Loubli De Lhomme Et Lhonneur Des Dieux:

Handbook on Governmentality William Walters, Martina Tazzioli, 2023-01-20 The Handbook on Governmentality discusses the development of an interdisciplinary field of research focusing on Michel Foucault's post-foundationalist concept of governmentality and the ways it has been used to write genealogies of modern states, the governance of societal problems and the governance of the self

L'oubli de l'homme et l'honneur des dieux Georges Dumézil, 1985

Decayed Gods Wouter W. Belier, 2015-09-01 In 1930 Dumézil wrote an article in which he defended the Indo-European character of the Indian varnas. In 1986 he was completing his final 25 Esquisses research proposals, the aim of which was to allow his model of the tripartite ideology of Indo-European traditions to be applied to his disciples. According to this model, Indo-European traditions were typified by a threefold division into functions of society, the world of the gods, and the heroic traditions. These were the functions of sovereignty, power, and fertility. This theoretical model was elaborated by Dumézil in a large number of books and articles. Between 1930 and 1986 he broadened enormously the amount of data on which his model was based. To do so he had regularly to adapt and reformulate his model. This was not without consequences for the material which he had interpreted earlier on. In this study a detailed description is given of this process of reformulation and reinterpretation, and the conclusion is that the totality of the various models does not, despite its aesthetic attraction, satisfy the criteria which should be set for scientific models

Theorizing Myth Bruce Lincoln, 1999 In *Theorizing Myth* Bruce Lincoln traces the way scholars and others have used the category of myth to fetishize or deride certain kinds of stories, usually those told by others. He begins by showing that mythos yielded to logos not as part of a mythic Greek miracle but as part of struggles over political, linguistic, and epistemological authority occasioned by expanded use of writing and the practice of Athenian democracy. Lincoln then turns his attention to the period when myth was recuperated as a privileged type of narrative, a process he locates in the political and cultural ferment of the eighteenth and nineteenth centuries. Here he connects renewed enthusiasm for myth to the nexus of Romanticism, nationalism, and Aryan triumphalism, particularly the quest for a language and set of stories on which nation-states could be founded. In the final section of this wide-ranging book Lincoln advocates a fresh approach to the study of myth, providing varied case studies to support his view of myth and scholarship on myth as ideology in narrative form

The Indo-Europeans Jean-Paul Demoule, 2023 The existence of an Indo-European linguistic family, allowing for the fact that several languages widely dispersed across Eurasia share numerous traits, has been demonstrated for several centuries now. But the underlying factors for this shared heritage have been fiercely debated by linguists, historians, archaeologists, and anthropologists. The leading theory of which countless variations exist argues that this similarity is best explained by the existence at one given point in time and space of a common language and corresponding population. This ancient prehistoric population would then have diffused across Eurasia, eventually leading to the variation observed in historical and modern times. *The Indo-Europeans: Archaeology, Language, Race, and the Search for the Origins of*

the West argues that despite its acceptance and use by most researchers from different disciplines such a model is inherently flawed This book describes how beginning in the late eighteenth century Europeans began a quest for a supposed original homeland from which a small conquering people would one day spread out bringing their language to Europe and parts of Asia India Iran Afghanistan This quest was often closely tied to ideological preoccupations and it was in its name that the Nazi leadership claiming for the Germans the status of the purest Indo Europeans or Aryans waged genocide The last part of the book summarizes the current state of knowledge and current hypotheses in the fields of linguistics archaeology comparative mythology and genetics The culmination of three decades of research this book offers a sweeping survey of the historiography of the Indo European debate and poses a devastating challenge to the Indo European origin story at its roots

Apples and Oranges Bruce Lincoln, 2018-08-22 Comparison is an indispensable intellectual operation that plays a crucial role in the formation of knowledge Yet comparison often leads us to forego attention to nuance detail and context perhaps leaving us bereft of an ethical obligation to take things correspondingly as they are Examining the practice of comparison across the study of history language religion and culture distinguished scholar of religion Bruce Lincoln argues in Apples and

Oranges for a comparatism of a more modest sort Lincoln presents critiques of recent attempts at grand comparison and enlists numerous theoretical examples of how a more modest cautious and discriminating form of comparison might work and what it can accomplish He does this through studies of shamans werewolves human sacrifices apocalyptic prophecies sacred kings and surveys of materials as diverse and wide ranging as Beowulf Herodotus s account of the Scythians the Native American Ghost Dance and the Spanish Civil War Ultimately Lincoln argues that concentrating one s focus on a relatively small number of items that the researcher can compare closely offering equal attention to relations of similarity and difference not only grants dignity to all parties considered it yields more reliable and more interesting if less grandiose results Giving equal attention to the social historical and political contexts and subtexts of religious and literary texts also allows scholars not just to assess their content but also to understand the forces problems and circumstances that motivated and shaped them

Europe and Empire Massimo Cacciari,2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years yet Europe seems to be in perpetual crisis about its global role The many European empires are now reduced to a multiplicity of ethnicities traditions and civilizations Europe will never be One but to survive as a union it will have to become a federation of islands both distinct and connected Though drawing on philosophers of Europe s past Cacciari calls not to resist Europe s sunset but to embrace it Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy Though scarcely alive in today s politics the political unity of Europe is still a necessity however impossible it seems to achieve

Indo-European Sacred Space Roger D. de médiateur entre le monde terrestre et le monde céleste rien de tel ne s'est produit dans la version sunnite de l'islam moyen oriental. Tristement la conscience musulmane iconoclaste et farouchement galilaïque a suspecté dans l'Etat une structure idolâtre. Tristement elle a cherché lui de nier toute prétention à jouer le rôle de médiateur ou à prétendre refléter un ordre autre que l'ordre mondain.

Dion de Pruse: l'homme, son oeuvre et sa postérité Eugenio Amato, 2016-12-01. L'oeuvre de Dion de Pruse transmise jusqu'à nous manifeste une diversité tonnante voire dconcertante. Elle la complexité même du personnage. Dans son activité d'orateur Dion fut en effet multiple. En résulte une oeuvre inégale et hétérogène marquée par la variété des formes et des genres: sermons philosophiques, diatribes, discours de libratifs, consolations et des thèmes critiques littéraires, points de morale publique ou privée, conseils politiques, sujets philosophiques ou religieux. Or cette hétérogénéité est infiniment précieuse: en effet elle permet d'embrasser tout le champ d'activité d'un notable grec dans les premiers temps de l'empire, un notable qui se doublait d'un intellectuel. C'est donc dans sa richesse et sa diversité qu'il faut envisager l'oeuvre de Dion de Pruse. Lors du grand colloque international qui s'est tenu à Nantes en mai 2015, comme en témoignent les différentes contributions constituant cet ouvrage, qui ont tenté d'aborder sous ses aspects les plus marquants l'ensemble de la production rhétorique de cet auteur.

Dio of Prusa's work as far as it is preserved reveals an astonishing yet confusing diversity related to the complexity of that literary figure. In view of his activity as an orator Dio's work was manifold indeed. Hence he left behind an array of dissimilar and diverse works characterized by a variety of forms and genres: philosophical sermons, diatribes, deliberative discourses, consolations as well as of themes: literary criticism, essays on public or private morality, political advice, philosophical or religious topics. Such diversity is infinitely precious because it permits to encompass the broad spectrum of activities undertaken at the beginning of the Roman Empire by a Greek member of the elite and intellectual as well. Therefore at the international research conference held in Nantes in May 2015 the studies on Dio of Prusa's work were aimed at exploring its richness and diversity as evidenced by the various contributions of this volume whose purpose was to examine by focusing on its most notable aspects Dio's whole literary production.
