On the Improvement of the Understanding Benedictus de Spinoza, 2017-04-15 On the Improvement of the Understanding by Benedictus de Spinoza On the Improvement of the Understanding Benedict de Spinoza, 2020-11-02 After experience had taught me that all the usual surroundings of social life are vain and futile seeing that none of the objects of my fears contained in themselves anything either good or bad except in so far as the mind is affected by them I finally resolved to inquire whether there might be some real good having power to communicate itself which would affect the mind singly to the exclusion of all else whether in fact there might be anything of which the discovery and attainment would enable me to enjoy continuous supreme and unending happiness I say I finally resolved for at first sight it seemed unwise willingly to lose hold on what was sure for the sake of something then uncertain I could see the benefits which are acquired through fame and riches and that I should be obliged to abandon the quest of such objects if I seriously devoted myself to the search for something different and new I perceived that if true happiness chanced to be placed in the former I should necessarily miss it while if on the other hand it were not so placed and I gave them my whole attention I should equally fail Taken from On the Improvement of the Understanding Treatise on the Emendation of the Intellect written by Benedict de Spinoza
