Parasocial Romantic Relationships Riva Tukachinsky Forster, 2021-05-05 Parasocial Romantic Relationships Falling in Love with Media Figures explores how why and to what effect individuals develop romantic feelings toward people they know from the media These imaginary one-sided relationships dubbed parasocial romantic relationships are both profound and pervasive Riva Tukachinsky Forster argues These relationships can take many forms including adolescents who develop celebrity crushes on popular music artist anime enthusiasts who marry their favorite characters and fanfiction authors who insert themselves into narratives as romantic interests of the protagonist Through analysis of surveys in depth interviews and historical examples this book advances our understanding of parasocial romantic relationships on both a sociocultural and a psychological level The data and theories analyzed offer insights into how individuals can become romantically engaged with people they do not actually know some of whom may not even exist in reality Ultimately Tukachinsky Forster argues that although these relationships exist only in the mind of consumers they serve important psychological functions across different stages of life and can lead to significant consequences for individuals nonmediated relationships Scholars of media studies communication psychology and sociology will find this book particularly useful

Love Wars Mary Irwin, 2025-02-06 This is the first dedicated overview of the international television romantic comedy genre Mary Irwin builds on the critical work on cinematic romantic comedy to offer a dedicated critical analysis of the romantic comedy on the small screen Drawing on series from the 1960s to the present day

Irwin presents five themed chapters around the theme of romantic love from searching for it and finding it to the love wars of the book's title to finding love later in life and in places you didn't expect. Chapters explore the genre's key recurrent themes: evolving attitudes to love, relationships, sex, class and money, feminism and post feminism, changes in the nuclear family, dramatised through contrasting romantic relationships and shifting discourses of masculinity, situating them within the specific socio-historic and cultural context in which the series are set. Throughout Irwin underscores the centrality of women, their friendships and their personal and professional lives and experiences to the television romantic comedy genre, demonstrating that it is the prominence of female characters and their interests and concerns which have most significantly affected the genre's thematic focus. Crucially, this thematic approach allows for explorations both of similarities in representations to be found in series decades apart and the way in which such representations ebb and flow across time. Additionally, the international nature of the comedies selected also makes possible comparison beyond national boundaries.

Romance Fiction Kristin Ramsdell, 2012-03-02 A comprehensive guide that defines the literature and outlines the best selling genre of all time: romance fiction. More than 2,000 romances are published annually, making it difficult for fans and librarians who advise them to keep pace with new titles, emerging authors and constant evolution of this dynamic genre. Fortunately, romance expert and librarian Kristin Ramsdell provides a definitive guide to this fiction genre that serves as an indispensable resource for those interested in it, including fans searching for reading material as well as for library staff, scholars and romance writers themselves. This title updates the last edition of *Romance Fiction: A Guide to the Genre*, published in 1999. While the emphasis is on newer titles, many of the important older classics are retained, keeping the focus of the book on the entire genre instead of only those titles published during the last decade. Specific changes include new chapters on linked and continuing romances, a new section on Chick Lit in the Contemporary Romance chapter, an expansion of coverage on the alternative reality subset. This is THE romance genre guide to have. *De Bow's Review and Industrial Resources, Statistics, Etc.*, 1866
