with the Soviet Union following World War I **The Oxford Handbook of European History, 1914-1945** Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history. Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards, the era was dominated by political violence and chronic instability. Its symbols were Verdun, Guernica, and Auschwitz. By the end of this dark period, tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized. If the nineteenth century gave Europeans cause to regard the future with a sense of optimism, the early twentieth century had them anticipating the destruction of civilization. The fact that so many revolutions, regime changes, dictatorships, mass killings, and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis. The Oxford Handbook of European History, 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective. It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional, continental, and global developments. Readers will find innovative and stimulating chapters on various political, social, and economic subjects by some of the leading scholars working on modern European history today **East European Accessions Index**, 1960 **Central European Crossroads** Pieter C. van Duin, 2009-05-01 During the four decades of the communist regime in Czechoslovakia, a vast literature on working class movements has been produced, but it has hardly any value for today's scholarship. This remarkable study reopens the field. Based on Czech, Slovak, German, and other sources, it focuses on the history of the multi-ethnic social democratic labor movement in Slovakia's capital Bratislava during the period 1867-1921 and on the process of national revolution during the years 1918-19, in particular. The study places the historic change of the former Pressburg into the modern Bratislava in the broader context of the development of multinational pre-1918 Hungary, the evolution of social, ethnic, and political relations in multi-ethnic Pressburg, a tri-national city of Germans, Magyars, and Slovaks, and the development of the multinational labor movement in Hungary and the Habsburg Empire as a whole **Russia** Yegor Gaidar, 2012-11-02 An important Russian economist and politician takes a long view of economic history and Russia's development. It is not so easy to take the long view of socioeconomic history when you are participating in a revolution. For that reason, Russian economist Yegor Gaidar put aside an early version of this work to take up a series of government positions as Minister of Finance and as Boris Yeltsin's acting Prime Minister in the early 1990s. In government, Gaidar shepherded Russia through its transition to a market economy after years of socialism. Once out of government, Gaidar turned again to his consideration of Russia's economic history and long-term economic and political challenges. This book, revised and updated shortly before his death in 2009, is the result. Gaidar's account of long-term socioeconomic trends puts his country in historical context and outlines problems faced by Russia and other developing economies that more developed countries have already encountered: aging population, migration, evolution of the system of social protection, changes in the armed forces, and balancing stability and

flexibility in democratic institutions This is not a memoir but Gaidar points out neither is it written from the position of a man who spent his entire life in a research institute Gaidar s long view is inevitably informed and enriched by his experience in government at a watershed moment in history *Transdex Index* ,1992 An index to translations issued by the United States Joint Publications Research Service JPRS **East European Accessions List** Library of Congress. Processing Department,1954 *Profit, Risk and Incentives under Socialist Economic Planning* J. Wilczynski,1973-06-18
