

VIRTUE ETHICS

Virtue ethics is a moral philosophy that emphasizes individuals' character and personality traits instead of their actions.

EXPLANATION

Virtue ethics holds that an individual's ethical behavior should be measured by their trait-based characteristics such as honesty, courage, and wisdom, rather than by the consequences of their actions or the particular duties they are obliged to obey. This approach emphasizes cultivating good virtues.

CENTRAL CONCEPTS

1. **Virtue (aretê)** - Refers to genuine moral excellence of character.
2. **Eudaimonia** - humans should act in ways that seek purpose and meaning.
3. **Practical Wisdom (phronêsis)** - refers to the importance of rational decision-making based on empirical evidence.

On Virtue Ethics

Christine Swanton

On Virtue Ethics:

On Virtue Ethics Rosalind Hursthouse, 1999-12-16 Virtue ethics is perhaps the most important development within late twentieth century moral philosophy Rosalind Hursthouse who has made notable contributions to this development now presents a full exposition and defence of her neo Aristotelian version of virtue ethics She shows how virtue ethics can provide guidance for action illuminate moral dilemmas and bring out the moral significance of the emotions Deliberately avoiding a combative stance she finds less disagreement between Kantian and neo Aristotelian approaches than is usual and she offers the first account from a virtue ethics perspective of acting from a sense of duty She considers the question which character traits are virtues and explores how answers to this question can be justified by appeal to facts about human nature Written in a clear engaging style which makes it accessible to non specialists *On Virtue Ethics* will appeal to anyone with an interest in moral philosophy

The Practice of Virtue Jennifer Welchman, 2006-03-15 This collection provides readings from five classic thinkers with importantly distinct approaches to virtue theory along with five new essays from contemporary thinkers that apply virtue theories to the resolution of practical moral problems Jennifer Welchman's Introduction discusses the history of virtue theory A short introduction to each reading highlights the distinctive aspects of the view expressed

Virtue Ethics Roger Crisp, Michael A. Slote, Michael Slote, 1997 The aim of this series is to bring together important recent writings in major areas of philosophical inquiry selected from a variety of sources mostly periodicals which may not be conveniently available to the university student or the general reader The editors of each volume contribute an introductory essay on the items chosen and on the questions with which they deal A selective bibliography is appended as a guide to further reading This volume brings together much of the strongest and most influential work undertaken in the field of virtue ethics over the last four decades The ethics of virtue predominated in the ancient world and recent moral philosophy has seen a revival of interest in virtue ethics as a rival to Kantian and utilitarian approaches to morality Divided into four sections it includes articles critical of other traditions early attempts to offer a positive vision of virtue ethics some later criticisms of the revival of virtue ethics and finally some recent more theoretically ambitious essays in virtue ethics This collection should appeal not only to students and others seeking a wider knowledge of contemporary developments in moral philosophy but to professional philosophers as well

Virtue Ethics Christine Swanton, 2003-03-20 Christine Swanton offers a new comprehensive theory of virtue ethics which addresses the major concerns of modern ethical theory from a character based perspective Discussion of many problems in moral theory such as moral constraints rightness of action the good life the demandingness of ethics the role of the subjective and the practicality of ethics has been dominated by Kantian and Consequentialist theories with their own distinctive conceptual apparatus *Virtue Ethics* shows how a different framework can shed new light on these intractable issues Swanton's approach is distinctive in that it departs in significant ways from classical versions of virtue ethics derived primarily from Aristotle Employing insights from Nietzsche and other sources she

argues against both eudaimonistic virtue ethics and traditional virtue ethical conceptions of rightness In developing a pluralistic view she shows how different modes of moral acknowledgement such as love respect appreciation and creativity are embedded in the very fabric of virtue the moral life and the good life The Oxford Handbook of Virtue Nancy E. Snow,2017-12-01 The late twentieth and early twenty first centuries have seen a renaissance in the study of virtue a topic that has prevailed in philosophical work since the time of Aristotle Several major developments have conspired to mark this new age Foremost among them some argue is the birth of virtue ethics an approach to ethics that focuses on virtue in place of consequentialism the view that normative properties depend only on consequences or deontology the study of what we have a moral duty to do The emergence of new virtue theories also marks this new wave of work on virtue Put simply these are theories about what virtue is and they include Kantian and utilitarian virtue theories Concurrently virtue ethics is being applied to other fields where it hasn't been used before including bioethics and education In addition to these developments the study of virtue in epistemological theories has become increasingly widespread to the point that it has spawned a subfield known as virtue epistemology This volume therefore provides a representative overview of philosophical work on virtue It is divided into seven parts conceptualizations of virtue historical and religious accounts contemporary virtue ethics and theories of virtue central concepts and issues critical examinations applied virtue ethics and virtue epistemology Forty two chapters by distinguished scholars offer insights and directions for further research In addition to philosophy authors also deal with virtues in non western philosophical traditions religion and psychological perspectives on virtue **On Virtue Ethics: Moral Motivation** Rosalind Hursthouse,1999 Virtue ethics is perhaps the most important development within late 20th century moral philosophy Rosalind Hursthouse presents an exposition and defence of her neo Aristotelian version of virtue ethics *Virtue Ethics* Daniel Statman,2019-08-07 The central question in contemporary ethics is whether virtue can replace duty as the primary notion in ethical theory This is book focuses directly on this subject **On Virtue Ethics** Rosalind Hursthouse,2010 **Virtue Ethics** Nafsika Athanassoulis,2013-01-24 From Aristotle to MacIntyre this introduction to virtue ethics critically explores competing accounts of virtue and potential uses and future directions for the discipline

