

The background of the image is a cosmic scene. It features a view of the Earth's horizon from space, with the blue and white clouds of the planet curving across the lower half. Above the horizon, a bright, glowing light source, possibly the sun or a distant star, is visible, creating a lens flare effect with rays of light extending across the frame. The sky is a deep, dark blue, speckled with numerous small white stars. The overall composition is dramatic and awe-inspiring, suggesting the vastness of the universe.

On The Existence And Revelance Of God

On The Existence And Revelance Of God:

On the Existence and Relevance of God Clement Dore, 2016-07-27 The main aims of this book are to establish that it is rational to believe that God exists to show how God relates to morality and to show how God is causally connected to his creation Dore defends a version of the ontological argument and refutes the atheistic argument from suffering He argues that only God can account for the overridingness of morality He also treats ethical supernaturalism as a type of ethical attitude theory showing how it is related to secular theories which base valid judgments of moral goodness and evil on pro and con attitudes He illustrates precisely how given scientific explanation theistic explanation of the empirical universe can get a foothold His method is to adopt and defend a version of theistic Berkeley like phenomenalism and in that connection a pragmatic instrumentalist interpretation of scientific theories

God and the Problem of Evil Chad Meister, James K. Dew Jr., 2017-05-16 The problem of evil has produced many responses and elicited vigorous debate In this multiview book five philosophical theologians discuss and defend different solutions to this ancient problem Phillip Cary on the classic view William Lane Craig on Molinism William Hasker on open theism Thomas J Oord on essential kenosis and Stephen Wykstra on skeptical theism

Critical Essays on Edward Schillebeeckx's Theology Cornelius C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today's world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today's world Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world In Schillebeeckx's thoroughly historical and truly immanent theology God is man's terrestrial future Christ the symbol of universal human values and the Church is identified with the world as those communities which share these universal human values Schillebeeckx is convinced that these explanations emptied of metaphysical content can help today's people understand their existence in a new relevant and meaningful way

Hunt,2019-09-27 Cornelius Van Til s Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til s approach involved a self conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one s apologetic method should be consistent with the theology revealed in the Bible so also should one s hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament **Sharing the Journey** Robert

God and Moral Law Mark C. Murphy, 2011-11-17 Does God's existence make a difference to how we explain morality Mark C Murphy critiques the two dominant theistic accounts of morality natural law theory and divine command theory and presents a novel third view He argues that we can value natural facts about humans and their good while keeping God at the centre of our moral explanations The characteristic methodology of theistic ethics is to proceed by asking whether there are features of moral norms that can be adequately explained only if we hold that such norms have some sort of theistic foundation But this methodology fruitful as it has been is one sided God and Moral Law proceeds not from the side of the moral norms so to speak but from the God side of things what sort of explanatory relationship should we expect between God and moral norms given the existence of the God of orthodox theism Mark C Murphy asks whether the conception of God in orthodox theism as an absolutely perfect being militates in favour of a particular view of the explanation of morality by appeal to theistic facts He puts this methodology to work and shows that surprisingly natural law theory and divine command theory fail to offer the sort of explanation of morality that we would expect given the existence of the God of orthodox theism Drawing on the discussion of a structurally similar problem that of the relationship between God and the laws of nature Murphy articulates his new account of the relationship between God and morality one in which facts about God and facts about nature cooperate in the explanation of moral law

Theology after the Birth of God F. Shults, 2014-08-07 Engaging recent developments within the bio cultural study of religion Shults unveils the evolved cognitive and coalitional mechanisms by which god conceptions are engendered in minds and nurtured in societies He discovers and attempts to liberate a radically atheist trajectory that has long been suppressed within the discipline of theology

Evidence and Religious Belief Kelly James Clark, Raymond J. VanArragon, 2011-07-28 A fundamental question in philosophy of religion is whether religious belief must be based on evidence in order to be properly held In recent years two prominent positions on this issue have been staked out evidentialism which claims that proper religious belief requires evidence and Reformed epistemology which claims that it does not Evidence and Religious Belief contains eleven chapters by

prominent philosophers which push the discussion in new directions The volume has three parts The first part explores the demand for evidence some chapters object to it while others seek to restate it or find space for compromise between Reformed epistemology and evidentialism The second part explores ways in which beliefs are related to evidence that is ways in which the evidence for or against religious belief that is available to a person can depend on that person's background beliefs and other circumstances The third part contains chapters that discuss actual evidence for and against religious belief Evidence for belief in God includes the so called common consent of the human race and the way that such belief makes sense of the moral life evidence against it includes profound puzzles about divine freedom which suggest that it is impossible for a being to be morally perfect

The End of the Timeless God R. T. Mullins, 2016-01-07 The claim that God is timeless has been the majority view throughout church

history However it is not obvious that divine timelessness is compatible with fundamental Christian doctrines such as creation and incarnation Theologians have long been aware of the conflict between divine timelessness and Christian doctrine and various solutions to these conflicts have been developed In contemporary thought it is widely agreed that new theories on the nature of time can further help solve these conflicts Do these solutions actually solve the conflict Can the Christian God be timeless The End of the Timeless God sets forth a thorough investigation into the Christian understanding of God and the God world relationship It argues that the Christian God cannot be timeless *The God Function: Deus Ex Grammatica* Morgan A. Brown,2017-04-10 What if Theists and Atheists are both objectively wrong What if the Agnostics have completely missed the point THE ARGUMENT FROM GRAMMAR explores the omnipotent and omniscient God that is justified by reason in philosophy and religion Brown demonstrates that we can justify this denotation in grammatical terms by recognizing in Subjects predicate a universally valid Form of knowledge all knowledge and action all power Brown then proceeds to lay out an epistemological foundation for the human sciences drawing upon a philosophical tradition rooted in the thought of Protagoras Kant Schopenhauer and F A Hayek Brown turns his critique of theism back upon the atheists in order to show how grammatical theory can also answer arguments against the God Thesis If THE ARGUMENT FROM GRAMMAR can answer the objections of the Atheists while satisfying the Theists then the future of the debate over the existence of a rationally justified God shall be a debate over grammar and nothing more *Proof of Allah* Ender Tosun,2022-09-28 This book explains in detail the proof of Allah in accordance with the teaching of the Quran through the use of many syllogisms It uses a unitary reason and evidence based method **Jesus Christ, Hermeneutics, and Scripture** Hans Burger,2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God s world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the necessity of a holistic approach of life knowledge understanding and renewal The Spiritual Significance; Or, Death as an Event in Life Lilian Whiting,1900
