*ON THE ROAD TO ARMAGEDDON* Charles E. Blair, 1986      **On the Road to Armageddon** Dick Perfect, 1993      **The Apocalypse Code** Hank Hanegraaff, 2010-09-20 Hank Hanegraaff reveals the code to Revelation Breaking the code of the book of Revelation has become an international obsession The result according to Hank Hanegraaff has been rampant misreading of Scripture bad theology and even bad politics and foreign policy Hanegraaff argues that the key to understanding the last book of the Bible is the other sixty five books of the Bible not current events or recent history and certainly not any complicated charts The Apocalypse Code offers sane answers to some very controversial questions What does it mean to take the book of Revelation and the rest of the Bible literally Who are the Antichrist and the Great Whore of Babylon and what is the real meaning of 666 How does our view of the end times change the way we think about the crisis in the Middle East Are two thirds of all Jews really headed for an apocalyptic holocaust The Apocalypse Code is a call to understand what the Bible really says about the end times and why how we understand it matters so much in today s world Provocative and passionate this fascinating book is a must read for everyone who s interested in end times controversies Lee Strobel Author *The Case for the Real Jesus* This book is a withering and unrelenting critique of the positions of apocalyptic enthusiasts Tim LaHaye Every fan of the *Left Behind* series should read this book The fog will clear and common sense will return to our reading of the Bible Gary M Burge Professor of New Testament Wheaton College and Graduate School      On the Road to Armageddon Timothy P. Weber, 2004 Examines dispensationalism the evangelical relationship with Israel and how it affects American politics regarding the Middle East      **Christianity and Rabbinic Judaism** Jonas E. Alexis, 2013 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire s self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lametrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lametrie produced *Man A Machine* and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez l inf me Rousseau of course was a disciple of Voltaire and declared that Voltaire s work inspired me The

French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross

**American Christians and Islam** Thomas S. Kidd, 2018-06-05 In the wake of the September 11 terrorist attacks many of America's Christian evangelicals have denounced Islam as a demonic and inherently violent religion provoking frustration among other Christian conservatives who wish to present a more appealing message to the world's Muslims Yet as Thomas Kidd reveals in this sobering book the conflicted views expressed by today's evangelicals have deep roots in American history Tracing Islam's role in the popular imagination of American Christians from the colonial period to today Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat while also actively seeking to convert Muslims to the Christian faith since the nation's founding He shows how accounts of Mahometan despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals' fears concerning Islam and describes the growing conservatism of American missions to Muslim lands up through the post World War II era Kidd exposes American Christians' anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America's immigrant Muslim population today and he demonstrates why Islam has become central to evangelical end times narratives Pointing to many evangelicals' unwillingness to acknowledge Islam's theological commonalities with Christianity and their continued portrayal of Islam as an evil and false religion Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world American Christians and Islam is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today

*Apocalyptic Theopolitics* Elizabeth Phillips, 2022-10-21 In this volume Elizabeth Phillips brings together scholarly essays on eschatology ethics and politics as well as a selection of sermons preached in the chapels of the University of Cambridge arising from that scholarly work These essays and sermons explore themes ranging from ethnography to Anabaptism and Christian Zionism to Afro-pessimism Drawing on a wide range of authors from Flannery O'Connor and Herbert McCabe to James Cone and M. Shawn Copeland this collection provides insight into the fields of Christian ethics and political theology as well as ethnography and homiletics Phillips challenges theologians to interdisciplinarity in their work and to keep historical and traditional sources in conversation with contemporary sources from critical and liberative perspectives She challenges Christians to engage in apocalyptic practices which name and resist the false pretenses of the political status quo And she challenges preachers to call their congregations to moral and political faithfulness opening up possibilities beyond both the squeamish evasion of politics in some preaching traditions and the didactic political partisanship of others

**The Case for Zionism** Thomas Ice, 2017-02-20 The modern state of Israel has been a nation for almost 70 years When she was formed and fought her early wars of existence most Bible-believing

