

WALTZ from SERENADE FOR STRINGS

P. I. Tchaikovsky

Tempo di Valse

The musical score is written for piano accompaniment in 3/4 time, key of D major. It consists of four systems of music. The first system begins with a piano (*p*) dynamic and features a melody in the right hand with chords G, A7, and G indicated above it. The second system continues the melody with chords D, G, C, and D7. The third system includes chords G, D⁹, D, A7, D, and G. The fourth system starts with a D chord, followed by an A7 chord, then a D chord, and finally a section marked 'No Chord'. Dynamics include *f rit.* and *a tempo* markings.

This volume responds to Sonneck's call for action by creating a bibliography of periodicals that document the use and place of the guitar in a little known segment of America's musical culture in the final decades of the nineteenth century through the first third of the twentieth century. Between 1880 and the mid 1930s a unique musical movement grew and flourished in this country. Focused on the promotion of so-called plectral instruments, this movement promoted the banjo, the mandolin, and the guitar as cultivated instruments on a par with the classical violin or piano. The Banjo, Mandolin, and Guitar (BMG) community consisted of instrument manufacturers, music publishers, professional teachers and composers, and amateur students. While some professional soloists achieved national recognition, the performing focus of the movement was ensemble work with bands of banjos, mandolins, and guitars ranging from quartets and quintets modeled on the violin family string ensembles to festival orchestras of up to 400 players mimicking the late romantic symphony orchestra. The repertoire of most ensembles included popular dances of the day as well as light classics, but more ambitious ensembles tackled Mozart, Haydn, Beethoven, and even Wagner. Although this movement straddled both popular and cultivated classical music, making its elitist pretensions contributed to its demise in the wake of the explosive growth of modern American popular music linked to Tin Pan Alley or the blues. While the movement's heyday spanned the early years of audio recording, only a handful of active BMG performers made recordings. As a result, few musical scholars are aware of the BMG movement and its contribution to American musical culture, especially its influence on the physical and technical development of America's instrument, the guitar. The movement did, however, leave extensive traces of itself in periodicals produced by manufacturing and publishing concerns. Beginning in 1882, the leadership of the BMG movement fell to the publishers, editors, and contributors from these promotional journals, which were dedicated to the interests of Banjoists, Mandolinists, and Guitarists. While advertising dominated the pages of most of these periodicals, nearly all offered product and publication reviews, historical surveys, biographical sketches, and technical advice. In addition, the BMG magazines not only documented performances with reviews and program lists but also contained musical scores for solo instruments and plucked string ensembles. These magazines are the primary sources which document this vibrant expression of America's musical life. While one or two of the BMG magazines have been known by guitar scholars, most have not seen the light of day in decades. Similarly, a few of the leading guitar figures of the BMG movement, principally William Foden, Vahdah Olcott, Bickford, and George C. Krick, have been acknowledged and documented, but many more remain completely anonymous. This bibliography offers access to the periodicals which help document the story of the guitar in America's progressive era, a story of tradition and transformation as lived and told by the guitar's players, teachers, manufacturers, composers, and fans in the BMG movement. The bibliography consists of two large sections. The first contains a chronological list of articles, news items, advertisements, illustrations, and photographs, as well as a list of musical works for guitar published in the BMG magazines. The second section of the bibliography is a series of indices which link names and subjects to the lists. With nearly 5500 entries and over 100 pages of

indices this bibliography offers researchers access to a musical world that has been locked away on library shelves for the past century *Country Music Records* Tony Russell,Bob Pinson,2004-10-07 More than twenty years in the making Country Music Records documents all country music recording sessions from 1921 through 1942 With primary research based on files and session logs from record companies interviews with surviving musicians as well as the 200 000 recordings archived at the Country Music Hall of Fame and Museum s Frist Library and Archives this notable work is the first compendium to accurately report the key details behind all the recording sessions of country music during the pre World War II era This discography documents in alphabetical order by artist every commercial country music recording including unreleased sides and indicates as completely as possible the musicians playing at every session as well as instrumentation This massive undertaking encompasses 2 500 artists 5 000 session musicians and 10 000 songs Summary histories of each key record company are also provided along with a bibliography The discography includes indexes to all song titles and musicians listed
