SHOULDERS  
OF GIANTS

A SHANDEAN POSTSCRIPT

ROBERT K. MERTON

WITH AN AFTERWORD BY DENIS DONOGHUE  
AND A PREFACE BY THE AUTHOR

# On The Shoulders Of Giants A Shandean Postscript The Vicennial Edition

**Rob Stones**

## **On The Shoulders Of Giants A Shandean Postscript The Vicennial Edition:**

**On the Shoulders of Giants** Robert King Merton, 1985     *The Development of Language and Language Researchers* Frank S. Kessel, 2013-12-16 First published in 1988 This is a collection of essays that were presented at or generated afterwards at a meeting on language acquisition Society Development in April 1981 a symposium on The Development of Language and Language Researchers Whatever Happened to Linguistic Theory in Boston     *The History of Science and the New Humanism* Michael Novak, 2018-01-16 In this classic work the foremost historian of science in our time George Sarton sums up his reflections on the role of science and of the humanities in our culture Voicing his opposition to the old fashioned humanists on the one hand and to the uneducated men of science and technicians on the other Sarton points out to the former that the humanities without scientific are essentially incomplete He warns the latter that without history without philosophy without arts and letters without a living religion human life on this planet would cease to be worthwhile After outlining his Faith of a Humanist in the opening section Sarton goes on to analyze The History of Science and the History of Civilization to discuss the progress of scientific thought since ancient times in East and West and to propose the solution for the educational and cultural crisis of our time in The New Humanism and in The History of Science and the Problems of Today He concludes not only that science is a source of technological development that has changed the face of the earth and has convulsed our lives for good and evil but that it nonetheless affords the best means of understanding the world its people and the multitude of their relationships Science is the conscience of mankind Included in this edition is Robert M Merton s address before the Sarton Centennial meeting of November 1984 It is a stunning tour de force in its own right providing insights into Sarton teaching and research at Harvard in the 1930s and the personal interaction between Sarton the mentor and Merton the pupil The essay supplements May Sarton s earlier Informal Portrait of George Sarton     **The Politics of Adaptation** D. Hassler-Forest, P. Nicklas, 2015-04-14 In the age of globalization digitization and media convergence traditional hierarchies between media are breaking down This book offers new approaches to understanding the politics and their underlying ideologies that are reshaping our global media landscape including questions of audience participation and transmedia storytelling     **The Words of Others** Gary Saul Morson, 2011-06-28 In this lively gambol through the history of ations and ation books Gary Saul Morson traces our enduring fascination with the words of others Ranging from the remote past to the present he explores the formation development and significance of ations while exploring the verbal museums in which they have been collected and displayed commonplace books treasuries and anthologies In his trademark clear witty and provocative style Morson invites readers to share his delight in the shortest literary genre The author defines what makes a e able as well as the unexpected differences between ation and misation He describes how ations form transform and may eventually become idioms How much of language itself is the residue of former ations Weaving in hundreds of intriguing ations common and unusual Morson explores how the words of others constitute essential elements in the

formation of a culture and of the self within that culture In so doing he provides a demonstration of that very process captured in the pages of this extraordinary new book

**Robert K. Merton** Craig Calhoun, 2010-09-07 Robert K Merton 1910 2003 was one of the most influential sociologists of the twentieth century producing clear theories and innovative research that continue to shape multiple disciplines Merton's reach can be felt in the study of social structure social psychology deviance professions organizations culture and science Yet for all his fame Merton is only partially understood He is treated by scholars as a functional analyst when in truth his contributions transcend paradigm Gathering together twelve major sociologists Craig Calhoun launches a thorough reconsideration of Merton's achievements and inspires a renewed engagement with sociological theory Merton's work addressed the challenges of integrating research and theory It connected different fields of empirical research and spoke to the importance of overcoming divisions between allegedly pure and applied sociology Merton also sought to integrate sociology with the institutional analysis of science each informing the other By bringing together different aspects of his work in one volume Calhoun illuminates the interdisciplinary and unifying dimensions of Merton's approach while also advancing the intellectual agenda of an increasingly vital area of study

