Moving Beyond Church Growth Mark A. Olson, 2001-12-01 Character development for communities of faith Mark Olson believes that trying to meet unrealistic expectations for church growth along with expectations that pastors be all things to all people has resulted in low morale even burnout among clergy and dissension within congregations Olson s book argues that church growth models exemplify and exacerbate the tendencies of the modern age and Constantinian Christianity holding the church hostage to technique and marketing These assumptions set up pastors and churches for disappointment and failure But they also in his opinion miss an opportunity to envision a faithful alternative to the consumeristic church Olson s valuable book calls church leaders to faithful bold and courageous rethinking of congregational life and witness in substance purpose and style His own 20 years of ministry in rural suburban and urban congregations inform an alternative rooted deeply in the past and anchored in strong leadership and worship but also profoundly compassionate and engaged in the surrounding community In this model pastors primary responsibilities are not to fix everything and everybody but to enable people to be present to each

Impasse S. Wesley Ariarajah, 2018-10-01 Interfaith dialogue in a plural world This volume is based on the belief that both the ecumenical and interfaith movements are looking for new orientations for their future The forces of globalization communications revolution and massive population movements challenge some of the theological assumptions and presuppositions on which they were built The entry of deep and divisive religious sentiments into the public space and the rise of militant forms of religious expression call on the interfaith movement to move beyond traditional forms of dialogue the challenge is to enter into a deeper engagement on the purpose and role of religious traditions in society The impasse facing these movements can only be overcome by new orientations as they look to the future This volume is not specifically on this problem However the collection of essays included in this volume although first given as lectures or written as articles traces past developments identifies the challenges these movements face today and suggests fresh theological moves to regain the initiatives to bring human communities closer together

Moving beyond Theoria toward Theosis Justin A. Davis, 2024-06-10 Moving Beyond Theoria Towards Theosis focuses on the telos of man as understood in Plato's theoria envisioned in the allegory of the cave and early Christian reinterpretation of theoria as theosis In his famed allegory of the cave Plato maintains that real life exists beyond our base perceptions of reality and is found in the realm of ideas Theoria is eternal rest in this realm and is understood as the telos of mankind Plato's theoria underwent change as it was reinterpreted under middle Platonic and neo Platonic thought These systems incorporated a more mature idea of the divine than Plato but still minimized the material world This book explores how early Christianity inherited Plato's cosmology and terminology Theoria was also reinterpreted within the Christian context Eventually the term was abandoned for theosis Theosis is beyond theoria as it includes contemplation of the forms as well as union with the source of the forms and the affirmation of the material realm In this volume Justin A Davis shows how the Orthodox use of icons can be key to understanding theosis The icon is a material object that connects to a higher reality and ultimately toward union with the divine Plato's cosmology is collapsed and transfigured in union with the uncreated energy of God Icons are the depiction of spiritual ascesis and the new telos of man theosis

Moving Beyond Symbol and Myth Anne Moore, 2009 For hundreds of years scholars have debated the meaning of Jesus' central theological term the kingdom of God Most of the argument has focused on its assumed eschatological connotations and Jesus' adherence or deviation from these ideas Within the North American context the debate is dominated by the work of Norman Perrin whose classification of the kingdom of God as a myth evoking symbol remains one of the fundamental assumptions of scholarship According to Perrin Jesus' understanding of the kingdom of God is founded upon the myth of God acting as king on behalf of Israel as described in the Hebrew Bible Moving Beyond Symbol and Myth challenges Perrin's classification and advocates the reclassification of the kingdom of God as metaphor Drawing upon insights from the cognitive theory of metaphor this study examines all the occurrences of the God is king metaphor within the literary context of the Hebrew Bible Based on this review it is proposed that the God is king metaphor functions as a true metaphor with a range of expressions and meanings It is employed within a variety of texts and conveys images of God as the covenantal sovereign of Israel God as the eternal suzerain of the world and God as the king of the disadvantaged The interaction of the semantic fields of divinity and human kingship evoke a range of metaphoric expressions that are utilized throughout the history of the Hebrew Bible in response to differing socio historical contexts and within a range of rhetorical strategies It is this diversity inherent in the God is king metaphor that is the foundation for the diversified expressions of the kingdom of God associated with the historical Jesus and early Christianity
