On The Frontier Frontiers:

Frontiers of the Roman Empire: The African Frontiers David J. Breeze, Sonja Jilek, David Mattingly, Alan Rushworth, Martin Sterry, Victoria Leitch, 2013-12-23 The Roman military remains in North Africa are remarkable in their variety and preservation They include towers and forts stretches of defensive lines of stone and earth with ditches broken by gates and roads sitting amidst amazing scenery Readers of this book will enjoy learning more about North Africa's remarkable Roman inheritance

Medieval Frontiers: Concepts and Practices David Abulafia, Nora Berend, 2017-03-02 In recent years the medieval frontier has been the subject of extensive research But the term has been understood in many different ways political boundaries fuzzy lines across which trade religions and ideas cross attitudes to other peoples and their customs This book draws attention to the differences between the medieval and modern understanding of frontiers questioning the traditional use of the concepts of frontier and frontier society It contributes to the understanding of physical boundaries as well as metaphorical and ideological frontiers thus providing a background to present day issues of political and cultural delimitation In a major introduction David Abulafia analyses these various ambiguous meanings of the term frontier in political cultural and religious settings The articles that follow span Europe from the Baltic to Iberia from the Canary Islands to central Europe Byzantium and the Crusader states The authors ask what was perceived as a frontier during the Middle Ages What was not seen as a frontier despite the usage in modern scholarship The articles focus on a number of themes to elucidate these two main questions One is medieval ideology This includes the analysis of medieval formulations of what frontiers should be and how rulers had a duty to defend and or extend the frontiers how frontiers were defined often in a different way in rhetorical ideological formulations than in practice and how in certain areas frontier ideologies were created The other main topic is the emergence of frontiers how medieval people created frontiers to delimit areas how they understood and described frontiers The third theme is that of encounters and a questioning of medieval attitudes to such encounters To what extent did medieval observers see a frontier between themselves and other groups and how does real interaction compare with ideological or narrative formulations of such interaction

Wörterbuch der Handels-, Finanz- und Rechtssprache /

Dictionary of Commerical, Financial and Legal Terms / Dictionnaire des Termes Commerciaux, Financiers et Juridiques HERBST,2012-12-06 Die Arbeit an den drei Banden dieses Wörterbuches wurde 1932 in London begonnen und ist in ständiger Fortsetzung auf denjetzt vorliegenden Stand gebracht worden In seinem Aufbau und in der besonderen An

ordnung des Stoffes erstrebt das Werk einem doppelten Zweck zu dienen Besonders leichtes und schnelles Auffinden eines Stichwortes in möglichst vielen fertig vorbereite ten Verbindungen und möglichst wirksamer Ausschluss von Übersetzungsfehlern besonders wenn zwischen mehrfachen Bedeutungen desselben Stichwortes gewählt werden muß 1m Verfolg dieser Ziele ist das Werk im wahrsten Sinne aus der Praxis entstanden Dementsprechend ist es auch für die Praxis als Nachschlagewerk für den Alltagsgebrauch bestimmt An seiner Schaffung haben Menschen des Berufs und Geschäftslebens mit praktischen Erfahrungen mitgewirkt Der Entwicklung der drei Sprachen folgend wurde der Text durch Aufnahme neuer Fachausdrücke und Wendungen bedeutend erweitert und auf den neuesten Stand gebracht Hierbei wurden auch die im Bereich der internationalen Organisationen insbesondere der Europäischen Gemeinschaften entwickelten und gebräuchlichen Ausdrücke und Begriffe miteinbezogen Zug Schweiz Januar 1979 **Frontières D'Empire** Patrice Brun,1993 Europa R merzeit Sozialgeschichte Alltag **At the Gate of Christendom** Nora Berend,2001-05-17 Modern life in increasingly heterogeneous societies has directed attention to patterns of interaction often using a framework of persecution and tolerance This study of the economic social legal and religious position of three minorities Jews Muslims and pagan Turkic nomads argues that different degrees of exclusion and integration characterized medieval non Christian status in the medieval Christian kingdom of Hungary between 1000 and 1300 A complex explanation of non Christian status emerges from the analysis of their economic social legal and religious positions and roles Existence on the frontier with the nomadic world led to the formulation of a frontier ideology and to anxiety about Hungary's detachment from Christendom which affected policies towards non Christians The study also succeeds in integrating central European history with the study of the medieval world while challenging such current concepts in medieval studies as frontier societies persecution and tolerance ethnicity and the other Borders and the Politics of Space in Late Medieval Italy Luca Zenobi,2023-07-02 Space matters It situates our history structures our daily lives and often determines what we can and cannot do Borders are central to this reality Tools and symbols of separation power and identity they bring people together as much as they set them apart This book explores how borders were understood made and encountered at the end of the Middle Ages and what they can tell us about the spatial fabric of society at the threshold of modernity It shows that pre modern borders were nothing like the fuzzy lines they are typically made out to be that border making was rarely a top down process and should instead be studied as an interactive endeavour and that space was shaped by communities far more than states in this period At its core Borders and the Politics of Space in Late Medieval Italy is the account of a frontier which would mark the Italian peninsula for centuries that between the territories of the Duchy of Milan and those of the Republic of Venice But it is also a study of how rulers and