Christians believed there was a real connection with what was going on in the Middle East and Bible prophecy that predicts an end time return of the Jews to their land While support for Israel remains high in most evangelical communities we are seeing the beginning of a decline especially among younger evangelicals who question whether modern Israel really relates to end time Bible prophecy The Case for Zionism attempts to bring together biblical historical and legal arguments for the legitimacy of the startup nation known as Israel as it Explains controversies such as antisemitism and Replacement Theology Details the biblical and legal rights of Modern Israel Explores the prophetic nature and future of Israel In this presentation Thomas Ice answers many of the contemporary arguments being used by both secular and religious communities to undermine what he believes is the hand of God at work in our own day *Apocalyptic Movements in Contemporary Politics* C. Aldrovandi,2014-05-27 This book explores Israeli Religious Zionism and US Christian Zionism by focusing on the Messianic and Millenarian drives at the basis of their political mobilization towards a Jewish colonization of the occupied territories [Righteous Gentiles: Religion, Identity, and Myth in John Hagee's Christians United for Israel](#) Sean Durbin,2018-10-02 In Righteous Gentiles Religion Identity and Myth in John Hagee s Christians United for Israel Sean Durbin offers a critical analysis of America s largest Pro Israel organization Christians United for Israel along with its critics and collaborators Although many observers focus Christian Zionism s influence on American foreign policy or whether or not Christian Zionism is truly religious Righteous Gentiles takes a different approach Through his creative and critical analysis of Christian Zionists rhetoric and mythmaking strategies Durbin demonstrates how they represent their identities and political activities as authentically religious At the same time Durbin examines the role that Jews and the state of Israel have as vehicles or empty signifiers through which Christian Zionist truth claims are represented as manifestly real **101**

**Answers to the Most Asked Questions about the End Times** Mark Hitchcock,2013-03-06 For many believers the subject of the End Times stirs confusion apprehension and dread No longer This user friendly manual answers 101 of the most frequently asked questions about everything from the Pre Tribulation Rapture the Antichrist and Tribulation to the Second Coming and the Millennium Prophecy expert Mark Hitchcock offers a biblically authoritative resource for understanding God s plan and a reason for peace instead of anxiety about each believer s role in it This eBook contains links to online charts for viewing and printing **Evangelicals and Israel** Stephen Spector,2009 Most observers explain evangelical Christians bedrock support for Israel as stemming from the apocalyptic belief that the Jews must return to the Holy Land as a precondition for the second coming of Christ But the real reasons argues Stephen Spector are far more complicated In *Evangelicals and Israel* Spector delves deeply into the Christian Zionist movement mining information from original interviews web sites publications news reports survey research worship services and interfaith conferences to provide a surprising look at the sources of evangelical support for Israel Israel is God s prophetic clock for many evangelicals irrefutable proof that prophecy is true and coming to pass in our lifetime But Spector goes beyond end times theology to find

a complex set of motivations behind Israel evangelical relations These include the promise of God's blessing for those who bless the Jews gratitude to Jews for establishing the foundations of Christianity remorse for the Church's past anti-Semitism fear that God will judge the nations based on how they treated the Jewish people and reliance on Israel as the West's firewall against Islamist terrorism Spector explores many Christian Zionists' hostility toward Islam but also uncovers an unexpected pragmatism and flexibility concerning Israel's possession of the entire Holy Land For evangelicals politics frequently mixes with faith Yet Spector argues that evangelical beliefs though often portrayed as unifying and rigid are in reality various and even contradictory Spector uses George W. Bush's beliefs about the Bible as a sounding board for these issues and explores the evangelical influence on his Middle East policies Evangelicals and Israel corrects much of the speculation about Bush's personal faith and about evangelicalism's impact on American Middle East relations and provides the fullest and most nuanced account to date of the motives and theology behind Christian Zionism

*THE ISRAEL LOBBY AND U. S. FOREIGN POLICY* N. Nourizadeh, 2014-02-13 This book is about politics and the close relation between Israel and US foreign policy

**Daniel's Fourth Kingdom** Melvin L. Hawkins LLC, 2021-10-28 Although there is broad consensus among Bible prophecy scholars that the times of the gentiles will continue until the return of Jesus Christ the century-old traditional interpretation holds that Daniel's fourth gentile kingdom the Roman Empire ceased to exist in AD 476 in the West at Rome and therefore must be revived politically in the beginning of the seven-year tribulation period That prevailing viewpoint is obscuring a clear understanding of the continuing existence of the fourth kingdom as well as its fulfillment in history of important prophecies related to the end times Peters forewarned about this potential interpretation problem in *The Theocratic Kingdom* 1884 Daniel's Fourth Kingdom 1 establishes that the divided Roman Empire still exists today and explains why that fact matters regarding the season of Christ's return 2 respectfully questions the traditional interpretation 3 exhorts the church to love not the temporal kingdoms of this world but instead to embrace her gospel-inspired Holy Spirit-empowered love-driven apolitical evangelical mission to share the gospel with all nations while expecting the possibly imminent pretribulation rapture and 4 invites all readers believers and skeptics alike to consider the relevance of the Bible concerning world history current events and the future

