immediately cover all short and long vowel sounds together which is very confusing for first time readers Through my research I have found that it is very important to introduce the vowel sounds one at a time Since there are so many first time reading books that blend too many words with too many vowel sounds together this can be frustrating for children and sometimes makes them want to shut down and give up Therefore I created these books so that children can build their confidence when reading Each book focuses on a particular vowel sound and starts out with simple words for success This book focuses on the long vowel U sound First practice the focus words with your child that are in each book Next each book is meant to be read by the parent to the child then together and eventually let the child try on their own When reading the books point to each word and each sound as you read it Then work on blending the sounds as you point to each sound with the child Continue practicing the focus words in each book and reading to and with your child Since each book focuses on one vowel sound it helps them to succeed in building their reading skills by working on one book and therefore one vowel sound at a time As your child builds confidence in one book they can move to the next Happy reading **Targeted**
