James, 1937 Ritual and Christian Beginnings Risto Uro, 2016-04-29 The rise of early Christianity has been examined from a myriad of perspectives but until recently ritual has been a neglected topic *Ritual and Christian Beginnings* A Socio Cognitive Analysis argues that ritual theory is indispensable for the study of Christian beginnings It also makes a strong case for the application of theories and insights from the Cognitive Science of Religion a field that has established itself as a vigorous movement in Religious Studies over the past two decades Risto Uro develops a socio cognitive approach to the study of early Christian rituals seeking to integrate a social level analysis with findings from the cognitive and evolutionary sciences *Ritual and Christian Beginnings* provides an overview of how ritual has been approached in previous scholarship including reasons for its neglect and introduces the reader to the emerging fields of Ritual Studies and the Cognitive Science of Religion In particular it explores the ways in which cognitive theories of ritual can shed new light on issues discussed by early Christian scholars and opens up new questions and avenues for further research The socio cognitive approach to ritual is applied to a number of test cases including John the Baptist the ritual healing practiced by Jesus and the early Christians the social life of Pauline Christianity and the development of early Christian baptismal practices The analysis creates building blocks for a new account of Christian beginnings highlighting the role of ritual innovation cooperative signalling and the importance of bodily actions for the generation and transmission of religious knowledge **Myth and the Christian**

**Nation** Burton L. Mack, 2014-12-18 America is widely regarded as the ultimate Christian Nation Religious language has always been at the forefront of American politics but this has increased since the events of 9 11 *Myth and the Christian Nation* presents a startling analysis of how and why Christianity and national identity have been woven together in recent

American political discourse Drawing on examples of religious myth making across the ancient world *Myth and the Christian Nation* brings the weight of history to bear on America today a place where myth monotheism sovereignty and power can be harnessed together in the service of specific interests The book invites readers to rethink the role of religion in the construction of social democracy and to see America afresh *Myth and Ritual in Christianity* Alan Wilson Watts,1959

**Myth and Ritual in Christianity** ,1959\* The Gnostics David Brakke,2012-09-03 Who were the Gnostics And how did the Gnostic movement influence the development of Christianity in antiquity Is it true that the Church rejected Gnosticism This book offers an illuminating discussion of recent scholarly debates over the concept of Gnosticism and the nature of early Christian diversity Acknowledging that the category Gnosticism is flawed and must be reformed David Brakke argues for a more careful approach to gathering evidence for the ancient Christian movement known as the Gnostic school of thought He shows how Gnostic myth and ritual addressed basic human concerns about alienation and meaning offered a message of salvation in Jesus and provided a way for people to regain knowledge of God the ultimate source of their being Rather than depicting the Gnostics as heretics or as the losers in the fight to define Christianity Brakke argues that the Gnostics participated in an ongoing reinvention of Christianity in which other Christians not only rejected their ideas but also adapted and transformed them This book will challenge scholars to think in new ways but it also provides an accessible introduction to the Gnostics and their fellow early Christians Christian Mentality Burton L. Mack,2014-09-11

The Christian myth is entangled with American politics with the nation's image of its own manifest destiny *Christian Mentality* analyses the myths that have shaped America's collective mentality Concepts that are taken for granted in the formation of American policy namely power violence and fear are examined The book argues that America must find an image for itself which more truly reflects its reality as a polycultural nation still struggling for social democracy *Christian Mentality* will be invaluable to students and scholars interested in the impact of religion on political thought **Gnostic Truth and Christian Heresy** A.

H. B. Logan,1996-01-01 **Alfred Loisy and the Making of History of Religions** Annelies Lannoy,2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and

the way they controlled the theoretical and institutional frameworks for studying the history of religions *Man and His Salvation* Samuel George Frederick Brandon, 1973 **The First Christian Communities, 32 - 380 CE** Joyce E.

Salisbury, 2023-11-24 This concise history of how the Christian Church grew between 32 and 380 focuses on the anonymous Christians who formed diverse congregations as they guided their communities through the age of the Apostles violent martyrdoms and to the establishment of the Roman Church Readers will understand why people converted to Christianity in the first three centuries and learn about the rich diversity of the early church as people interpreted the new religion in different ways This book explores how Christian interactions with the Roman empire led to violent persecutions and martyrdoms and eventually the fourth century establishment of the top down Roman Church Readers also become familiar with Christian texts during this period some became Scripture and some were rejected but all were written to make sense of the Jewish and Christian experience in the Roman Empire These written memories shaped the future of the church It also explores how early Christian lives were shaped by the religious rituals and preaching of their new and changing faith In addition maps illustrations and charts of Christian texts help tell this fascinating story The First Christian Communities 32 380 CE is an accessible and valuable resource suitable for students working on Christian history and Roman and Late Antique social political and religious history as well as general readers who are interested in the origins of Christianity

