Autobiographical Writing by Early Modern Hispanic Women Elizabeth Teresa Howe, 2016-04-08 Women's life writing in general has too often been ignored dismissed or relegated to a separate category in those few studies of the genre that include it The present work addresses these issues and offers a countervailing argument that focuses on the contributions of women writers to the study of autobiography in Spanish during the early modern period There are indeed examples of autobiographical writing by women in Spain and its New World empire evident as early as the fourteenth century Memorias penned by Doña Leonor López de Córdoba and continuing through the seventeenth century Cartas of Sor Juana Inés de la Cruz What sets these accounts apart the author shows are the variety of forms adopted by each woman to tell her life and the circumstances in which she adapts her narrative to satisfy the presence of male critics whether ecclesiastic or political actual or imagined who would dismiss or even alter her life story Analyzing how each of these women viewed her life and conversely how their contemporaries both male and female received and sometimes edited her account Howe reveals the tension in the texts

characterized by its clear articulation and incisive observations mirrors the complexities of Palmerston's tenure as Prime Minister. Through a blend of biographical detail and political analysis, the book captures the nuances of a statesman whose diplomacy shaped British foreign policy during a significant epoch, revealing the interplay between personal ambitions and national interests. Trollope, an accomplished novelist and chronicler of his times, possessed an intimate understanding of Victorian society gleaned from his own experiences as a civil servant and a keen observer of parliamentary life. His familiarity with the political landscape of the era enabled him to portray Palmerston not just as a politician but as a figure emblematic of the changing tides of British politics, reflecting the aspirations and anxieties within the broader social fabric of the time. Readers interested in history and political biography will find Lord Palmerston a remarkable exploration of leadership and diplomacy. Trollope invites us to reflect on the art of governance while providing a vivid portrait of a man whose legacy continues to influence the nuances of political discourse today.

Apuleius' Metamorphoses Stefan Tilg, 2014. This volume reveals how Apuleius' *Metamorphoses*, the only fully extant Roman novel and a classic of world literature, works as a piece of literature exploring its poetics and the way in which questions of production and reception are reflected in its text. Providing a roughly linear reading of key passages, the volume develops an original idea of Apuleius as an ambitious writer led by the literary tradition, rhetoric, and Platonism, and argues that he created what we could call a serio-comic philosophical novel *avant la lettre*. The author focuses in particular on the ways in which Apuleius drew attention to his achievement and introduced the Greek ass story to Roman literature. Thus, the volume also sheds new light on the forms and the literary and intellectual potential of the genre of the ancient novel.
