*The Writers Directory*, 2013 *Handbook of Writing Research* Charles A. MacArthur, Steve Graham, Jill Fitzgerald, 2008-01-14 Presents a collection of essays discussing the theories and models of writing research **The New Yorker**, 2007 *Motherhood and Creativity in Contemporary Self-Life Writing* Alice Braun, 2024-08-21 This book aims to study the representation of motherhood in self-life writing by English speaking authors It highlights the particular issues women writers are faced with when they try to combine their vocation as artists with their duties to their children For those women who claim their right to be both mothers and writers several cultural myths need to be taken down chief among which is the representations that we have of what being an artist should be like as well as the role a mother should have towards her children This book looks at self-life writing by women from English speaking countries to reveal the common themes and tropes which recur in texts written on the subject of motherhood by looking at them from both a literary and a cultural perspective It also aims to demonstrate that a new generation of women writers is taking up the subject and forging a new literary tradition *Lucy in Print* Michael Karol, 2003-09 Michael Karol the author of *Lucy A to Z* has done it again *Lucy in Print* digs deep to give Lucy fans and who isn't one a unique look at Lucille Ball her TV shows and her co-stars as reported by the press over the past 60 years With commentary and analysis by the author and visit to Lucy's birthplace in Jamestown NY and two lost plays about *I Love Lucy* **Exploring Signature Pedagogies** Regan A. R. Gurung, Nancy L. Chick, Aeron Haynie, 2023-07-03 From the Foreword These authors have clearly shown the value in looking for the signature pedagogies of their disciplines Nothing uncovers hidden assumptions about desired knowledge skills and dispositions better than a careful examination of our most cherished practices The authors inspire specialists in other disciplines to do the same Furthermore they invite other colleagues to explore whether relatively new interdisciplinary fields such as Women's Studies and Global Studies have or should have a signature pedagogy consistent with their understanding of what it means to apprentice in these areas Anthony A Ciccone Senior Scholar and Director Carnegie Academy for the Scholarship of Teaching

and Learning How do individual disciplines foster deep learning and get students to think like disciplinary experts With contributions from the sciences humanities and the arts this book critically explores how to best foster student learning within and across the disciplines This book represents a major advance in the Scholarship of Teaching and Learning SoTL by moving beyond individual case studies best practices and the work of individual scholars to focus on the unique content and characteristic pedagogies of major disciplines Each chapter begins by summarizing the SoTL literature on the pedagogies of a specific discipline and by examining and analyzing its traditional practices paying particular attention to how faculty evaluate success Each concludes by articulating for its discipline the elements of a signature pedagogy that will improve teaching and learning and by offering an agenda for future research Each chapter explores what the pedagogical literature of the discipline suggests are the optimal ways to teach material in that field and to verify the resulting learning Each author is concerned about how to engage students in the ways of knowing the habits of mind and the values used by experts in his or her field Readers will not only benefit from the chapters most relevant to their disciplines As faculty members consider how their courses fit into the broader curriculum and relate to the other disciplines and design learning activities and goals not only within the discipline but also within the broader objectives of liberal education they will appreciate the cross disciplinary understandings this book affords
