Records, Recoveries, Remnants and Inter-Asian Interconnections Anjana Sharma,2018-05-24 *Records Recoveries Remnants and Inter Asian Interconnections* Decoding Cultural Heritage has its conceptual core in the inter regional networks of Nalanda Mahavihara and its unique place in the Asian imaginary The revival of Nalanda university in 2010 as a symbol of a shared inter Asian heritage is this collection s core narrative The multidisciplinary essays interrogate ways in which ideas objects texts and travellers have shaped and in

turn have been shaped by changing global politics and the historical imperative that underpins them The question of what constitutes cultural authenticity and heritage valuation is inscribed from positions that support negate or reframe existing discourses with reference to Southeast and East Asia The essays in this collection offer critical scholarly and nuanced views on the vexed questions of regional and inter regional dynamics of racial politics and their flattening hegemonic discourses in relation to the rich tangible and intangible heritage that defines an interconnected Asia **Women and Monastic**

Buddhism in Early South Asia Garima Kaushik, 2016-02-12 This book uses gender as a framework to offer unique insights into the socio cultural foundations of Buddhism Moving away from dominant discourses that discuss women as a single monolithic homogenous category thus rendering them invisible within the broader religious discourse this monograph examines their sustained role in the larger context of South Asian Buddhism and reaffirms their agency It highlights the multiple roles played by women as patrons practitioners lay and monastic members etc within Buddhism The volume also investigates the individual experiences of the members and their equations and relationships at different levels with the Samgha at large with their own respective Bhik u or Bhik un Sangha with the laity and with members of the same gender both lay and monastic It rereads reconfigures and reassesses historical data in order to arrive at a new understanding of Buddhism and the social matrix within which it developed and flourished Bringing together archaeological epigraphic art historical literary as well as ethnographic data this volume will be of interest to researchers and scholars of Buddhism gender studies ancient Indian history religion and South Asian studies **Sacred Serpent** A.J. Carmichael, This book frequently returns to the theme of duality particularly in relation to the serpent and the sun In addition to signifying danger dishonesty and death the serpent also symbolizes rebirth transformation and healing In a similar vein the sun represents both harshness and destruction in addition to life energy and growth The investigation of this duality implies that knowledge of these two facets is necessary to comprehend both the natural world and the human predicament The distinction between mythology and historical truth is becoming increasingly hazy demonstrating how actual occurrences and cultures have shaped myths and legends and how those have in turn influenced them It is argued that myths are more than just fantastic stories rather they have deep roots in societal advancements and human experiences This emphasizes how crucial mythology is to how we perceive the world and ourselves The book explores the symbolic meanings of the sun and serpent in psychology Based on Carl Jung s theories of archetypes and the collective unconscious it clarifies why these symbols are so universally recognizable and appealing The symbols are believed to resonate with deeply ingrained psychological concepts and experiences that everyone shares making them useful tools for reflection and understanding of behavior in others Numerous studies conducted in a range of cultural contexts highlight the idea that human belief systems are both universal and diverse The book provides examples of how various societies have integrated and understood the symbols of the sun and the serpent in ways that are particular to their own historical settings and cultural norms This demonstrates the diversity of human

expression in culture and the interdependence of human societies
