The Manners and Customs of the Ancient Egyptians John Gardner Wilkinson, 1847

Man Eating Plants Jonathan Spitz, 2023-02-07 Over the past two million years humans evolved from an obscure herbivorous species living in the tropical forests of equatorial

Africa to become the world's most populous carnivorous apex predator species. In the 21st century, this fateful change in the human diet from plant to animal sourced foods is the leading cause of chronic degenerative disease, runaway climate change, and mass species extinction. *Man Eating Plants: How a Vegan Diet Can Save the World* weaves together published works by the world's leading scientists and historians to narrate how we arrived at these three interrelated crises and how we can save the world by transitioning back to our natural plant-based diet.

The Biblical Journey of Slavery Lynette

Joseph-Bani, 2010-07. This book tells the story of a family that began in ancient Mesopotamia about 5000 BCE whose descendants are scattered to several nations, some of whom reside in the Americas. The journey undertaken by descendants of this family saw them through seven major world powers where, in millions today, has survived slavery. *The Biblical Journey of Slavery* takes the reader through thousands of years to show who were this family and their current dilemma of identity in the Western world. Members of this family are referred to as Africans of the Diaspora. The text takes an overview of those who came to the West via the Atlantic Slave Trade. Decades spent in search of identity by one descendant of the family is the result of *The Biblical Journey of Slavery*. The narrative provides a source of enlightenment for millions of displaced Africans who lost their identity and illustrates the fulfillment of prophecies written over 3000 years ago. There are questions about the past that haunt members of Diaspora Africans, some of which are addressed in this journey. Diaspora Africans' frustration, bewilderment, and lack of comprehension have found many avenues of expression; one of these avenues is destructive anger against self and brother. The Bible has the answers to many questions that haunt Diaspora Africans because the Bible is a history book about African people. The prophet Moses and his wife were Black Africans; this information is found in the Bible yet is unknown to the masses. Investigation on the characters of scripture will lead to the ancient cities of Mesopotamia, Middle East, and reveal that the early Bible Patriarchs from Mesopotamia; many of their descendants are found in remote villages of African nations and linked to Africans of the Western Diaspora. What is learned from this book is the result of many years of research and brings together information from various sources to answer puzzling questions in one concise volume. It represents a foundational guide to those who have been confused about the current dilemma of identity that the African Diaspora finds itself in today, either as observers or as members.

Copper in Ancient Egypt Martin Odler, 2023-04-03

The first comprehensive and up-to-date overview of what we know about the use of copper by the ancient Egyptians and Nubians from the Predynastic through the Early Dynastic until the end of the Second Intermediate Period c. 4000-1600 BC. The monograph presents a story based on the analysis of available evidence: a synchronic and diachronic reconstruction of the development and changes of the chaîne opératoire of copper and copper alloy artefacts. The book argues that Egypt was not isolated from the rest of the ancient world and that popular notions of its primitive technology are not based on facts.
