Looking For Eagles Reflections Of A Classical Naturalist:

Looking for Eagles Janet Lembke, 1990 A collection of nature essays The author finds that much of what fascinates her in nature has classical origins from the rich mythic roots of otherwise dusty scientific nomenclature to a revival of the classical view of the natural world in which humankind is but one part of a marvelously diversified whole Reflections and New Perspectives on Virgil's Georgics Nicholas Freer, Bobby Xinyue, 2019-02-21 Virgil's Georgics the most neglected of the poet's three major works is brought to life and infused with fresh meanings in this dynamic collection of new readings The Georgics is shown to be a rich field of inherited and varied literary forms actively inviting a wide range of interpretations as well as deep reflection on its place within the tradition of didactic poetry The essays contained in this volume contributed by scholars from Australia Europe and North America offer new approaches and interpretive methods that greatly enhance our understanding of Virgil's poem In the process they unearth an array of literary and philosophical sources which exerted a rich influence on the Georgics but whose impact has hitherto been underestimated in scholarship A second goal of the volume is to examine how the Georgics with its profound meditations on humankind nature and the socio political world of its creation has been re interpreted and appropriated by readers and critics from antiquity to the modern era The volume opens up a number of exciting new research avenues for the study of the reception of the Georgics by highlighting the myriad ways in which the poem has been understood by ancient readers early modern poets explorers of the New World and female translators of the twentieth and twenty first centuries **Hecuba** Euripides, 1991 A translation of Euripides play Hecuba in which Hecuba grieves over the loss of a daughter and takes revenge for her fallen son *The Publishers Weekly*, 1926

Whitaker's Book List, 1991 **Bird Watcher's Digest**, 1990 Arion, 1992 Carolina Comments, 2001

Despicable Species Janet Lembke, 2001 In fourteen glorious essays Despicable Species ponders some of the most loathsome creatures on the planet But for every nasty reputation there is a silver lining which Lembke brings to our attention with dazzling bits of history science and culture Lembke describes the horse fly as a blood sucking insect with a wallop sting whose maggots exude chemicals that aid in healing human tissue and that famous infant abandoner the cow bird She also writes about the hornworm the opossum and the deadly microbe *Pfiesteria piscicida* And finally she reveals our very own despicable species *Homo sapiens* **The North Carolina Historical Review**, 1992
