On The Trail To The California Gold Rush:

On the Trail to the California Gold Rush Alonzo Delano, 2005-01-01 Lured by the astonishing accounts of the vast deposits of gold in California Alonzo Delano 1806-74 of Ottawa Illinois bid farewell to his wife and children and joined the rush to El Dorado For the next five months April to early September 1849 he persevered in writing his remarkably detailed diary recounting his experiences among the more than thirty thousand goldseekers representing all thirty states who struggled across half of the continent to California's gold fields With each entry the reader is drawn into the changing circumstances from a hurried trailside burial of a comrade to a defense against an Indian attack from suffering thirst in the desert to anger at a lazy campmate Unlike most diarists who at the end of the epic journey gave up their demanding task Delano continued his vivid account until the summer of 1851 He went on to report as a professional journalist ranging far and wide across the scenes of life in the diggings and the cities from prospecting along the Yuba River to witnessing lynch law in San Francisco First published in 1854 as *Life on the Plains and among the Diggings* and deemed a California Gold Rush classic this new edition will carry on the adventure for thousands of new readers [The California Gold Rush](#) Jean F. Blashfield, 2001 Describes adventures and disasters in the lives of people who rushed to the gold mines of California in 1848 and explains how this event sparked the state's development *Life As a Prospector in the California Gold Rush* Kate Shoup, 2016-07-15 People often dream of becoming rich However in the mid 1800s people really could become rich overnight The California gold rush brought many men to the area These prospectors searched for gold Some became lucky while others lost all of their life savings This book describes the history of the California gold rush and highlights what life was like for the men women and children who lived through the era [A Timeline History of the California Gold Rush](#) Stephanie Watson, 2015-08-01 In 1848 a carpenter named James Marshall discovered that there was gold in the riverbeds of the Sacramento Valley Gold fever quickly spread across the country and around the world By the thousands hopeful people left their homes families and jobs in search of their fortune The California gold rush lasted for only seven years but in that time it transformed California and affected the whole nation People used their new riches to start businesses and build cities People from many nations arrived to fill those cities And in their quest for gold the prospectors clashed with American Indians and set the stage for long lasting tensions Explore the history of the California gold rush Track the important events and turning points that made this discovery a pivotal part of the westward expansion of the United States **Spreading the Word** Richard Thomas Stillson, 2006-01-01 A study of the ways in which Americans from the east who traveled to the gold country of California in 1849-1851 obtained and used information **Golden Dreams** Frank Baumgardner, 2020-03-11 When gold was found in Northern California news of it spread like a wildfire during the spring and summer of 1848 At first most people thought the reports were too good to be true but as weeks and months flew by they heard about more people striking it rich and imaginations started to run wild Tens of thousands of people started to dream about gold and some of them left

everything they knew to make the journey to California It didn't matter if you were black white or brown anyone could go Even people in Central and South America Australia China and Western Europe heard about the gold and made the journey By 1855 hundreds of thousands of people had converged on California In this study the author shares diary entries from gold seekers painting a detailed portrait of the frenzy that overtook the world the lives of the miners and how the move West changed the fabric of a nation Without the dreams hard work and dedication of the miners who moved West the United States of America would not be what it is today

Gold Fever Steve Boggan, 2015-04-16 Gold For centuries people have been entranced by the riches it promises thousands have gone wild in their search for it and surely there will be many more After the Financial Crisis the price of gold reached peaks never seen in history All over the world particularly in the United States people with no experience of prospecting began shopping for shovels pickaxes gold pans tents generators and all manner of equipment they had no idea how to use And off they went mining In 2013 Steve Boggan decided he wanted a piece of the action flying to San Francisco to join the 21st century's gold rush in a quest to understand the allure of the metal and maybe find some for himself too Meeting a selection of colourful characters dreaming of striking it rich he gets a crash course in small scale prospecting while learning about the history and economics of gold He also takes us back in time to the original gold rush two centuries ago tracing the path of the first intrepid 49ers who trekked thousands of miles risking death for the chance of unimaginable wealth Written with Boggan's characteristic charm *Gold Fever* is a hugely entertaining travelogue and a moving insight into a key period in the creation of modern America

The California Gold Rush Mark A. Eifler, 2016-07-22 In January of 1848 James Marshall discovered gold at Sutter's Mill in the foothills of the Sierra Nevada For a year afterward news of this discovery spread outward from California and started a mass migration to the gold fields Thousands of people from the East Coast aspiring to start new lives in California financed their journey West on the assumption that they would be able to find wealth Some were successful many were not but they all permanently changed the face of the American West In this text Mark Eifler examines the experiences of the miners demonstrates how the gold
