The Edwardians Roy Hattersley, 2015-09-01 A convincing account of a watershed epoch Hattersley's concise yet comprehensive history casts new light on a much misunderstood era Publishers Weekly Edwardian Britain has often been described as a golden sunlit afternoon personified by its genial and self indulgent King In fact modern Britain was born during the reign of Edward VII when politics science literature and the arts were turned upside down In Parliament the peers were crushed for the first time since Magna Carta Irish nationalists and suffragettes took politics out on to the streets Home Rule and Votes for Women were delayed not precipitated by the First World War Great parliamentary stars such as Lloyd George and Winston Churchill typified an era in which personalities dominated the headlines of the new tabloid newspapers It was the age of Rolls and Royce Scott and Shackleton Edward Elgar Shaw the Pankhursts and Mrs Alice Keppel whose

social life was reported without mention of her relationship with the King The theater of ideas superseded drawing room dramas Novelists of genius from Henry James to D H Lawrence produced a masterpiece each year A London gallery caused a sensation with an exhibition of Postimpressionists Edward Elgar was the first English composer for two hundred years to stand comparison with the continental European masters In sport Victorian chivalry was replaced with unashamed professionalism Man flew for the first time and the motorcar became a common sight on city streets Physicists examined the structure of the atom and philosophers disputed the traditional definition of virtue The churches tried without success to confront and confound a new skepticism Explorers sought to prove that men could live and die like gods Drawing on previously unpublished diaries and letters Roy Hattersley's *The Edwardians* is a beguiling account of a turbulent and frequently misunderstood period It is a full and often humorous portrait of an era that he elevates to its rightful place in British history

Proceedings of the Royal Geographical Society and Monthly Record of Geography Royal Geographical Society (Great Britain), 1890 **At the Margins of Empire** Lipokmar Dzüvichü, Manjeet Baruah, 2025-05-26 Empire building in British India was inseparably tied to the processes of frontier making and the creation of boundaries Through a range of complex practices and developments the constitution of these spaces took shape at various historical conjunctures The making of these spaces was also shaped by a variety of imperial concerns including local and global processes connections and entanglements Focusing on the period between the 19th and the early 20th centuries this book looks at how the dynamics of frontier and boundary creation were shaped by a variety of agents institutions infrastructure and technologies events economy travel forms of representation and imperial rivalries The role of capital war and violence was also intrinsic to the creation of such spaces Further societies in these spaces responded to these processes in various ways The book examines how they negotiated and mediated these complex developments of modern space making in multiple ways at the margins of empire Part of the *Empire and Frontiers* series this book will be of interest to researchers and readers of history anthropology cultural studies social and cultural history frontiers boundaries and borderland studies Himalayan studies and studies of commodities and circulations *The Great Game* Peter Hopkirk, 2006-03-27 For nearly a century the two most powerful nations on earth Victorian Britain and Tsarist Russia fought a secret war in the lonely passes and deserts of Central Asia Those engaged in this shadowy struggle called it *The Great Game* a phrase immortalized by Kipling When play first began the two rival empires lay nearly 2 000 miles apart By the end some Russian outposts were within 20 miles of India This classic book tells the story of the Great Game through the exploits of the young officers both British and Russian who risked their lives playing it Disguised as holy men or native horse traders they mapped secret passes gathered intelligence and sought the allegiance of powerful khans Some never returned The violent repercussions of the Great Game are still convulsing Central Asia today **Proceedings of the Royal Geographical Society and monthly record of geography**, 1890 **Modern Etiquettes for Boys & Youngmen** Arnel Frankl, 2009-12-01 Man is a social animal and he

finds his true delight in society The Youngman who makes his first entrance into society should know how to choose his friends and conduct himself towards them Experience is of course the best guide but at first starting this must come second hand from an older friend or from books A judicious friend is the best guide but how is the young man to know whom to choose Naturally he opts for the second option the books And this book serves this purpose It offers invaluable instructions regarding how to behave in the society from dress code to dating etiquettes from greeting capsules to kissing etiquettes from ballroom etiquettes to the etiquettes of travelling and much more Read the book and explore the delightful world of gentlemanly etiquettes

Reconciling Science and Religion Peter J. Bowler, 2014-04 Although much has been written about the vigorous debates over science and religion in the Victorian era little attention has been paid to their continuing importance in early twentieth century Britain Reconciling Science and Religion provides a comprehensive survey of the interplay between British science and religion from the late nineteenth century to World War II Peter J Bowler argues that unlike the United States where a strong fundamentalist opposition to evolutionism developed in the 1920s most famously expressed in the Scopes monkey trial of 1925 in Britain there was a concerted effort to reconcile science and religion Intellectually conservative scientists championed the reconciliation and were supported by liberal theologians in the Free Churches and the Church of England especially the Anglican Modernists Popular writers such as Julian Huxley and George Bernard Shaw sought to create a non Christian religion similar in some respects to the Modernist position Younger scientists and secularists including Rationalists such as H G Wells and the Marxists tended to oppose these efforts as did conservative Christians who saw the liberal position as a betrayal of the true spirit of their religion With the increased social tensions of the 1930s as the churches moved toward a neo orthodoxy unfriendly to natural theology and biologists adopted the Modern Synthesis of genetics and evolutionary theory the proposed reconciliation fell apart Because the tensions between science and religion and efforts at reconciling the two are still very much with us today Bowler s book will be important for everyone interested in these issues

Digest, 1898 *The Literary Digest*, 1898 **The Book of the Long Trail** Sir Henry John Newbolt, 1919 *The Last Englishmen* Deborah Baker, 2018-08-21 A sumptuous biographical saga both intimate and epic about the waning of the British Empire in India John Auden was a pioneering geologist of the Himalaya Michael Spender was the first to draw a detailed map of the North Face of Mount Everest While their younger brothers W H Auden and Stephen Spender achieved literary fame they vied to be included on an expedition that would deliver Everest s summit to an Englishman a quest that had become a metaphor for Britain s struggle to maintain power over India To this rivalry was added another in the summer of 1938 both men fell in love with a painter named Nancy Sharp Her choice would determine where each man s wartime loyalties would lie Set in Calcutta London the glacier locked wilds of the Karakoram and on Everest itself *The Last Englishmen* is also the story of a generation The cast of this exhilarating drama includes Indian and English writers and

artists explorers and Communist spies Die Hards and Indian nationalists political rogues and police informers Key among them is a highborn Bengali poet named Sudhin Datta a melancholy soul torn like many of his generation between hatred of the British Empire and a deep love of European literature whose life would be upended by the arrival of war on his Calcutta doorstep Dense with romance and intrigue and of startling relevance for the great power games of our own day Deborah Baker's *The Last Englishmen* is an engrossing story that traces the end of empire and the stirring of a new world order