**Epistemic Cultures** Karin Knorr Cetina, 1999-05-01 How does science create knowledge Epistemic cultures shaped by affinity necessity and historical coincidence determine how we know what we know In this book Karin Knorr Cetina compares two of the most important and intriguing epistemic cultures of our day those in high energy physics and molecular biology Her work highlights the diversity of these cultures of knowing and in its depiction of their differences in the meaning of the empirical the enactment of object relations and the fashioning of social relations challenges the accepted view of a unified science By many accounts contemporary Western societies are becoming knowledge societies which run on expert processes and expert systems epitomized by science and structured into all areas of social life By looking at epistemic cultures in two sample cases this book addresses pressing questions about how such expert systems and processes work what principles inform their cognitive and procedural orientations and whether their organization structures and operations can be extended to other forms of social order The first ethnographic study to systematically compare two different scientific laboratory cultures this book sharpens our focus on epistemic cultures as the basis of the knowledge society

History of Science and New George Sarton, In this classic work the foremost historian of science in our time George Sarton sums up his reflections on the role of science and of the humanities in our culture Voicing his opposition to the old fashioned humanists on the one hand and to the uneducated men

of science and technicians on the other Sarton points out to the former that the humanities without scientific are essentially incomplete He warns the latter that without history without philosophy without arts and letters without a living religion human life on this planet would cease to be worthwhile After outlining his Faith of a Humanist in the opening section Sarton goes on to analyze The History of Science and the History of Civilization to discuss the progress of scientific thought since ancient times in East and West and to propose the solution for the educational and cultural crisis of our time in The New Humanism and in The History of Science and the Problems of Today He concludes not only that science is a source of technological development that has changed the face of the earth and has convulsed our lives for good and evil but that it nonetheless affords the best means of understanding the world its people and the multitude of their relationships Science is the conscience of mankind Included in this edition is Robert M Merton s address before the Sarton Centennial meeting of November 1984 It is a stunning tour de force in its own right providing insights into Sarton teaching and research at Harvard in the 1930s and the personal interaction between Sarton the mentor and Merton the pupil The essay supplements May Sarton s earlier Informal Portrait of George Sarton

**3000 Years of Analysis** Thomas Sonar,2020-12-27 What exactly is analysis What are infinitely small or infinitely large quantities What are indivisibles and infinitesimals What are real numbers continuity the continuum differentials and integrals You ll find the answers to these and other questions in this unique book It explains in detail the origins and evolution of this important branch of mathematics which Euler dubbed the analysis of the infinite A wealth of diagrams tables color images and figures serve to illustrate the fascinating history of analysis from Antiquity to the present Further the content is presented in connection with the historical and cultural events of the respective epochs the lives of the scholars seeking knowledge and insights into the subfields of analysis they created and shaped as well as the applications in virtually every aspect of modern life that were made possible by analysis

The Virginia Quarterly Review ,1985

Puritanism and the Rise of Modern Science I. Bernard Cohen,Stuart Strickland,1990 On industrial procurement a Brit view A collection of comment upon Merton s Science technology and society in seventeenth century England Annotation copyrighted by Book News Inc Portland OR

*Émilie Du Châtelet in Relation to Leibniz and Wolff* Clara Carus,Jeffrey K. McDonough,2025-05-23 This book offers the first detailed comparison between milie Du Ch telet s philosophy and her predecessors G W Leibniz and Christian Wolff It highlights the similarities and the differences between her work and the ideas of Leibniz and Wolff The book s chapters explore a wide range of key concepts and topics including freedom love space extension certainty probability the continuum time eternity the world apart doctrine and the principle of sufficient reason The book as a whole situates Du Ch telet s thought in the context of her predecessors and highlights how Du Ch telet s understanding of her sources laid the foundations for the development of her own ideas This edition will be of crucial interest to the growing community of scholars working on Du Ch telet s thought as well as scholars of Early Modern Philosophy more generally

**Self-Organizing Systems** F.Eugene Yates,2012-12-06 Technological systems become

organized by commands from outside as when human intentions lead to the building of structures or machines But many natural systems become structured by their own internal processes these are the self organizing systems and the emergence of order within them is a complex phenomenon that intrigues scientists from all disciplines Unfortunately complexity is ill defined Global explanatory constructs such as cybernetics or general systems theory which were intended to cope with complexity produced instead a grandiosity that has now mercifully run its course and died Most of us have become wary of proposals for an integrated systems approach to complex matters yet we must come to grips with complexity somehow Now is a good time to reexamine complex systems to determine whether or not various scientific specialties can discover common principles or properties in them If they do then a fresh multidisciplinary attack on the difficulties would be a valid scientific task Believing that complexity is a proper scientific issue and that self organizing systems are the foremost example R Tomovic Z Damjanovic and I arranged a conference August 26 September 1 1979 in Dubrovnik Yugoslavia to address self organizing systems We invited 30 participants from seven countries Included were biologists geologists physicists chemists mathematicians bio physicists and control engineers Participants were asked not to bring manuscripts but rather to present positions on an assigned topic Any writing would be done after the conference when the writers could benefit from their experiences there

