On The Rim Of Mexico:

On The Rim Of Mexico Ramon Eduardo Ruiz, 2018-02-19 The vast stretch of mostly arid lands and deserts that makes up the border between Mexico and the United States is not only one of the longest international boundaries in the world setting apart two entirely different countries for more than two thousand miles it is the backdrop for a seemingly endless series of major binational news stories Witness the headline grabbing attention garnered by NAFTA and the global economy the assembly plants labeled saviors of the Mexican poor the accounts applauding the capture of Mexican drug lords and the columns upon columns devoted to stories about illegal immigration Nowhere else does a poor Third World country like Mexico share a common border with a wealthy powerful neighbor del otro lado on the other side Here as one goes so goes the other On the Rim of Mexico Encounters of the Rich and Poor addresses the ties and asymmetries across the Mexico U S border from Tijuana San Diego to Matamoros Brownsville Based on author Ramon Eduardo Ruiz's extensive research travels remembrances and first hand interviews with the people on the Mexican side the book probes the history economics and customs which have shaped this region today While the author considers many timely issues the impact of drug trafficking legal and illegal immigration assembly plants and the global economy and the ecological disaster in the making the book is also an examination of the borderlands themselves what they are how they came to be and salient aspects of life in this region of the world Moreover it is an exploration of binational themes For Mexicans who live and die next door to the almighty Uncle Sam nearly everything has a binational ring even personal identity On the Rim of Mexico is a moving portrait of the people places and issues which make up border life today *Ceramics of Postclassic Cholula, Mexico* Geoffrey G. McCafferty, 2001-12-31 As the center for the religious cult of Quetzalcoatl Cholula played a prominent role in shaping events of central Mexico's Postclassic period Yet confusion over historical events in Cholula itself have limited its place in recent archaeological considerations of Mesoamerica Since ceramic sequences are the backbone of archaeological chronologies this confusion ultimately relates to problems in previous attempts to order archaeological time with ceramics This book provides an innovative new classification of Cholula ceramics based on artifact assemblages from primary depositional contexts recovered from the UA 1 excavations A detailed and well illustrated description of ceramic types is provided to construct a new classification system These types are then seriated using collections from house floors and trash middens to suggest a new sequence spanning the Tlachiualtepetl 700 1200 CE and Cholollan 1200 1550 CE periods The polychrome ceramics of Cholula have been described as among the most beautiful of Mesoamerica employing vibrant colors to represent complex religious iconography of the Mixteca Puebla stylistic tradition By defining type and subtype variations in the polychrome ceramics a foundation is created for a refined chronology as well as for recognizing intra societal variability Prehispanic Settlement Patterns in the Southern Valley of Mexico Jeffrey R. Parsons, Elizabeth Brumfiel, Mary H. Parsons, David J. Wilson, 1982-01-01 Extensive description and analysis of the archaeological settlement data collected in the late 1960s and

early 1970s in the Chalco Xochimilco Region in the Valley of Mexico Prehispanic Settlement Patterns in the Northwestern Valley of Mexico Jeffrey R. Parsons, 2008-01-01 This monograph presents data from a systematic regional archaeological survey carried out over an area of ca 600 square kilometers during May through December 1973 by the University of Michigan Museum of Anthropology Classic Period Mixtequilla, Veracruz, Mexico Barbara L. Stark, 2001 This archaeological site report presents new insights on an important but poorly studied Mesoamerican culture the Classic period of the Mexican Gulf Coast Stark discusses her excavations at several sites in the Mixtequilla region describes the deposits and artifacts encountered and provides interpretations of the sites and their significance within a wider context Her analysis of the ephemeral remains of perishable houses is innovative and contains one of the most sophisticated treatments of site formation processes yet carried out in Latin America Particularly important is the identification of some of the earliest spindle whorls in Mesoamerica leading to new views of the importance of cotton textiles in the changing economies of the Late Preclassic and Classic periods Superb artifact illustrations detailed descriptions and an ample use of data tables make this a valuable reference work Mesoamericanists will find much of interest in this book as will readers interested in tropical lowland settlement patterns household archaeology and site formation processes Fishes of the Gulf of Mexico, Volume 2 John D. McEachran, Janice D. Fechhelm, 2010-09-15 This book is the second of two volumes that cover the entire fish fauna of the Gulf of Mexico It includes the orders Scorpaeniformes Perciformes Pleuronectiformes and Tetraodontiformes Keys and descriptions are provided for the families which are arranged phylogenetically and for the species which are arranged alphabetically described including distribution and life history and distinguished from similar species All but a few species are illustrated The volume also includes a biogeographical synopsis of the fishes of the Gulf of Mexico **Manual of the Trees of North America (exclusive of Mexico)** Charles Sprague Sargent, 1922 The Last Saltmakers of Nexquipayac, Mexico Jeffrey R. Parsons, 2001-01-01 In the 1980s a few traditional saltmakers were still manufacturing several kinds of salt in the eastern Valley of Mexico This in depth study of the methodology of this dying craft includes a comparative study of pre industrial saltmaking around the world and considers the implications of this knowledge for future archaeological research Ancient Civilizations of Mexico and Central America Herbert Joseph Spinden, 1922 Mexico Pan American Union, 1911

Correspondence Analysis and West Mexico Archaeology C. Roger Nance, Jan de Leeuw, Phil C. Weigand, Kathleen Prado, 2013-12-15 Because the archaeology of West Mexico has received little attention from researchers large segments of the region's prehistoric ceramic sequences have long remained incomplete This book goes far toward filling that gap by analyzing a collection of potsherds excavated in the 1960s and housed since then though heretofore unanalyzed at UCLA The authors employ the rarely used statistical technique known as correspondence analysis to sequence the Long Glassow collection of artifacts The book explains how correspondence analysis works and how it can be applied in archaeology In addition to describing the archaeological sites in north central Jalisco where the collection comes from the authors provide

an ethnohistorical overview including information on the earliest Spanish explorers to reach the sites They sequence more than seventy ceramic types and derive a master sequence from more than ten thousand potsherds In addition to Mesoamerican archaeologists the audience will also include other archaeologists concerned with ceramic analysis or the application of statistics to archaeology *Yacatas of the Tierra Caliente, Michoacan, Mexico* George Hubbard Pepper,1916

Prehistoric Settlement Patterns in the Texcoco Region, Mexico Jeffrey R. Parsons,1971-01-01 In this volume archaeologist Jeffrey R Parsons presents research based on an extensive 1967 survey of the Texcoco Region in the Valley of Mexico The sites are organized by time period from Middle Formative to Aztec Parsons describes the sites in detail and compares them to those of the same time periods in the Teotihuacan Valley and the Valley of Mexico in general **The Cretaceous and Tertiary of Southern Texas and Northern Mexico** Emil Böse,1927 **Cenozoic Tectonics and Volcanism of Mexico** Hugo Delgado-Granados,Gerardo J. Aguirre-Díaz,Joann M. Stock,2000 *Mexico* Charles Reginald Enock,1909 **Handbook of American Indians North of Mexico: N-Z** Frederick Webb Hodge,1912 *Taxonomic Guide to the Polychaetes of the Northern Gulf of Mexico* ,1984 **American Journal of Numismatics** Frank Henry Norton,Charles Edward Anthon,William Sumner Appleton,Samuel Abbott Green,Jeremiah Colburn,William Theophilus Rogers Marvin,1899 **American Journal of Numismatics** ,1899
