Dinosaurs are nearly synonymous with evolution in the minds of much of the world. Studying these answers will help Christian families, church leaders, scientists, and theologians develop greater faith in the infallibility of God's Word and His role as Creator. A Note from the author Bodie Hodge: I want to encourage parents and churches to be able to respond biblically to the secular attacks war on our children. So as any good General would do in times of war, we need to study our opponent and know exactly what the secular side is teaching our children. Then get equipped with solid biblical answers from our highest commanding officer, God, and His Word to defend our children against the attacks. Then teach this knowledge diligently and apologetically to the next generation like parents and churches are supposed to do. e.g. Ephesians 6:4-11, 2 Timothy 3:16-17.

The Timeline of Intelligent Life on Earth Martin K. Ettington, 2022-09-06 I m fascinated with Ancient History because there are continuous new discoveries which push back the dawn of civilization by thousands of years In the last couple of decades the discoveries at Gobekli Tepe in eastern Turkey pushed back man made structures to the time period of 9 000 11 000 B C Thousands of years before the next know civilizations existed This book includes my research on ancient sites around the world underground structures giants the destruction of civilization about 10 500 B C the real Atlantis and out of place objects which can be millions of years old With this collection of a wide variety of information I decided that what is needed is a full timeline of intelligent life on Earth from millions of years ago to the present There are a lot of gaps in this information but enough records findings and discoveries exist to propose an initial timeline of intelligent life on Earth going back hundreds of millions of years Yes I m saying intelligent life has existed on Earth that long and since humanity and even primates don t exist in those times at all aliens must have lived on the Earth at that time There are three parts to this book Part One Millions of Years Ago This includes stories of aliens existing on Earth in our history and many out of place objects made by intelligent beings and the fossil record which provides supporting evidence that intelligent life did exist at those times Part Two The Unknown Civilizations of Man Here we have evidence of structures built by man but way before any accepted records that civilization or man made constructions existed Some of these things may go back 100 000 years ago Part Three Post Ice Age Civilizations This part includes evidence that the Younger Dryas event was actually comets striking the Earth which caused major disasters and probably the destruction of civilizations about 10 500 B C My intention is that this timeline will provide a skeleton of mankind and intelligent life s early history on Earth which can be filled in overtime to become much more detailed and prove the truth of this point of view to skeptics worldwide

Children's Books in Print, 2007, 2006

A 300 Million Year Old Civilization Existed on Earth Martin K. Ettington, The thesis of this book is that there

was a civilization of intelligent beings existing on Earth over 300 million years ago I previously collected information to write two books on out of place artifacts OOPAs and a book on Giants which evidence shows lived on this Earth millions of years ago While writing my book titled The History of Intelligent Life On Earth from Millions of Years Ago Till Present and generating a timeline on ancient OOPAs found around the Earth I found an interesting pattern It turns out that a large number of these objects were from around 300 million years ago mostly in coal mines and seams All of these objects from the same time period provide good circumstantial evidence that a worldwide civilization existed at that time Given the millions of years which have elapsed since then we are lucky to find even the few OOPAs we have records of which were preserved in coal and rock In this book I put together the evidence and do my best to answer questions like What did the world look like then What were the attributes and culture of this society What types of beings were part of this civilization And other relevant questions It may be hard to believe that intelligent life existed back then but we need to be objective to follow where the evidence takes us
