On Universals An Essay In Ontology:

On Universals Nicholas Wolterstorff, 1970 On universals: an essay in ontology Chic., Univ Nicholas Wolterstorff,

On Universals (by) Nicholas Wolterstorff Nicholas Wolterstorff, 1970 **The Metaphysics of Donald C. Williams** A.R.J. Fisher, 2025-04-29 The thesis of this book is that Williams played a key role in the development and revival of analytic metaphysics This book begins with an account of Williams approach to philosophy given the rise of realism in the early twentieth century with a focus on his use of induction and parsimony to argue for metaphysical theses such as metaphysical realism and metaphysical naturalism It explains his critique of logical positivism and his defence of an empirical conception of metaphysics which in turn reveals how he took himself to be standing up to rising anti metaphysical trends This book then expounds within the framework of his empirical metaphysics his one category trope ontology and its origins arguing that his systematisation of the concept of an abstract particular or trope is his most novel contribution to analytic ontology This book further presents an original interpretation of his account of concrete objects and abstract universals engaging with current debates in the metaphysics of properties sometimes defending Williams sometimes correcting misinterpretations sometimes critically reassessing his views This book also explains his defence of the four dimensional manifold of time and his objections to competing theories such as the growing block theory and presentism incorporating recently posthumously published work in *The Elements and Patterns of Being* ed A R J Fisher 2018 with up to date references to the latest work in the metaphysics of time Lastly this book analyses Williams s influence on later philosophers such as Lewis and Armstrong and others in Australia drawing from correspondence between Williams Lewis and Armstrong and evaluates his place in the history of analytic philosophy concluding that he played a key role in the development and revival of analytic metaphysics Ontology Dale Jacquette, 2014-12-18 The philosophical study of what exists and what it means for something to exist is one of the core concerns of metaphysics This introduction to ontology provides readers with a comprehensive account of the central ideas of the subject of being This book is divided into two parts The first part explores questions of pure philosophical ontology what is meant by the concept of being why there exists something rather than nothing and why there is only one logically contingent actual world Dale Jacquette shows how logic provides the only possible answers to these fundamental problems The second part of the book examines issues of applied scientific ontology Jacquette offers a critical survey of some of the most influential traditional ontologies such as the distinction between appearance and reality and the categories of substance and transcendence The ontology of physical entities space time matter and causation is examined as well as the ontology of abstract entities such as sets numbers properties relations and propositions The special problems posed by the subjectivity of mind and of postulating a god are also explored in detail The final chapter examines the ontology of culture language and art Metaphysics and Scientific Realism Francesco Federico Calemi, 2016-01-15 David Malet Armstrong 8 July 1926 13 May 2014 has been one of the most influential contemporary metaphysicians working in the analytic tradition and surely the

greatest 20th century Australian philosopher His main merit is to have reestablished metaphysics as a respectable branch of philosophy placing it at the centre of the philosophical debate and giving it the status of an authoritative and competent interlocutor of both rational and empirical sciences By means of a rigorously argumentative approach and a sharp prose Armstrong has built a whole metaphysical system that is a comprehensive and unified picture of the fundamental structure of the world The various chapters of the book address the key issues concerning Armstrong's view about the problem of universals the nature of states of affairs the ontological ground of possibility nomic necessity and dispositions the truthmaker theory and the theory of mind This volume aims to celebrate Armstrong's memory bringing new understanding and hopefully stimulating more work on his philosophy with the conviction that it constitutes an invaluable heritage for contemporary research in metaphysics

Nominalism and Contemporary Nominalism M. Gosselin, 2012-12-06 Though the subject of this work nominalism and contemporary nominalism is philosophical it cannot be fully treated without relating it to data gathered from a great variety of domains such as biology and more especially ethology psychology linguistics and neurobiology The source of inspiration has been an academic work I wrote in order to obtain a postdoctoral degree which is called in Belgium an *Aggregaat voor het Hoger Onderwijs* comparable to a Habilitation in Germany I want to thank the National Fund of Scientific Research which accorded me several grants and thereby enabled me to write the academic work in the first place and thereafter this book I also want to thank Prof SJ Doorman Technical University of Delft and Prof G Nuchelmans University of Leiden who were members of the jury of the *Aggregaat* thesis presented to the Free University of Brussels in 1981 and who by their criticisms and suggestions encouraged me to write the present book the core of which is constituted by the general ideas then formulated I am further obliged to Mr X the referee who was asked by Jaakko Hintikka to read my work and who made a series of constructive remarks and recommendations My colleague Marc De Mey University of Ghent helped me greatly with the more formal aspects of my work and spent too much of his valuable time and energy to enable me to deliver a presentable copy All remaining shortcomings are entirely my responsibility I asked Prof

