 highly illustrated and detailed title Nic Fields tells the full story of the invasion which established the Romans in Britain  
 explaining how and why the initial Claudian invasion succeeded and what this meant for the future of Britain For the Romans  
 Britannia lay beyond the comfortable confines of the Mediterranean world around which classical civilisation had flourished  
 Britannia was felt to be at the outermost edge of the world itself lending the island an air of dangerous mystique To the  
 soldiers crossing the Oceanus Britannicus in the late summer of AD 43 the prospect of invading an island believed to be on  
 its periphery must have meant a mixture of panic and promise These men were part of a formidable army of four veteran  
 legions II Augusta VIII Hispana XIII Gemina XX Valeria which had been assembled under the overall command of Aulus  
 Plautius Silvanus Under him were significantly first rate legionary commanders including the future emperor Titus Flavius  
 Vespasianus With the auxiliary units the total invasion force probably mounted to around 40 000 men but having assembled  
 at Gessoriacum Boulogne they refused to embark Eventually the mutinous atmosphere was dispelled and the invasion fleet  
 sailed in three contingents Ninety seven years after Caius Julius Caesar the Roman army landed in south eastern Britannia  
 After a brisk summer campaign a province was established behind a frontier zone running from what is now Lyme Bay on the  
 Dorset coast to the Humber estuary Though the territory overrun during the first campaign season was undoubtedly small it  
 laid the foundations for the Roman conquest which would soon begin to sweep across Britannia **The Journal of the**
