Introduction to Health and Safety in Construction Phil Hughes, Ed Ferrett, 2007-02-19. Introduction to Health and Safety in Construction covers the specific challenges faced by the construction industry as well as the basics of occupational safety and health in general. The coverage of this book has been directly matched to the Certificate course in Construction Safety and Health from NEBOSH. However, the comprehensive coverage of health and safety topics in a construction context makes it relevant for other courses in Construction Design and Management, Construction Safety and Health, and the Built Environment, both in the UK and overseas, as well as for construction professionals who are looking for an introduction to health and safety which addresses the specific problems encountered in their industry. In its second edition, the book has been updated to incorporate changes in legislation regarding Noise, Vibration, COSHH, Work at Height, Fire Safety, Construction Design and Management, Asbestos. The text is highly illustrated in full colour, easy to read, and includes self-assessment questions taken directly from NEBOSH examinations. A chapter on study skills offers support for professionals returning to study. The text is also supported with checklists, report forms, and record sheets, making it a valuable reference tool for construction managers, supervisors, designers, building and civil engineers to consult on the day-to-day issues of health and safety.
