to all humanistic studies They render the study of nature from a queer perspective a matter of intense interest to scholars in numerous disciplines ranging from ecocriticism and the natural sciences including climate studies to feminist criticism and sexuality studies
