to pick and choose the support items you believe will help you make your point for that Sunday and draw the application that you believe God desires the people in your congregation to hear These sermons were originally written for Christmas Eve providing a rotating set of sermons for that annual service They were added to each time I preached them and over the years came to the form and content they have at present They can be used in that manner or used during the advent season A few of the sermons have almost enough content to be used for four Sundays in the month long season of Advent The sermons offer large amounts of content numerous applications and a variety of different ideas about the various aspects of the Christmas Story Other sermons I have used and have stood the test of time will be available shortly in volume two of the Christmas Sermons Have a blessed time as you minister to your congregation at this and future Christmas Seasons

communicated the ever worsening news to their congregants especially on important religious occasions when they had peak attendance and peak receptivity A central theme is how the preachers related the contemporary horrors to ancient examples of persecution Did they present what was occurring under Hitler as a reenactment of the murderous oppressions by Pharaoh Amalek Haman Ahasuerus the Crusaders the Spanish Inquisition the Russian Pogroms When did they begin to recognize and articulate from their pulpits an awareness that current events were fundamentally unprecedented Was the developing cataclysm consistent with traditional beliefs about God s control of what happened on earth No other book length study has presented such abundant evidence of rabbis in all streams of Jewish religious life seeking to rouse and inspire their congregants to full awareness of the catastrophic realities that were taking shape in the world beyond their synagogues

web jul 29 2020 by definition of continuity we have $\lim_{x \rightarrow 0} g(x) = g(0)$ i.e. you can directly substitute 0 to evaluate the limit however f is not continuous at 0 so you cannot perform such operation to evaluate the limit and must use other techniques remark finding a limit does not require the function to be defined at that point