Thomas Aquinas on the Immateriality of the Human Intellect Adam Wood, 2020 The chief aims of Thomas Aquinas on the Immateriality of the Human Intellect are to provide a comprehensive interpretation of Aquinas's oft repeated claim that the human intellect is immaterial and to assess his arguments on behalf of this claim Adam Wood argues that Aquinas's claim refers primarily to the mode in which the human intellect has its act of being That the human intellect has an immaterial mode of being however crucially underwrites Aquinas's additional views that the human soul is subsistent and incorruptible To show how it does so Wood argues that the human intellect's immateriality can also be put in terms of the impossibility of explaining its operations in terms of coordination between bodily parts states and processes Aquinas's arguments for the human intellect's immateriality therefore can be understood as attempts to show why intellectual operations cannot be explained in bodily terms The book argues that not all of them succeed in this aim and also proposes

however a novel interpretation of Aquinas's argument based on human intellect's universal mode of cognition that may indeed be sound Wood concludes by considering the ramifications of Aquinas's position on matters pertaining to the afterlife Thomas Aquinas on the Immateriality of the Human Intellect represents the first book length examination of Aquinas's claim that the human intellect is immaterial and so given the centrality of this claim to his thought should interest any scholars interested in understanding Thomas While it focuses throughout on careful attention to Aquinas's texts along with the relevant secondary literature it also positions Thomas's thought alongside recent developments in metaphysics and philosophy of mind Hence it should also interest historically minded metaphysicians interested in understanding how Thomas's hylomorphism intersects with recent work inhylomorphic metaphysics philosophers of mind interested in understanding how Thomas's philosophical psychology relates to contemporary forms of dualism physicalism and emergentism and philosophers of religion interested in the possibility of the resurrection

Aquinas and the Metaphysics of Creation Gaven Kerr,2019 In this book Gaven Kerr expands on the brief treatment of creation offered in his 2015 volume Aquinas's Way to God The Proof in De Ente et Essentia Aquinas does not offer one cohesive treatment on the issue of creation Kerr synthesizes discussions from across his works in order to present a unified Thomistic metaphysics of creation Kerr argues that Aquinas's metaphysics of creation wherein God is conceived as the absolute source of all that exists is the backbone of his philosophical theology Throughout his writings the framework of the absolute dependence of creatures on God and of the independence of God as existence itself is ever present Without understanding this aspect of Aquinas's philosophical thought Kerr suggests it is impossible to understand his philosophy of God When it comes to metaphysics Thomas is committed to thinking through the issues involved therein on the basis of natural reason Aquinas and the Metaphysics of Creation demonstrates Aquinas's belief that we must arrive at an affirmation of the existence of God on the basis of a wider metaphysical view as to the constitution of reality a view that does not presuppose divine truths but can indeed establish them

The Bloomsbury Encyclopedia of Philosophers in America John R. Shook,2016-02-11 For scholars working on almost any aspect of American thought The Bloomsbury

Encyclopedia to Philosophers in America presents an indispensable reference work. Selecting over 700 figures from the Dictionary of Early American Philosophers and the Dictionary of Modern American Philosophers, this condensed edition includes key contributors to philosophical thought. From 1600 to the present day, entries cover psychology, pedagogy, sociology, anthropology, education, theology, and political science, before these disciplines came to be considered distinct from philosophy. Clear and accessible, each entry contains a short biography of the writer, an exposition and analysis of his or her doctrines and ideas, a bibliography of writings, and suggestions for further reading. Featuring a new preface by the editor and a comprehensive introduction, *The Bloomsbury Encyclopedia to Philosophers in America* includes 30 new entries on twenty-first century thinkers including Martha Nussbaum and Patricia Churchland. With in-depth overviews of Waldo Emerson, Margaret Fuller, Noah Porter, Frederick Rauch, Benjamin Franklin, Thomas Paine, and Thomas Jefferson, this is an invaluable one-stop research volume to understanding leading figures in American thought and the development of American intellectual history.

The Turnings of Darkness and Light Kenneth Surin, 1989-02-02 This collection of essays written between 1975 and 1987 covers the doctrine of analogy, the Trinity, theological realism, the problems of evil and suffering, the doctrine of God, tragedy and Christian life, the doctrine of the atonement, christology, the theology of religions, ecclesiology, discipleship, and the so-called theistic proofs.