**Key Sociological Thinkers** Rob Stones, 2007-11-06 The second edition of this popular and established text provides a comprehensive guide to 23 of the most influential thinkers in sociology Written by leading academics in the field Key Sociological Thinkers 2e provides a clear and contextualized introduction to classical and contemporary theory Each chapter offers an insightful assessment of a different theorist exploring their lives works and legacies Drawing upon examples from the everyday world an innovative Seeing Things Differently section in every chapter demonstrates how theoretical ideas can be used to illuminate aspects of social life in new ways Included in this new edition Four new chapters looking at Theodor Adorno Michael Mann Dorothy Smith and Zygmunt Bauman Chapter updates on recent developments An important new introduction Three types of contents page to provide easy navigation of the text Useful glossary boxes throughout with their own dedicated contents page to highlight and explain complex theoretical ideas Key Sociological Thinkers 2e provides a stimulating overview of the best of sociological thought from Karl Marx Emile Durkheim and Georg Simmel to Nancy Chodorow Michel Foucault and Anthony Giddens It continues to be an essential text for all students of sociological theory

□□□□□□, 2005 *Progress* Leo Marx, Bruce Mazlish, 2025-10-01 Progress perhaps the

fundamental secular belief of modern Western society has come under heavy fire recently because after three centuries advances in science and technology seem increasingly to bring problems in their wake alienation environmental degradation the threat of nuclear destruction The idea of progress is brought into question by postmodern critique attacking the notion of science as truth Yet no other meaningful organization of humankind's sense of time looms on the horizon This volume seeks to reassess the meaning and prospects of the idea of progress Looking toward the millennium the volume seeks to evaluate the idea's worth both in theory is it intellectually viable and defensible today and practice even if theoretically defensible is the idea undermined in actual life Approaching these questions from the perspectives of science anthropology economics religion political philosophy feminism medicine environmental studies and the Third World the contributors all distinguished scholars provide a unique and critical balance Ultimately the contributors find that progress is both a fact and an illusion it does occur in certain areas but it does not sweep all before it as its Enlightenment votaries thought it would This foundational idea permeates discourse in the natural and social sciences as well as the humanities and will engage historians students of the history of science and technology sociologists political scientists philosophers literary scholars and art critics as well as those interested in civilization in general Contributors include Jill Ker Conway Zhiyuan Cui Leon Eisenberg Robert Heilbroner Gerald Holton Leo Marx Bruce Mazlish Ali A Mazrui Alan Ryan John M Staudenmaier George W Stocking Jr and Richard White A discerning reconsideration of the idea of progress in a variety of carefully defined theoretical and empirical historical contexts David Hollinger University of California Berkeley Leo Marx is Professor of American Cultural History Emeritus Massachusetts Institute of Technology Bruce Mazlish is Professor of History Massachusetts Institute of Technology

**Tourismussoziologie** Kerstin Heuwinkel, 2023-09-04 Alle Ansätze und Paradigmen im Überblick Tourismus nur durch die ökonomische Brille zu betrachten greift zu kurz Die Tourismuswirtschaft ist bedingt durch gesellschaftliche Zustände und Praktiken Schließlich agieren Besucherinnen Einheimische und touristische Dienstleisterinnen miteinander Auf dieses Beziehungsgeflecht geht Kerstin Heuwinkel ein Sie stellt tourismussoziologische Ansätze und Paradigmen vor skizziert wichtige Methoden und vermittelt die Vielzahl von soziologischen Zugängen zum Tourismus z.B. Werte und Normen Rollen Macht und Identität Soziologische Anwendungsfelder skizziert sie zudem u.a. Verantwortung im Tourismus Mobilitäten Embodiment und soziale Medien Ein Buch für Studierende der Tourismuswissenschaft Soziologie und Humangeografie