subjects alike defined spaces they could call their own Luca Zenobi combines methods from several disciplines and applies them to a range of evidence from twenty different libraries and archives including theoretical treatises and pragmatic records written chronicles and cartographic visualisations private documents and official correspondence The cast of characters is equally eclectic featuring influential thinkers and pragmatic statesmen zealous factions and clumsy bureaucrats hopeless beggars and ambitious princes On the border their stories intersect and reveal their part in a shared history

Families and Frontiers Kathryn Edwards, 2021-10-01 The frontier of the Early Modern Burgundies In this book Edwards applies in reverse the American frontier concept in order to understand the local changes in family and community in a Burgundy torn in two after the death of Charles the Bold in 1477 During the late fifteenth and early sixteenth centuries residents of the eastern duchy and the western county of Burgundy were in a place and time of transition and transformation a veritable frontier While France and the Holy Roman Empire vied for political control of the region residents struggled to define their social cultural political and economic relationships to each other In the region of the Saône River valley detailed case studies and family reconstruction of specific elites from the cities of Dijon Dole and Besançon are discussed The river ironically acted as a roadway not a barrier and facilitated the fluidity of the residents relationships Thus the Burgundian frontier was marked by a tacit acceptance of permeable boundaries and the ensuing choices interchanges negotiations and flexibility inherent to the region Edwards successfully argues that a frontier develops when a previously united region is divided and offers a provocative alternative interpretation to contrast with the national historiography most frequently used by scholars This book enhances our understanding of how pre modern societies created regional identities *Frontiers -*

Law, Theory and Cases Dimitri Endrizzi, Jairo Becerra, Eduardo Andrés Perafán Del Campo, Jaime Cubides Cárdenas, Laura Cecilia Gamarra-Amaya, 2023-03-01 This book focuses on current frontier related issues such as humanitarian crises economic crises discrimination of migrants in certain countries different typologies of borders such as land maritime air space and even cyberspace borders and environmental protection of water resources at borders It addresses legal and theoretical considerations and presents empirical cases showing the manifestations of the concept in the real world and its dynamics Without claiming to exhaust the debate on frontiers especially given the breadth of the subject and the large number of viewpoints from which the phenomenon can be examined this book intends to be a helpful source of insights for academics university students and others who wish to explore the complex and multifaceted worlds that emerge particularly in a globalized society from the interaction between the various actors and scenarios that shape the reality of frontiers

Frontiers of the European Union M. Anderson, E. Bort, 2001-03-30 Based on original research this book is a unique attempt at a general assessment of EU frontiers Internal frontiers are losing some of their key functions but there are many responses to the new situation as a case study of French frontiers abundantly illustrates An examination of the EU external frontier shows that the EU is acquiring some state like features but the eastern frontier provides abundant evidence of the external frontier s complexity The authors conclude that the increasing openness of national frontiers will continue but their effective abolition whether by European integration or through globalization is improbable *Technical Manual* United States.