New Rhetorics for Contemporary Legal Discourse Condello Angela Condello, 2020-03-18 Are the general and the particular separated in legal rhetorics? What is the function of singular events, facts, names in legal argumentation, and what is their relationship to legal normativity? Bringing together an international range of legal scholars, this collection takes a diachronic approach and addresses these questions from the perspective of contemporary legal discourse. It explores the changes in legal form and transmission that have been generated both by globalisation and by common law's irreversible encounter with the civilian methods of European law. It explores how, in the contemporary legal discourse, exemplarity and all rhetoric processes based on the general-particular dichotomy more generally regained relevance. In doing so, it highlights the centrality of the example and proposes the development of new rhetorical approaches better suited to today's legal practices which operate in a globalised field.

On Being a Christian in the Academy Andrew Sloane, 2007-01-01 Having identified crucial flaws in both classical foundationalism and cognitive relativism, Andrew Sloane expounds Wolterstorff's theory of rationality and his understanding of the devising and weighing of theories. The role of control beliefs in scholarship and the place of Christian beliefs in the practice of Christian scholarship are explored. The author then critically appraises Wolterstorff's view in dialogue with its rivals. He presents a defensible, person-specific but nonrelativist criterion of theory choice and outlines an organic epistemological metaphor. The book concludes by exploring the implications of these findings for theological scholarship, in particular Old Testament exegesis. The author suggests that Wolterstorff's notion of scholarly practice explains the practice of scholarship and is to be commended to Christian scholars as a cogent and challenging method of devising and appraising theories.

The Implicit Theology of

the Lord's Prayer Jan Muis, 2021-01-15 The postmodern and secular culture of the West requires a new reflection on God The Implicit Theology of the Lord's Prayer A Biblical and Theological Investigation reflects on God on the basis of an original and central expression of the Christian faith the Lord's Prayer First Jan Muis interprets the divine names central to this prayer in their biblical contexts Next Muis understands the divine attributes implied by these names from the biblical narrative of God's self-revealing actions and explains them in a contemporary framework God's Name indicates his particular personal presence and encounter with human beings The holiness of God's Name and the justice of his Kingship are more than just aspects of the love of the Father the Son and the Spirit The Creator is not a human blown large in his companionship with humans he remains the Exalted who lives both within and beyond created temporal reality In the context of a secular age Muis discusses in what sense this God exists Themelios, Volume 47, Issue 1 D. Time deals with the problem of time from different perspectives such as logic physics and philosophy It contains 18 previously unpublished papers written by philosophers from various European countries as well as a large introduction about the history and the main situation in the respective fields today The prominent issues which are addressed in this book concern the direction of time the reality of tenses the objectivity of becoming the existence in time and the logical structures of reasoning about time The papers have been written based on different approaches partly depending on whether the authors subscribe to an A theory or a B theory of time Audience Due to the broad variety of approaches the book contains important contributions both for philosophers philosophers of science logicians and for scientists working in the field of language and AI

Loving God with Your Mind Paul Gould, Richard Brian Davis, 2013-12-18 Over the past twenty five years no one has done more than J P Moreland to equip Christians to love God with their minds In his work as a Christian philosopher scholar and apologist he has influenced thousands of students written groundbreaking books and taught multitudes of Christians to defend their faith In honor of Moreland s ministry general editors Paul M Gould and Richard Brian Davis have assembled a team of friends and colleagues to celebrate his work In three major parts devoted to philosophy apologetics and spiritual formation scholars such as Stewart Goetz Paul Copan Douglas Groothuis Scott Rae and Klaus Issler interact with Moreland s thought and make their own contributions to these important subjects Moreland concludes the volume with his own essay Reflections on the Journey Ahead

Artistic Truth Lambert Zuidervart, 2004-10-18 It is unfashionable to talk about artistic truth Yet the issues traditionally addressed under that term have not disappeared Indeed questions concerning the role of the artist in society the relationship between art and knowledge and the validity of cultural interpretation have intensified Lambert Zuidervart challenges intellectual fashions He proposes a new critical hermeneutics of artistic truth that engages with both analytic and continental philosophies and illuminates the contemporary cultural scene People turn to the arts as a way of finding orientation in their lives communities and institutions But philosophers hamstrung by their own theories of truth have been unsuccessful in accounting for this common feature in our lives This book portrays artistic truth as a process of imaginative disclosure in which expectations of authenticity significance and integrity prevail Understood in this way truth becomes central to the aesthetic and social value of the arts