Muslim: What You Need to Know About the World's Fastest Growing Religion Hank

Hanegraaff, 2017-10-10 Is Islam a peaceful and tolerant religion How did it get started World events are making it more timely important and necessary for every Christian to understand how the world's fastest growing religion will affect them and how to stand firm in the truth of Christ Renowned Bible Answer Man Hank Hanegraaff provides an in-depth look at Islam For all the debate over Islam and its growing presence in the world one thing is often overlooked Islam is not a religion in the Western sense It's an all-encompassing worldview opposed to anything but itself While there may be millions of peaceful and tolerant Muslims many of them our neighbors Islam itself is not peaceful and tolerant Islam is the only significant religious system in the history of the human race with a structure of laws that mandate violence against the infidel The current

narrative is that to tell the truth in this regard will radicalize Muslims and worsen hostilities A common phrase you've probably heard is that Islam is not our enemy As well intentioned as this mantra may be it is a dangerous stance once someone understands Islam in full Global Islamic jihadism is exacting mass genocide on Christians in the East and multiplying terrorist attacks throughout the West Worse still Western governments academic institutions and media outlets seem bent on peddling a false narrative about what Islam truly is In Muslim you will Learn the history of Islam from the bloody career of the prophet Mohammed to the authoritarian Islamic law Examine how Islamic theology refutes the core Christian beliefs of original sin Jesus resurrection and more Discover specific Islamic teaching inciting violence to non Muslims and even governments opposing Islamic law Find solutions and encouragement for Christians to withstand this growing global threat The conflict between Islam and the West is not going to die down or fade away The Islamic doctrines upon which it is based will continue to cause conflict on an ever increasing scale With Muslim Christians can equip themselves and others to stand unwavering in the truth of Christ

**The Protestant-Jewish Conundrum** Jonathan Frankel, Ezra Mendelsohn, 2010-08-25 Volume XXIV of the distinguished annual Studies in Contemporary Jewry explores relations between Jews and Protestants in modern times Far from monolithic Protestantism has innumerable groupings within it from the loosely organized Religious Society of Friends to the conservative Evangelicals of the Bible Belt all of which hold a range of views on theology social problems and politics These views are played out in differing attitudes and relationships between Protestant churches and Jews Judaism and the state of Israel In this volume established scholars from a variety of disciplines investigate the Protestant Jewish conundrum They provide analysis of the historical framework in which Protestant ideas toward Jews and Judaism were formed from the 16th century onward Contributors also delve into diverse topics ranging from the attitudes of the Evangelical movement toward

Jews and Israel to Protestant reactions to Mel Gibson's blockbuster film *The Passion of the Christ*. They also address German Protestant behavior during and after the Nazi era and mainstream Protestant attitudes toward the Israeli Arab conflict. Taken as a whole, this compendium presents discussions and questions central to the ongoing development of Jewish Protestant relations.

**Road from Armageddon** Clabe Polk, **Israel and the United States** Robert Freedman, 2018-04-19 This unique volume intensively studies the nature and extent of US-Israeli relations from 1948 through the Bush and Obama administrations. Leading experts in the field, including Israeli and North American scholars from a variety of political perspectives, contribute original essays on the principal political, religious, ethnic, military, economic, and juridical connections between the United States and Israel. Specific topics covered in this new book include the pro-Israel lobby in the United States, the US Jewish community and its relations to Israel, evangelical Christians and Israel, military and economic ties between the United States and Israel, the threat of a nuclear Iran for both countries, and the impact of American jurisprudence on Israel. Section introductions from the editor effectively contextualize the issues and provide students with an in-depth understanding of the past, present, and future of the US-Israel relationship.

*Warping Time* Benjamin Ginsberg, Jennifer Bachner, 2023-04-11 *Warping Time* shows how narratives of the past influence what people believe about the present and future state of the world. In Benjamin Ginsberg and Jennifer Bachner's simple experiments, in which the authors measured the impact of different stories their subjects heard about the past, these history lessons moved contemporary policy preferences by an average of 16 percentage points; forecasts of the future moved contemporary policy preferences by an average of 12 percentage points; the two together moved preferences an average of 21 percentage points. And in an Orwellian twist, the authors estimate that the history lessons had an average erasure effect of 8.5 percentage points: the difference between those with long-held preferences and those who did not recall that they previously held other opinions before participating in the experiment. The fact that the past, present, and future are subject to human manipulation suggests that history is not simply the product of impersonal forces, material conditions, or past choices. Humans are the architects of history, not its captives. Political reality is tenuous. Changes in our understanding of the past or future can substantially alter perceptions of and action in the present. Finally, the manipulation of time, especially the relationship between past and future, is a powerful political tool.
