Politics, Identity, and Mobility in Travel Writing Miguel A. Cabañas, Jeanne Dubino, Veronica Salles-Reese, Gary Totten, 2015-06-26 This collection examines the intersections between the personal and the political in travel writing and the dialectic between mobility and stasis through an analysis of specific cases across geographical and historical boundaries The authors explore the various ways in which travel texts represent actual political conditions and thus engage in discussions about national transnational and global citizenship how they propose real world political interventions in the places where the traveler goes what tone they take toward political or socio political violence and how they intersect with political debates Travel writing can be viewed as political in a purely instrumental sense but as this volume also demonstrates travel writing's reception and ideological interventions also transform personal and cultural realities This book thus examines the ways in which politics material effects inform and intersect with personal experience in travel texts and engage with travel's dialectic of mobility and stasis In spite of globalization and efforts to eradicate the colonial vision in travel writing and in travel writing criticism this vision persists in various and complex ways While the travelogue can be a space of discursive and direct oppression these essays suggest that the travelogue is also a narrative space in which the traveler employs the genre to assert authority over his or her experiences of mobility This book will be an important contribution for interdisciplinary scholars with interests in travel writing studies global and transnational studies women's studies multicultural studies the social sciences and history

Kafarowski,2022-05-10 Jackie Ronne reclaims her rightful place in polar history as the first American woman in Antarctica Jackie was an ordinary American woman whose life changed after a blind date with rugged Antarctic explorer Finn Ronne After marrying they began planning the 1946 1948 Ronne Antarctic Research Expedition Her participation was not welcomed by the expedition team of red blooded males eager to prove themselves in the frozen hostile environment of Antarctica On March 12 1947 Jackie Ronne became the first American woman in Antarctica and months later one of the first women to overwinter there The Ronne Antarctic Research Expedition secured its place in Antarctic history but its scientific contributions have been overshadowed by conflicts and the dangerous accidents that occurred Jackie dedicated her life to Antarctica she promoted the achievements of the expedition and was a pioneer in polar tourism and an early supporter of the Antarctic Treaty In doing so she helped shape the narrative of twentieth century Antarctic exploration *Myths, Symbols and Legends of Solar System Bodies* Rachel Alexander,2014-11-04 This book is an amateur astronomer s guide to the mythology and symbolism associated with the celestial bodies in the Solar System and even includes some of the legendary

tales of people who had or have a connection with these objects It explores different cultures for example the Greco Roman and the Norse and different times and how stories were used to explain the worlds they saw above them You d be amazed how much of our world today reflects the myths and stories of these cultures Most amateur astronomers are familiar with the various Solar System objects but they will be only peripherally aware of what ancient cultures thought of these other worlds In fact the mythology of the planets challenges many twenty first century concepts and beliefs There are other books available on astromythology but this one focuses mostly on our own Solar System as opposed to the constellations and deep sky objects Alexander offers a new angle on timeless subjects and is exciting informative and dramatic as well as surprisingly relevant to everyday life Find out for yourself how our modern world is steeped in the bygone worlds of yesteryear
