*Beyond Primitivism* Jacob K. Olupona, 2004-02-24 What role do indigenous religions play in today s world Beyond Primitivism is a complete

appraisal of indigenous religions faiths integrally connected to the cultures in which they originate as distinct from global religions of conversion as practised across America Africa Asia and the Pacific today At a time when local traditions across the world are colliding with global culture it explores the future of indigenous faiths as they encounter modernity and globalization Beyond Primitivism argues that indigenous religions are not irrelevant in modern society but are dynamic progressive forces of continuing vitality and influence Including essays on Haitian vodou Korean shamanism and the Sri Lankan Wild Man the contributors reveal the relevance of native religions to millions of believers worldwide challenging the perception that indigenous faiths are vanishing from the face of the globe      **The Sorcerer's Handbook** Wade Baskin,2023-07-11 This alphabetical reference guide offers in depth information on topics terminology and key figures from the history of sorcery and magic Sorcery the art of manipulating the supernatural forces that control the universe has a long rich and fascinating legacy reaching back to ancient times Any student or practitioner of this strange art will need a roadmap to its unique vocabulary and secret history Drawn together from many different sources and presented in this book in simple terms are thousands of fascinating items relating to sorcery Entries are arranged alphabetically and cross indexed to provide ready access to the wide variety of materials associated with sorcery Sorcery as used in this book embraces the precepts and practices through which men and women have sought to manipulate their universe      Mediality on Trial Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium s power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other      *Substance Abuse* Michael Floyd,J Paul Seale,2018-08-17 Series Editors Moira Stewart Judith Belle Brown and Thomas R Freeman Primary care clinicians are often unfamiliar with

**Aesthetics of Change** Bradford P. Keeney, 2017-02-13 The fundamental concern of psychotherapy is change While practitioners are constantly greeted with new strategies techniques programs and interventions this book argues that the full benefits of the therapeutic process cannot be realized without fundamental revision of the concept of change itself Applying cybernetic thought to family therapy Bradford P Keeney demonstrates that conventional epistemology in which cause and effect have a linear relationship does not sufficiently accommodate the reciprocal nature of causation in experience Written in an unconventional style that includes stories case examples and imagined dialogues between an epistemologist and a skeptical therapist the volume