Philo of Alexandria and the Construction of Jewishness in Early Christian Writings Jennifer Otto, 2018-04-27 Philo of Alexandria and the Construction of Jewishness in Early Christian Writings investigates portrayals of the first century philosopher and exegete Philo of Alexandria in the writings of Clement of Alexandria Origen and Eusebius It argues that early Christian invocations of Philo are best understood not as attempts simply to claim an illustrious Jew for the Christian fold but as examples of ongoing efforts to define the continuities and distinctive features of Christian beliefs and practices in relation to those of the Jews This study takes as its starting point the curious fact that none of the first three Christians to mention Philo refer to him unambiguously as a Jew Clement the first in the Christian tradition to openly cite Philo's works refers to him twice as a Pythagorean Origen who mentions Philo by name only three times makes far more frequent reference to him in the guise of an anonymous one who came before us Eusebius who invokes Philo on many more occasions than does Clement or Origen most often refers to Philo as a Hebrew These epithets construct Philo as an alternative near other to both Christians and Jews through whom ideas and practices may be imported to the former from the latter all the while establishing boundaries between the Christian and Jewish ways of life The portraits of Philo offered by each author reveal ongoing processes of difference making and difference effacing that constituted not only the construction of the Jewish other but also the Christian self Philo's Influence on Valentinian Tradition Risto Auvinen, 2024-07-05 In this book Risto Auvinen reevaluates the relationship between the exegetical and philosophical traditions found in the works of Philo and those of the Valentinian gnostic tradition with a particular focus on the latter half of the second century Valentinianism's formative years

Texts examined include fragments of Valentinus Heracleon and Ptolemy's Letter to Flora in addition to the Valentinian source included in the *Excerpta ex Theodoto* by Clement of Alexandria and related sections in Irenaeus's *Adversus haereses*. Auvinen asserts that the number of parallels with Philo in the Valentinian sources increases the likelihood that there was a historical relationship between Philo's writings and Valentinian teachers. These connections expand our knowledge not only of the preservation and circulation of Philo's texts in the latter part of the second century but also of the importance of the allegorical traditions of Hellenistic Judaism on Valentinus's school of thought and on Gnosticism more broadly.

**Jewish Glass and Christian Stone** Eric C. Smith, 2017-11-15 In recent years scholars have re-evaluated the parting of the ways between Judaism and Christianity reaching new understandings of the ways shared origins gave way to two distinct and sometimes inimical religious traditions. But this has been a profoundly textual task relying on the writings of rabbis, bishops, and other text-producing elites to map the terrain of the parting. This book takes up the question of the divergence of Judaism and Christianity in terms of material: the stuff made, used, and left behind by the persons that lived in and between these religions as they were developing. Considering the glass, clay, stone, paint, vellum, and papyrus of ancient Jews and Christians, this book maps the parting in new ways and argues for a greater role for material and materialism in our reconstructions of the past.

**A Guide to Early Jewish Texts and Traditions in Christian Transmission** Gabriele Boccaccini, Lorenzo DiTommaso, David Hamidovic, Michael E. Stone, 2019-10-14 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions, but its main sources have been preserved to a great degree through Christian transmission. This Guide is devoted to problems of preservation, reception, and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era. It approaches this corpus not as an artificial collection of reconstructed texts, a body of hypothetical originals, but rather from the perspective of the preserved materials examined in their religious, social, and political contexts. It also considers the other non-Christian channels of the survival of early Jewish materials, including Rabbinic, Gnostic, Manichaean, and Islamic. This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and traditions among diverse later cultures. It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity.

**Telling the Christian Story Differently** Francis Watson, Sarah Parkhouse, 2020-06-25 This volume examines the counter-narratives of the core Christian story proposed by texts from Nag Hammadi and elsewhere. A noteworthy body of highly respected scholars examine material that is sometimes difficult and often overlooked, contributing to the ongoing effort to integrate Nag Hammadi and related literature into the mainstream of New Testament and early Christian studies. By retracing the major elements of the Christian story in sequence, they are able to discuss how and why each aspect was disputed on inner-Christian grounds and to reflect on the different accounts of Christian identity underlying these disputes. Together, the essays in this book address a

central issue towards the end of the second century Irenaeus could claim that the overwhelming majority of Christians throughout the world were agreed on a version of the core Christian story which is still recognisable today Yet as Irenaeus concedes and as the Nag Hammadi texts have confirmed there were many who wished to tell the core Christian story differently Those who criticized and rejected the standard story did so not because they were adherents of another religion Gnosticism but because they were Christians who believed that the standard account was wrong at point after point Ranging from the Gospels of Judas and Mary to Galatians and Ptolemy's Letter to Flora this volume provides a fascinating analysis of how the Christian story as we know it today developed against counter readings from other early Christian traditions The Oxford Handbook of Early Christian Archaeology David K. Pettegrew, William Rodney Caraher, Thomas W. Davis, 2019 This handbook brings together work by leading scholars of the archaeology of early Christianity in the Mediterranean and surrounding regions The 34 essays to this volume ground the history culture and society of the first seven centuries of Christianity in the latest currents of archaeological method theory and research **The Cambridge Edition of Early Christian Writings: Volume 2, Practice** Ellen Muehlberger, 2017-11-23 The Cambridge Edition of Early Christian Writings provides definitive anthology of early Christian texts from c 100 to 650 CE Its six volumes reflect the cultural intellectual and linguistic diversity of early Christianity and are organized thematically on the topics of God practice Christ community reading and creation The series expands the pool of source material to include not only Greek and Latin writings but also Syriac and Coptic texts Additionally the series rejects a theologically normative view by juxtaposing texts that were important in antiquity but later deemed heretical with orthodox texts The translations are accompanied by introductions notes suggestions for further reading and scriptural indices The second volume is focused on the topic of practice including texts on education advice forming communities and instructing congregations It will be an invaluable resource for students academic researchers in early Christian studies history of Christianity theology religious studies and late antique Roman history
