Essays on the Real Church Dirk J. Smit,2024-08-15 The spirit of the Reformation is often expressed in the well known slogan that Reformed churches are always being reformed according to God s Word ecclesia reformata semper reformanda secundum verbum Dei Over the last century the spirit of this slogan motivated someone like Dietrich Bonhoeffer to argue that the visible form and life of the church should reflect the truth and message of the church Already in his doctoral dissertation called Sanctorum Communio the communion of the saints the young Bonhoeffer combined theological claims and traditions with social theory and analysis in this spirit in an innovative way to study the nature and integrity and witness of the church At the time this was a radical claim with major consequences and challenges for Protestant churches Their life which meant their order structure actions statements convictions public presence and role was to be measured by their gospel which meant their message proclamation convictions claims They

could no longer proclaim one truth yet live a different life It was this spirit which led to the well known Theological Declaration of Barmen in 1934 and to the formation of the Confessing Church in Nazi Germany Many called this a moment of truth a status confessionis It was this same spirit which later inspired the struggle in South Africa for the integrity and faithfulness of the church and for the credibility of its message proclamation and witness The contributions in this volume 52 papers essays sermons studies were all produced in this spirit Most of them have not been published before They were all occasional pieces written over several decades in different contexts and for different purposes and audiences yet they all breathe this self critical spirit of the Reformation considering whether the real church the concrete every day actual living church that people know and experience and perhaps belong to truly strives to embody the gospel itself the message which it claims and proclaims They all inquire under different circumstances and in diverse ways about different social forms of the real church from worship to congregation from denomination to ecumenical church from individual believers to movements and organisations whether and how they embody the truth of the church or not Together these contributions tell a story the story of this spirit in South African circles over several decades but also in the ecumenical church in our globalizing world They offer one small glimpse into different concrete moments in the story of this spirit in the life of this tradition and community of faith Hopefully some of these accounts may resonate with others who also shared the same spirit and still share it today in new and ongoing ways

legal thought is the production of legal documents based on the requirements of the community In Indonesia Islamic law grows and evolves in the form of four products of legal thought fiqh ulama fatwas court rulings jurisprudence and laws In Indonesia the four products of legal thinking serve as rules for Muslims in national state and social life **Non-racialism in South Africa** David Everatt,2017-07-05 When Nelson Mandela was elected President of South Africa in 1994 the world looked on at the miracle of racial reconciliation that unfolded in South Africa However the dream of a Rainbow Nation in Archbishop Desmond Tutu's phrase seems to be fading and racial identities seem to be more entrenched than ever What prospects then for the non-racial democracy envisioned by Mandela and the South African Constitution This book examines the status and future prospects of non-racialism It discusses the nature of non-racialism and applies the concept to wider national issues and to questions of identity The book looks out into South Africa's future and assesses generational changes to the country's handling of non-racialism This latter point is the main theme in the opening preface by Ahmed Kathrada jailed with Nelson Mandela who reminds the reader that there is no easy answer non-racialism is built every day every minute by people who seek to transform social relations and allow the Rainbow Nation to flourish This book was published as a special issue of *Politikon* **Leo Strauss and Contemporary Thought** Jeffrey A. Bernstein, Jade Larissa Schiff,2021-06-01 Leo Strauss's readings of historical figures in the philosophical tradition have been justly well explored however his relation to contemporary thinkers has not enjoyed the same coverage In *Leo Strauss and Contemporary Thought* an international group of scholars examines the possible conversations between Strauss and figures such as Walter Benjamin Jacques Derrida Michel Foucault Charles Taylor and Hans Blumenberg The contributors examine topics including religious liberty the political function of comedy law and the relation between the Ancients and the Moderns and bring Strauss into many new and original discussions that will be of use to those interested in the thought of Strauss the history of philosophy and political theory and contemporary continental thought **Constitutions and Religion** Susanna Mancini,2020-11-27 *Constitutions and Religion* is the first major reference work in the emerging field of comparative constitutional law and religion It offers a nuanced array of perspectives on various models for the treatment of religion in domestic and supranational legal orders Justice as Integrity David Fagelson,2007-06-01 Do any moral values underlie the foundations of law and society in America In *Justice as Integrity* David Fagelson argues that morality is indeed a part of the idea of law Examining controversies of speech and privacy he does not ignore the conservative communitarian streak in America but argues that liberal tolerance best fits the social meanings of American political morality While tolerance plays a critical role different social practices yield different conceptions of tolerance Judges must interpret any public text to develop coherent narratives that best explain the use of force in their jurisdiction In America Fagelson argues liberal tolerance is the sovereign principle that the Supreme Court uses as a prism when interpreting social institutions like marriage speech and even death to make them more consistent with personal autonomy **Religious Identities and the Global South** Felix

Wilfred,2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications

Faith in Politics Bryan T. McGraw,2010-06-10 No account of contemporary politics can ignore religion The liberal democratic tradition in political thought has long treated religion with some suspicion regarding it as a source of division and instability Faith in Politics shows how such arguments are unpersuasive and dependent on questionable empirical claims rather than being a serious threat to democracies legitimacy stability and freedom religion can be democratically constructive Using historical cases of important religious political movements to add empirical weight Bryan McGraw suggests that religion will remain a significant political force for the foreseeable future and that pluralist democracies would do well to welcome rather than marginalize it