Aristotle and the Virtues Howard J. Curzer,2012-03-01 Aristotle is the father of virtue ethics a discipline which is receiving renewed scholarly attention Yet Aristotle's accounts of the individual virtues remain opaque for most contemporary commentators of Aristotle's *Nicomachean Ethics* have focused upon other matters In contrast Howard J Curzer takes Aristotle's detailed description of the individual virtues to be central to his ethical theory Working through the *Nicomachean Ethics* virtue by virtue explaining and generally defending Aristotle's claims this book brings each of Aristotle's virtues alive A new Aristotle emerges an Aristotle fascinated by the details of the individual virtues Justice and friendship hold special places in Aristotle's virtue theory Many contemporary discussions place justice and friendship at opposite perhaps even conflicting poles of a spectrum Justice seems to be very much a public impartial and dispassionate thing while friendship is

paradigmatically private partial and passionate Yet Curzer argues that in Aristotle's view they are actually symbiotic Justice is defined in terms of friendship and good friendship is defined in terms of justice Curzer goes on to reveal how virtue ethics is not only about being good it is also about becoming good Aristotle and the Virtues reconstructs Aristotle's account of moral development Certain character types serve as stages of moral development Certain catalysts and mechanisms lead from one stage to the next Explaining why some people cannot make moral progress specifies the preconditions of moral development Finally Curzer describes Aristotle's quest to determine the ultimate goal of moral development happiness

Virtue Ethics, Old and New Stephen M. Gardiner, 2018-08-06 There are grounds for saying that contemporary work in virtue ethics is if not quite in its theoretical infancy at least not far out of diapers And this suggests that we should be gentle and nurturing allowing it time to flourish before coming to any definitive verdict on its merits However it is hard to deny that modern day virtue ethics is part of a long sophisticated and fairly continuous tradition Not only does the approach have origins almost as ancient as philosophy itself but its history also includes extensive work by such philosophical luminaries as at least Socrates Plato Aristotle the Stoics Aquinas and perhaps Hume and Nietzsche And this suggests that we should already be in a good position to assess its appeal from the Introduction In *Virtue Ethics Old and New* ten philosophers seek to enrich the contemporary understanding and development of virtue ethics through a detailed examination of some key contributions from its past Their essays demonstrate the continuing relevance of the history of moral philosophy to contemporary debates

A Theory of Virtue Robert Merrihew Adams, 2008-10-23 The distinguished philosopher Robert M Adams presents a major work on virtue which is once again a central topic in ethical thought *A Theory of Virtue* is a systematic comprehensive framework for thinking about the moral evaluation of character Many recent attempts to stake out a place in moral philosophy for this concern define virtue in terms of its benefits for the virtuous person or for human society more generally In Part One of this book Adams presents and defends a conception of virtue as intrinsic excellence of character worth prizing for its own sake and not only for its benefits In the other two parts he addresses two challenges to the ancient idea of excellence of character One challenge arises from the importance of altruism in modern ethical thought and the question of what altruism has to do with intrinsic excellence Part Two argues that altruistic benevolence does indeed have a crucial place in excellence of character but that moral virtue should also be expected to involve excellence in being for other goods besides the well being and the rights of other persons It explores relations among cultural goods personal relationships one's own good and the good of others as objects of excellent motives The other challenge the subject of Part Three of the book is typified by doubts about the reality of moral virtue arising from experiments and conclusions in social psychology Adams explores in detail the prospects for an empirically realistic conception of excellence of character as an object of moral aspiration endeavor and education He argues that such a conception will involve renunciation of the ancient thesis of the unity or mutual implication of all virtues and acknowledgment of sufficient moral luck in the development of any individual's

character to make virtue very largely a gift rather than an individual achievement though nonetheless excellent and admirable for that

Contemporary Virtue Ethics Nancy E. Snow, 2020-10-22 This Element provides an overview of the central components of recent work in virtue ethics The first section explores central themes in neo Aristotelian virtue ethics while the second turns the discussion to major alternative theoretical perspectives The third section focuses on two challenges to virtue ethics The first challenge is the self centeredness or egoism objection which is the notion that certain kinds of virtue ethics are inadequate because they advocate a focus on the person s own virtue and flourishing at the expense of or at least without due regard for the concerns of others The second is situationist challenges to the ideas that there are indeed virtues and that personality is integrated enough to support virtues

