The 9/11 Commission Report National Commission O Terrorist Attacks,2010-01-01 It has improbably been called uncommonly lucid even riveting by The New York Times and it was a finalist for the 2004 National Book Awards nonfiction honor It is a literally chilling read especially in its minute by minute description of the events of the morning of 9 11 inside the Twin Towers It is The 9 11 Commission Report which was before its publication perhaps one of the most anticipated government reports of all time and has been since an unlikely bestseller The official statement by the National Commission on Terrorist Attacks Upon the United States which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean it details what went wrong on that day such as intelligence failures what went right the heroic response of emergency services and self organizing civilians and how to avert similar future attacks Highlighting evidence from the day from airport surveillance footage of the terrorists to phone calls from the doomed flights and offering details that have otherwise gone unheard this is an astonishing firsthand document of contemporary history While controversial in parts it has been criticized for failing to include testimony from key individuals and it completely omits any mention of the mysterious collapse of WTC 7 it is nevertheless an essential record of one of the most transformational events of modern times

The BBC, The 'War on Terror' and the Discursive Construction of Terrorism Jared Ahmad,2018-04-21 In the years since the September 11th 2001 attacks the al Qaeda phenomenon has become one of the most written about yet crucially misunderstood threats of the 21st century But despite the sheer volume of literature produced during the war on terror period few studies have sought to consider the way this entity has been represented within the news media The BBC the War on Terror and the Discursive Construction of Al Qaeda addresses this significant gap in knowledge by providing an original and much needed assessment of the various strategies used to depict al Qaeda and thus make it meaningful for British television audiences Drawing on the work of French philosopher Michel Foucault and focusing on Britain s most watched and trusted news programme the BBC s flagship News at Ten bulletin the book provides insight into both the visual and verbal nature of these representations and the way they have shifted over the course of a ten year period while also shedding light upon the broader political and social consequences of the BBC s portrayals In doing so the book not only helps to develop a deeper understanding of the complexity of the BBC s representations and their various shifts and transformations but also details the process through

which al Qaeda has been pieced together from a range of cultural parts And how ultimately the dominant mode of representation used to portray this entity is one that closely resembles Britain's own diverse multicultural self
