Benita Roth, 2004 This examines the emergence of feminist movements from the Civil Rights Black Liberation movement the Chicano movement and the white left in the 1960s and 1970s The author argues that the second wave was comprised of feminisms organizationally distinct movements that influenced each other in complex ways The making of second wave feminisms resulted from decisions that feminists made about their political choices given constraints that affected their activism These constraints were placed on them by structural inequalities that militated against unity among feminists from different racial ethnic communities by loyalties that feminists particularly feminists of color felt to other members of their movement communities and by the necessity of making political decisions within a competitive and complex extra institutional oppositional milieu *Evidence Taken by the Interstate Commerce Commission in the Matter of Proposed*

Faux Feminism Serene Khader,2024-10-29 For readers of Hood Feminism and Against White Feminism An incisive examination of why the pillars of feminism have eroded and how all women not just the girlbosses can rebuild them After over 175 years the feminist movement now in its fourth wave is at risk of collapsing on its eroding foundation In Faux Feminism political philosopher Serene Khader advocates for another feminism one that doesn't overwhelmingly serve white affluent girlbosses With empathy passion and wit Khader invites the reader to join her as she excavates the movement's history and draws a blueprint for a more inclusive and resilient future A feminist myth buster Khader begins by deconstructing faux feminisms Thought to be the pillars of good feminism they may appeal to many but in truth leave most women behind Khader identifies these traps that white feminism lays for us all asking readers to think critically about The Freedom Myth The overarching misconception that feminism is about personal freedom rather than collective equality The Individualism Myth The pervasive idea that feminism aims to free individual women from social expectations The Culture Myth The harmful misconception that other cultures restrict women's liberation The Restriction Myth The flawed belief that feminism is a fight against social restrictions The Judgment Myth The fallacy of celebrating women's choices without first interrogating the privileges afforded or denied to the women In later chapters Khader draws on global and intersectional feminist lessons of the past and present to imagine feminism's future She pays particular attention to women of color especially those in the Global South Khader recounts their cultural and political stories of building a more inclusive framework in their societies These are the women she argues from whom today's feminists can learn Khader's critical inquiry begets a new vision of feminism one that tackles inequality at the societal not individual level and is ultimately rooted in community **The Commercial & Financial Chronicle ...** ,1903 Public Finance and Public Policy Arye L.