The Cambridge Companion to Virtue Ethics Daniel C. Russell, 2013-02-14 Virtue ethics has emerged from a rich history in which both Aristotle and Aquinas have played an important role to become one of the fastest growing fields in contemporary ethics In this volume of newly commissioned essays leading moral philosophers offer a comprehensive overview of virtue ethics They examine the theoretical structure of virtue ethics and its place in contemporary moral theory and other topics discussed include the history of virtue based approaches to ethics what makes these approaches distinctive what they can say about specific practical issues and where we can expect them to go in the future This Companion will be useful to students of virtue ethics and the history of ethics and to others who want to understand how virtue ethics is changing the face of contemporary moral philosophy

The Routledge Companion to Virtue Ethics Lorraine Besser-Jones, Michael Slote, 2015-02-20 Virtue ethics is on the move both in Anglo American philosophy and in the rest of the world This volume uniquely emphasizes non Western varieties of virtue ethics at the same time that it includes work in the many different fields or areas of philosophy where virtue ethics has recently spread its wings Just as significantly several chapters make comparisons between virtue ethics and other ways of approaching ethics or political philosophy or show how virtue ethics can be applied to real world problems

Virtue Ethics Stephen Darwall, 2002-11-08 Virtue Ethics collects for the first time the main classical sources and the central contemporary expressions of virtue ethics approach to normative ethical theory Edited and introduced by Stephen Darwall these readings are essential for anyone interested in normative theory Introduced by Stephen Darwall this collection brings together classic and contemporary readings which define and advance the literature on virtue ethics Includes six essays which respond to the classic sources Includes a contemporary discussion on character and virtue by Gary Watson Includes classic essays by Aristotle Francis Hutcheson and David Hume and recent reactions to this work by philosophers including Philippa Foot John McDowell Alasdair MacIntyre Annette Baier Rosalind Hursthouse and Michael Slote

Virtue Ethics Liezl van Zyl, 2018-07-03 This volume provides a clear and accessible overview of central concepts positions and arguments in virtue ethics today While it focuses primarily on Aristotelian virtue ethics it also includes discussion of alternative forms of virtue ethics sentimentalism and pluralism and competing normative theories consequentialism and

deontology The first six chapters are organized around central questions in normative ethics that are of particular concern to virtue ethicists and their critics What is virtue ethics What makes a trait a virtue Is there a link between virtue and happiness What is involved in being well motivated What is practical wisdom What makes an action right The last four chapters focus on important challenges or objections to virtue ethics Can virtue ethics be applied to particular moral problems Does virtue ethics ultimately rely on moral principles Can it withstand the situationist critique What are the prospects for an environmental virtue ethics

A Feminist Perspective on Virtue Ethics S. Berges, 2015-03-03 A Feminist Perspective on Virtue Ethics provides a historical survey of feminist virtue ethics and shows how the ethical theorizing of women in the past can be brought to bear on that of women in the present

Working Virtue Rebecca L. Walker, Philip J. Ivanhoe, 2007-01-04 Working Virtue is the first substantial collective study of virtue theory and contemporary moral problems Leading figures in ethical theory and applied ethics discuss topics in bioethics professional ethics ethics of the family law interpersonal ethics and the emotions Virtue ethics is centrally concerned with character traits or virtues and vices such as courage cowardice kindness heartlessness and generosity stinginess These character traits must be looked to in any attempt to understand which particular actions are right or wrong and how we ought to live our lives As a theoretical approach virtue ethics has made an impressive comeback in relatively recent history both posing an alternative to and in some ways complementing well known theoretical stances such as utilitarianism and deontology Yet there is still very little material available that presents virtue ethical approaches to practical contemporary moral problems such as what we owe distant strangers our parents or even non human animals This book fills the gap by dealing with these and other pressing moral problems in a clear and theoretically nuanced manner The contributors offer a variety of perspectives including pluralistic eudaimonistic care theoretical Chinese comparative and stoic This variety allows the reader to appreciate not only the wide range of topics for which a virtue ethical approach may be fitting but also the distinctive ways in which such an approach may be manifested

Virtue Ethics in the Middle Ages István Pieter Bejczy, 2008 This collection surveys the tradition of medieval commentaries on Aristotle's Nicomachean Ethics from its thirteenth century origins to the fifteenth century concentrating on the conception of the moral and intellectual virtues in a continuous interplay of ancient and Christian moral thought

On Virtue Ethics Introduction

In the digital age, access to information has become easier than ever before. The ability to download On Virtue Ethics has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download On Virtue Ethics has opened up a world of possibilities. Downloading On Virtue Ethics provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading On Virtue Ethics has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download On Virtue Ethics. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading On Virtue Ethics. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading On Virtue Ethics, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download On Virtue Ethics has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About On Virtue Ethics Books

1. Where can I buy On Virtue Ethics books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
